

COWBOY WHOOP WELCOMESTAFT

Cheyenne Offers Real Frontier Greeting to Him

WILD AND WOOLLY ESCORT

President Tickled West by His Move to Gain Women's Votes—He Was Off Last Night for Salt Lake City.

Cheyenne, Wyo., Oct. 5.—They welcomed President Taft to Wyoming yesterday with a frontier day revival. Mr. Taft's limited stay in Cheyenne cut short the performance, but what it lacked in time was made up in noise. Every bronco that could qualify with a bad enough name was brought into town and the cowboys "busted" them for the president's pleasure. They trotted out the corps of deputy sheriffs for an escort and surrounded the president in a wild and woolly manner before he knew he was off his train. Then they took the president out to Fort Russell to review the troops. They gave him a ride all over town with his cowboy escort and ended up with a speech at the opera house.

The president tickled the West Tuesday night at the banquet of the Denver chamber of commerce by his open play for the votes for the women. It was a public affair and the women in large numbers sat in the galleries. Mr. Taft left the men and made the entire rounds of the galleries to shake hands with every woman present. When he began his speech he complimented the women and brought down the house by adding "You see I know the women vote out here."

The Denver banquet was a typically western affair. Instead of menus they laid song programmes at the plates and insisted that the president sing. One of the numbers was a parody on "When I Walk I Always Walk with Billy." They started the president in the song and it was the only number that Mr. Taft balked on singing. For the rest of the time he did a lot more singing than eating and several times the songs broke up in an uproar of laughter as the president wagged his head to lead the music.

The president left Rawlins last night for Salt Lake City.

MRS. EDDY'S HOME.

Did She Love Boston More Than Concord?

Boston, Oct. 5.—The hearing in the supreme court on the question of the domicile of Mrs. Mary Baker G. Eddy at the time of her death last December, was concluded yesterday with the evidence of Josiah E. Fernald of Concord, N. H., one of the trustees of her property and General Frank K. Streeter of Concord, her personal counsel in New Hampshire.

The former stated that after Mrs. Eddy went to Newton, he remained at Concord and kept the estate there in condition for immediate occupancy. General Streeter said that Mrs. Eddy always regarded Concord as her legal residence and that she had considerable affection for that city, showing her interest by giving many thousands of dollars for improvements on the streets.

Arguments by Attorney General Swift for Massachusetts and Charles F. Choate for the estate closed the hearing.

A decision by Judge Morton is expected in a few days.

Defeats Bowdoin Football Team 23 to 0 at Hanover.

Hanover, N. H., Oct. 5.—Dartmouth showed much improvement in yesterday's game and defeated Bowdoin 23 to 0. The first touchdown came in the second period on rushes and a forward pass to Hodget from the 25-yard line, which was carried over for the second score.

The ball was constantly in the visitors' territory in the third period, Hodget making two good runs for a touchdown. Rushes following a forward pass gave Dartmouth her fourth touchdown.

Substitutes for the Common Cup.

The new ordinance of the board of health prohibiting the use of common drinking cups in public places, which went into force Sunday, desegregates well of the community. It is a most enlightened prohibition, and its enforcement should prevent many cases of oral infection. It will entail a certain amount of inconvenience upon the public, but this should be cheerfully borne in the interest of public hygiene.

There is no medical fact more surely established than the acute infectiousness, in certain diseases, of the secretions in and about the mouth. These secretions may be readily transferred from person to person by the common cup. No one knows how large a part this method of transfer plays in the annual disease and mortality statistics. That it plays some, and perhaps a considerable part, all sanitarians admit.

There are several substitutes for the common cup available at public drinking places. The simplest of these is the mouth fountain, by means of which a small stream of water is thrown directly into the mouth—the drinker's lips not touching anything but water. Then there are the vending machines, which furnish a very satisfactory cup for a cent. Or, finally, the drinker may carry his own cup, of folding metal type, or a packet of sanitary cups from the drug store, or better and cheaper than all, one of home manufacture.

The only thing necessary for the home-made cup is some foolcap or other glazed paper. A piece of this eight or ten inches square can be transformed by five foldings into an entirely satisfactory and efficient drinking cup. There is really no reason why one or several of these should not be carried, just as is a handkerchief. They are so cheap as to be within the reach of everyone, are convenient to carry and absolutely clean. If drinkers objected even to this slight trouble, a pad of "cup-paper" could be kept at each drinking place and the cup be folded there as needed.—New York Globe.

PANAMA'S TROUBLES.

Republic Is Small, But Its Politics Are Interesting.

PANAMA, Oct. 5.—Arosemena states that at a cabinet meeting Tuesday afternoon it was decided to recall the Panamanian minister to the United States, Dr. Belisario Porras, as the government is not satisfied with his services.

The foreign secretary, Dr. Frederico Boyd, voted against the recall.

The president adds that he will take advantage of the permission by the supreme court and separate himself from the presidency next February and will then be a candidate for re-election. The constitution of Panama provides that no citizen may be a candidate for the presidency of the office within six months preceding the day of election.

Arosemena will comply with the letter of the law by merely absenting himself on leave. As he now proposes to begin his vacation in February, he will be, according to his partisans, eligible as a candidate in the elections next July. Arosemena was elected first vice-president and he became acting president for the unexpired term of the late president Obaldia. Obaldia was elected for the term of 1908-1912.

Members of the National Liberal directory state that they consider the action of the cabinet in recalling Porras, the result of intrigues of his enemies, who fear that the presence of Porras in the American capital may interfere with their plans for the re-election of Arosemena.

Up to now, the Liberals have had no candidate, but it seems probable that Porras will be selected to head their ticket. The elections promise to be sharply contested.

NEW INSURRECTION.

Fear That One May Be Imminent in Mexico.

Mexico City, Oct. 5.—El Pais yesterday published a sensational telegram from San Antonio, Tex., to the effect that the followers of General Reyes and the deposed president, General Diaz, have established a junta in that city and await the arrival of Reyes.

The telegram permits the inference that a new insurrection is to be begun.

M'CABE CAN HAMPER WILEY

As Legal Administrator of Pure Food Law He Can Prevent RIGOROUS PROSECUTIONS

Federal Officers Look for Further Developments—More Friction Anticipated—With McCabe in Office It is Said Peace Is Unlikely.

Washington, Oct. 5.—The big question now with respect to the enforcement of the pure food law, is whether it will be possible to obtain a rigorous system of prosecutions following on the recommendations of the bureau of chemistry. Dr. Wiley, by his order made public last evening, will dominate the bureau of chemistry; but so long as the legal side of the administration of the law rests in the hands of Solicitor McCabe, it is easy to see that Wiley's efforts may be made almost useless.

If there is to be a continuation of the present system of half hearted prosecution which result in insignificant fines for food dopers and drug adulterators, it will certainly be true that, as Dr. Wiley says, "the adulteration snake is not yet killed."

McCabe is really a department of justice official. It is now up to President Taft and the attorney general, if they really want pure food law enforcement, to detail some other official to take charge of food law prosecutions. Otherwise that part of the public that wants the law stringently administered will unquestionably feel that it had been handed a "gold brick."

It developed here yesterday that the opponents of Dr. Wiley in the department of agriculture and out of it are still busy in spite of the decision to allow him a free hand on the pure food and drugs board. The Moss committee was supposed to have closed its hearings; but the opponents of Dr. Wiley and his associates are bent on having them continued. They hope to get further testimony taken, and in the meantime are trying to dig up matter that will be inimical to Wiley, as well as to Dr. Rusbay and Dr. Kehler.

When Chairman Moss left here he gave it out the hearings were closed. He will be well remembered in much to be doubted. But the fact the attempt is being made to reopen them discloses that the enemies of the Wiley policy in the department of agriculture, as well as out of it, are not sleeping and have not abandoned their fight.

RATIFY NOMINATIONS.

Massachusetts Republicans Meet in Convention and Formulate Platform.

Boston, Mass., Oct. 5.—The Republican quest for ascendancy at the November election began yesterday with a ratification by the state convention of that party of the state ticket nominated at the primaries last week and the promulgation of principles on which nominees will stand.

The delegates cheered Lieut. Gov. Louis A. Frothingham, the party leader, for nearly 20 minutes.

Congressman Harris, who presided, spoke at length on tariff matters.

The platform declares that the examination of the state's business methods instituted by Gov. Foss failed to find any trace of corruption and vindicated the Republican administration of officers, and demands that the Democrats apologize to the people for making insinuations of corruption.

The revision of the tariff downward in the schedules that have outlived their usefulness, is urged.

Nearly all the party leaders were present, and Senators Crane and Lodge, ex-Gov. Draper and four Massachusetts congressmen sat on the platform.

BEE STINGS CURE RHEUMATISM.

Wealthy Brewer Discards Medicine for Heroic Treatment.

Ansonia, Conn., Oct. 5.—Hopelessly crippled for two years by rheumatism, William P. Fitzgerald, a wealthy brewer here, has been cured by daily exposing himself to the attack of bees. Leaving a hospital a month ago, when all remedies failed, Mr. Fitzgerald tried the bee experiment as a final resort. A friend who had benefited by like treatment suggested it to him.

A hive of bees quartered in the garret of Mr. Fitzgerald's home daily divided their time between gathering honey and burying their weapons in their owner. At times the bees would not sting until angered by poking. Their stabs caused severe pain in the patient's arms and legs, but he suffered heroically. After three weeks of the treatment he is able to walk without crutches.

BUFFIN'S LAND GOLD.

Finders Say It Is Richer Than the '49 Bonanzas.

Ottawa, Ont., Oct. 5.—The crew of a vessel chartered by B. Elmsley of Ottawa and Richard White of St. Johns have, according to a St. Johns, Newfoundland, dispatch, found rich and valuable gold deposits in Labrador. The dispatch tells of the steamship Kite getting home after a three months' northern Labrador cruise, bringing back five tons of mineral samples, including gold quartz, copper, iron, mica and other metals. It says the placer gold was dug out of the rivers and dry beds in the Buffin's Land valleys, in some cases samples proving the richest since the California strike.

Buys Tumbler in Court.

New York, Oct. 5.—John Vernon Bouvier, jr., lawyer, was thirsty in Justice Delaney's part of the supreme court Tuesday and asked for a glass of water. Clerk Walter Brady informed him that it was against the law to have a common cup or glass in the room and the court concurred. An attendant whispered to the lawyer that he would sell him a glass for five cents, and Mr. Bouvier paid and got a drink.

TRIPOLI MUST GO FIRST.

Powers Base All Peace Talk on Promise of Turkish Surrender of Province.

Constantinople, Oct. 5.—Replies to the Porte's appeal have been received from most of the powers, but, as was expected, they afford little satisfaction. In effect the powers say that they will be unable to offer mediation until the Porte suggests a basis of settlement on the lines of the Italian demands set forth in the ultimatum. Sir Gerard Augustus Lowther, the British ambassador to Turkey, delivered the reply of his government to the Turkish note. The reply says that the moment is not considered opportune for intervention, but Great Britain promises to use her best efforts toward securing peace. Germany's efforts toward mediation between Turkey and Italy are now directed toward discovering first whether the Porte will hand over Tripoli

to an Italian protectorate, while retaining her suzerainty over the province, and, second, what are the demands of Italy in this respect. When these points have been ascertained, Germany will begin a formal attempt at mediation. The Austrian ambassador had a long interview with the grand vizier Tuesday afternoon, and it is announced that the Russian ambassador will visit him to-day. It is understood that Austria has given a guarantee to Turkey that the status quo in the Balkans will be maintained.
