The fall term of the village school closed last Friday for a vacation of two weeks. Nearly the whole of last week was taken up with written and oral examinations in all the grades. The names of those in the third division, grammar department, who passed with a general average of 70 or more, are: William Hight, 88; Frank Philbrick, 72; Ada Mills, 85; Bernice Cilley, 83; Lottie Cilley, 84; Esther Mills, 82; Hazel Sanborn, 81; Nettie Bixby, 80; Ruth Chalmers, 80. The examination in this division was on the ten subjects required for

the third grade teacher's certificate, and one-half the questions used were taken from those given at the examination of the teachers one year ago, and the other half was a review of work passed over during the term. The following are the general averages of those in the second division, intermediate department, on eight subjects: Harold Bixby, 75; Harley Hood, 58; John Wilds, 70; Charles Cilley, 72; Fremont Welch, 73; Ernest Cilley, 77; Jay Hood, 76; Elwin Hood, 71; Dana Thurston, 70; Sadie Bagley, 60; Martha Chalmers, 80; Gertrude Cilley, 81; Linnie Welch, 71. The following averages were obtained by those in the primary department, third grade, on five subjects: Lena Philbrick, 50; Irma Welch, 60; Leslie Williams, 40; Rodney Wilds, 45; Josie Pero, 44. The first and second grades in this department on three subjects passed as follows: Herbert Sanborn, 40; Hazel Hood, 47; Stanley McQuigan, 55; Delma Hight, 38; Lee Welch, 42; Edwin McQuigan, 50. The dictionary prizes offered for the best maps of the New England states were won by Ada Mills, Bernice Cilley and Ruth Chalmers. The map drawn by Nettie Bixby was worthy of special mention. The names of those who were not absent during the term were Ernest Cilley, William Hight, Stanley McQuigan, Frank Philbrick, John Wilds, Rodney Wilds, Lena Philbrick, Gertrude Cilley, Delma Hight, (aged 5) and Hazel Sanborn. Total number enrolled during the term, 37; average daily attendance, 34. It is expected that the winter term will show an increased enrollment, as several from other districts have already made application for admission. There seems to be a lack of interest in the school by the parents as not a single visit by them is recorded in the register. The winter term is to begin Monday, Dec. 4, and the school director, F. E. Bagley, wishes to engage a teacher for same at once. A personal application is desired.

Death of Sara Chedel, a Popular Young Lady and Accomplished Musician.

Miss Sara Chedel died at the home of her parents, at 1 o'clock yesterday morning, after a distressing illness of several months from a disease of the heart, following rheumatism. A Woman's Back

The Aches and Pains Will Disappear if the Advice of This Barre Citizen is Followed.

A woman's back has many aches and pains. Most times 'tis the kidneys' fault. Backache is really kidney ache; That's why 'Doan's Kidney Pills' cure it.

Many Barre women know this. Read what one has to say about it. Mrs. William Stephens, 78 Maple avenue, Barre, Vt., says: "Over two years ago a member of my family began to have trouble from his back and kidneys, hard work undoubtedly being the cause. On using Doan's Kidney Pills he found them very effective. They completely relieved all the pain and lameness in his back and corrected the difficulty with the kidney secretions. On several occasions since then he has procured Doan's Kidney Pills at Drown's drug store and they have always given prompt relief." (Statement given October 1, 1908.)

Confirmed Proof. Mrs. Stephens was interviewed on May 24, 1911, and she said: "The statement I gave for publication some time ago was correct. I cheerfully confirm what I then said about Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

WILLIAMSTOWN.

Interesting Meeting of the Home Study Club Held Recently.

The Home Study club met Nov. 16 at the home of Mrs. Sarah Seaver and Lizzie Work and had for the lesson, "From Flax to Linen, Flax Culture and Spinning." No time or effort had been spared by Mrs. Seaver and Miss Work to arrange an interesting program. Appropriate quotations from the members were given, after which Mrs. Seaver and Mrs. Watson told of the methods of our grandmothers and great-grandmothers in making the cloth used by our ancestors. Both ladies gave an interesting and instructive talk, illustrating by producing a goodly bunch of flax, raised in Mrs. Seaver's garden the past summer, also the cards, flax wheel, clock, reel, swifts and a hutchel, bearing the date, 1814. Mrs. Wilber read a pleasing poem, showing that Mother Eve was really the first spinner of flax. Then came the display of linen, consisting of 75 pieces—table cloths, towels, napkins, stockings, etc., many of the pieces trimmed with netting, home woven fringe, and knit lace; also eight different patterns of coverlets and beautiful carpeting, woven in the old looms. Thus the flax in all its stages, the plant, blossoms, seeds, yarn and all that flax produces were shown. Most of the articles were over one hundred years old and some over two hundred years. If our grandmothers could have witnessed the exhibition of their handiwork and heard the praises of their beautiful work, they would have felt proud and pleased. Bountiful refreshments were served by the hostesses and the afternoon was over before the eighteen ladies present could realize the fact, and all went home feeling that it had been one of the most enjoyable occasions of our many pleasant club meetings.

Regular meeting of I. O. G. T. Wednesday evening. A good program is on hand and all members should be present. New names will be gladly received.

Stubborn Colds May Lead to Consumption

Did you ever have a cold that would not let go; a cough that persisted, that prevented sleep, and made waking hours miserable? Eckman's Alternative is the proper remedy in such cases. Perhaps some simple medicine may be effective where there is only a hacking in the throat; but when your chest is sore and simple remedies don't answer—then take Eckman's Alternative. Neglect often leads to more serious trouble; a case in point follows: "This Cherry St., Philadelphia, Pa."

"Gentlemen: In July, 1905, I first noticed the condition that showed I had Consumption. I lost weight rapidly; had a hollow cough, hemorrhages and very severe night sweats. My brother recommended Eckman's Alternative. In the Fall of 1906 I began to take it. At this time I am perfectly well and robust. My appetite is good and my weight has increased from 110 to 140 pounds. Not a trace of my old trouble remains. I will gladly express the merits of this medicine to anyone."

(Signed) M. L. GERHARDT, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. HOW GERMS SPREAD SKIN DISEASE

Eczema, psoriasis and other skin troubles are caused by myriads of germs at work in the skin. Unless these germs are promptly destroyed, they rapidly multiply, gnawing their way deep into the sensitive tissue. This is what causes that awful itch, and what seemed a mere rash may grow worse and develop into a loathsome and torturing skin disease with its years of misery.

Don't take any chances! Destroy the germs at the beginning of the trouble with that soothing and cleansing wash, the D. D. D. Prescription for eczema. A 25c bottle will prove this to you.

I have had experience with many remedies for skin trouble, but have never seen such remarkable cures as those from D. D. D. Prescription. Instant relief from the very first application. I am so confident that D. D. D. will reach your case that it will cost you nothing if the very first full-size bottle fails to make good every claim. If you have skin trouble of any kind, I certainly advise you to drop in and investigate the merits of D. D. D., anyway. I know that D. D. D. will help you. Burt H. Wells, Barre, Vt.
