She's Learned About "Linters"

A woman was looking at mattresses. We explained to her the costly sorting process that takes out linters and seeds and dirt, and leaves the pure white spongy cotton fibres of a good mattress.

She saw why some mail order houses are able to advertise a "good-looking" mattress at \$6.98 while another of equal size may cost double.

You can find any priced mattress you like here and MORE IMPORTANT, you'll know always what's in the mattress when you buy it.

We are unloading a car this morning of inexpensive mattresses, the best that we have ever seen for the money.

A sanitary felt top mattress, good tick, \$3.00. A felt top and bottom mattress, \$4.50 and a combination mattress, \$6.00. The above prices are for a full size two part mattress. Smaller sizes, smaller in price.

We also allow a 10 per cent discount from these prices for cash.

Other mattresses up to \$25.00.

Authorized agents for Barre, Montpelier and vicinity for the celebrated Ostermoor Mattress. Price \$15.50 in two parts.

It is an easy matter to save some of your earnings each month if you do it systematically. Make your money work for you as you have worked for it. When invested in co-operative savings and loan associations, this is what it does.

These are not banking institutions, but a co-operative association, where all are stockholders and share equally in the profits, in proportion to the amount of stock carried. The expenses are always kept at a minimum. No high-salaried officers. The money is all invested in homes—at home. You can invest from \$1.00 to \$25.00 each month. Can You Afford It?

Suppose that it costs you ten dollars per week for provisions.

You have them charged.

You get your pay every week.

You pay your bills every week.

You pay eight per cent more,—supposing you get the same quality of goods,—than you would have paid under our new cash system.

If we were to offer you eight per cent per year with good security for your money, you would consider it a snap.

We are doing 52 times better than that: not eight per cent per year, but eight per cent per week, if you are paying your bills weekly, or at the rate of 416 per cent for you.

It Pays to Pay Cash

If you take your goods with you, you get paid for it. You are not paying for delivering someone else's goods. You get what you pay for and pay for what you get.
