"EXCEPTIONAL" CHILDREN.

Public Attention Ought to Be Directed to All Types.

It is often the exceptionally bright child, even the genius, whom we find on the wrong side," says Dr. Maximilian E. Grossmann, discussing the education of exceptional children in the annual report of the United States Commissioner of Education, just issued. "The stupid and weak-minded criminal is not as dangerous as the clever and intellectual criminal."

Dr. Grossmann urges that public attention be directed to all types of exceptional children, not merely to the feeble-minded and degenerate, who, no matter how undesirable a factor they may be in society, are by no means the whole problem. He points out that the problem of the exceptional child is by no means merely the problem of the "defective," or the sub-normal, or the "abnormal" child. Often it is a case of misdirected ability on the part of a gifted mind; or the prostration of child growth and development failure, due to improper vocational education; or it may be a problem arising from racial differences, together with the difficulties of social adjustment in a nation which has grown through immigration.

Real progress, particularly in distinguishing between the various types of exceptional children, is reported by Dr. Grossmann. He considers the great lesson of the year to be the need for intelligent, united effort on the part of educators, medical men, social workers, charity organizations, welfare societies, juvenile courts and other agencies that have been active in the endeavor to remedy early neglect of exceptional conditions. His point is that each of these separate agencies is doing commendable work, but that they must now join forces.

Dr. Grossmann asks compulsory education for all children, "exceptional" as well as others. He contends that it is a mistake to exempt the exceptional child from the compulsory law. He declares: "The very children who need special attention and who may become burdens and dangers to society are dependent for their education, special training, and custody upon the good will of their parents, who are often enough disinclined to follow the right course. We need legislation which would establish the right of the commonwealth to direct the education and training of every child, and which would secure to the state and municipality an authority which can not be superseded by parental prejudice. We also need legislation which would establish such a board or boards as can regulate and determine the disposition which is to be made of every child according to his need and the good of the community."

FLUORSPAR BREAKS RECORD.

Quantity Mined in 1912 Largest in History of Industry.

All records for the amount of fluor spar produced in the United States were broken in 1912, when 99,285 short tons of domestic gravel spar, valued at \$578,294, were marketed, compared with 69,825 short tons, valued at \$429,932, in 1911, the previous largest production in the history of the industry. The total quantity of domestic fluor spar reported to the United States geological survey as marketed in 1912 was 116,545 short tons, valued at \$769,163, compared with 87,048 short tons, valued at \$611,447, marketed in 1911.

Fluor spar was produced in 1912 in five states, Illinois, Kentucky, Colorado, New

Hampshire, and New Mexico, in the order named. Newly discovered fluor spar veins are reported near Duffields, Jefferson, Morrison, and Wagon Wheel Gap, Colo., and a small quantity was produced at the first three of these localities. The year 1912 showed a considerable decrease in the importation of fluor spar, the imports being 26,176 short tons, valued at \$71,616, against 32,874 short tons, valued at \$80,916, in 1911. While the average cost to the consumer of foreign fluor spar in 1912 was \$5.74, including duty, but excluding freight charges, the cost of the domestic spar was \$5.82; yet notwithstanding this difference and the considerably higher freight charges on domestic spar to points where it is consumed than on foreign spar from the docks to the eastern steel plants, the imports decreased and the domestic production increased. This was probably due mainly to the fact that the new mills in southern Illinois are putting on the market a higher and more uniform grade of spar than can be obtained by importation, and as fluor spar is largely sold on its percentage of purity, purchasers find that the purer spar is more efficient and consequently cheaper in the end.

Fluor spar is used in the manufacture of glass and of enameled and sanitary ware, the electrolytic refining of antimony and lead, the production of aluminum, the manufacture of hydrofluoric acid, and as a flux in blast furnaces and in basic open-hearth steel furnaces. It is estimated that about eighty per cent. of the American fluor spar output, mainly in the form of gravel spar, is consumed in the manufacture of basic open-hearth steel. The use of fluor spar is increasing in practically all these industries.

The report on the production of fluor spar and cryolite in 1912, by Ernest F. Birchard, has just been issued by the geological survey, and a copy may be obtained on application to the director at Washington, D. C.

LARGE COKE PRODUCTION.

More Than 2,500,000 Tons Manufactured in Indiana in 1912.

The production of coke in Indiana in 1912 amounted to 2,616,339 short tons, valued at \$12,628,685. The yield of coal in coke was the highest attained in the United States, 81.8 per cent., according to E. W. Parker of the United States geological survey.

With the completion and putting in operation of the 508 Koppers ovens by the United States Steel corporation at Gary, Indiana, in 1912 advanced to third place among the coke-producing states, displacing West Virginia, Illinois and Colorado. Indiana's production in 1912 exceeded that of West Virginia by about 150,000 tons, and was only about 360,000 tons less than that of Alabama. It is probable that within two years, if not in 1913, Indiana will supplant Alabama as the second coke state, as at the close of 1912 there were 180 retort ovens in course of construction. In addition to the ovens at Gary there were 30 United Otto ovens operated by the Citizens Gas Co., at Indianapolis, and during the year 22 Klomne ovens were completed by the Central Indiana Gas Co., at Muncie. As the names of these operating companies indicate, the gas from the plants is furnished to the city mains. The Klomne ovens are heated by producer gas made from the coke in producers in front of and below the ovens. Gas coal from Youngbush, Pa., is used in the ovens and the coke is marketed for domestic consumption. The coal used at Gary and at Indianapolis is chiefly from West Virginia.

TALK OF THE TOWN

See the new street dresses on sale at Vaughan's.

Frozen pudding and caramel ice cream at Kendrick's.

Mrs. Annie Belanger left this morning for Hartford, Conn., where she will make an extended stay with relatives.

Miss Gladys G. Carroll of 8 Keith avenue returned this morning, after passing a week in camp at Groton pond.

Mrs. H. C. Young and son of Elmore street went yesterday to Charlotte, where they will visit relatives for a week.

Mr. and Mrs. William McKenzie are moving their household effects from West Patterson street to 10 Averill street.

Miss Marion Clark and Leon Clark of Manchester, N. H., are spending several days with their father on Merchant street.

Mrs. Alex. Burnett has returned home, after spending several days with her parents, Mr. and Mrs. John Hall, in Groton.

James R. Coutts of Academy street returned yesterday from Lewiston, Me., where he has been spending several days with friends.

William Downie of Boston arrived in the city yesterday for a few days' visit at the home of his mother, Mrs. Mary Downie of Merchant street.

Mrs. C. H. Kendrick and son, Ralph, left today for East Montpelier, where they will pass a few days at the home of Mrs. Kendrick's parents.

Lawrence Lewis, who has been spending a few days at his home on Nelson street, has returned to St. Albans, where he is employed by the Central Vermont railroad.

The committee of entertainment of the Carpathia club is making plans to hold another public dance. The last affair of conducted in the Howland hall proved a big success.

Mr. and Mrs. W. H. Collings and son and Joseph Collings and Miss Alice and Isabelle Walker have returned from Woodbury pond, where they have been in camp for a week.

Misses Marguerite and Nell Stoughton, Miss Joanna Parks and Miss Josie M. Holden are assisting in the offices of the Vermont Mutual Insurance Co. in Montpelier during the month of July.

C. H. Granger of Park street to-day began a two weeks' vacation from his duties in Eastman Bros.' store. With Mrs. Granger, he will go to-morrow to Randolph for a visit with relatives.

Norman Ewen of Orange street, who is taking a two weeks' vacation from his duties in the Daylight store, returned last evening from Highgate Springs, where he has been spending several days in camp.

The Elmore street Giants will play the Montpelier Athletics at Inter-city park Monday afternoon at 4 o'clock. The game is one of a series arranged to decide the juvenile championship of the two cities.

Miss Nellie Conner, who has been making an extended visit at the home of her uncle, Deputy Sheriff A. M. Morrison, has returned to her former home in Palmer, Mass., to pass the remainder of the summer.

Carl Miner, who is employed as a clerk in the freight offices of the Central Vermont railroad, was called to Richmond last night by the sudden death of his mother, Mr. Miner received no particulars concerning her passing away.

Paul Scampini of North Main street left to-day for Bethel, where he will pitch this afternoon for Bethel against the Graniteville A. C. In the past three weeks, Scampini has pitched for six different teams in this section of the state.

The only ball game to be played in Barre to-day will be between Morrisville and the Italians. Make plans to be on hand for this event. Morrisville is out for the state championship and will leave no stone unturned to trim the Italians.

George I. Beckley of 63 Hill street, who accompanied the delegation of Barre G. A. R. veterans to the jubilee reunion at Gettysburg, returned yesterday to Barre from a week's visit in Philadelphia and Washington, D. C.

Samuel S. Silver of Forestry place, who has been passing the week with relatives in Worcester, Mass., returned to Barre to-day. Mr. Silver will resume his duties in the repair department at the Tilden shoe store Monday morning.

Elgin J. Gale of Medford, Mass., who is making an extended visit with his brother, C. A. Gale, in Montpelier, will be in the city yesterday, calling on old friends. Mr. Gale will be remembered here as a former proprietor of the City hotel, while many of the older residents will recall that he erected the hotel in the Williamstown gulf and conducted it as a summer resort for several years.

The Boston Reds, the semi-professional baseball team that has been making Barre its headquarters for the past ten days, will leave Barre for the first of next week, making a course homeward. On Monday the team plays at Graniteville, leaving Tuesday morning for Newport, Newport, Derby Line, Lyndonville, Sherbrooke and other teams in Canada are booked for games with the Boston team. After playing in Canada the team has a series of dates with summer teams in the White Mountains, including Bethlehem, Maplewood and Bretton Woods.

Last evening at the home of Miss Hortense Knight, 123 Hill street, a reception was tendered to Miss Ruth Quigley of Boston, who is passing a two weeks' vacation in Barre and vicinity. There were about fifteen of her friends present. An impromptu musical and literary program was carried through. Among the numbers on the program were violin selections by Hortense Knight, recitations by Blanche Haskins and vocal solo by Mrs. Olive Williams, and piano selections by Miss Quigley. During the evening refreshments were served.

The Barre Athletic club baseball team leaves this afternoon for Hardwick, where the second game of the Hardwick-Barre series will be played. The first game was played at Inter-city park several weeks ago, Barre winning. Since that time the Hardwick team has been greatly strengthened. One of the reliables of the Hardwick team will be "Bob" Smith, the former Goddard lad, who was with the Chicago Cubs and the Minneapolis club this season. According to a reliable report this morning, fully 23 automobiles will convey over 100 admirers of the Barre team into the Caledonia hamlet to make things interesting. The Barre club will use Davidson and Hoernle for a battery against Hardwick. John Brown, the former Havana Red Sox captain, will play an outfield position with the Barre team.

Frozen pudding and caramel ice cream at Kendrick's.

See the new white corduroy and poplin dresses at Vaughan's.

Twenty-five wash dresses that were \$2.75 reduced to \$1.98 at Perry's on Saturday.

J. P. Marr of Williamstown arrived in the city to-day for a few days' visit with friends.

Mrs. Nettie Jerome of Northfield arrived in the city yesterday for a visit of several days.

All our summer waists and dresses at greatly reduced prices Saturday. Paris Shirtwaist House.

Regular Saturday night dance July 12, Howland hall, under auspices of Riley's orchestra. Ladies, free.

A. A. Lamorey has gone to Boston to attend the auction sale of the Saidell & Lindsay stock of clothing.

Henry Weeks left this forenoon for White River Junction, where he will spend several days with relatives.

John J. Pavin of Bolster avenue left yesterday for Montreal, P. Q., where he will make a short business visit.

Mrs. Charles Wilkie of Cottage street left this morning for Barton, where she will pass a month at her former home.

Miss Eva McDonald of Addison street is employed as bookkeeper and stenographer by the Presbrey-Coykendall Granite Co.

Friday's arrivals at The Buzzell hotel were as follows: J. Corcoran, New York; J. T. Johnson, Burlington; F. L. Cheney, Rutland.

Mrs. N. A. McDonald of upper Graniteville left this morning for Montreal, where she will visit for a few days with relatives.

Mrs. James Bennett and little daughter, Clara, of Pearl street left this morning for Montreal, P. Q., where they will visit relatives.

Miss Thomasina Kesson has returned to Barre after passing a week's vacation with friends at St. Joseph's lake and St. Johnsbury.

William Duthie of Washington street left last night for Minneapolis, Minn., where he will attend a convention of the Knights of Pythias.

Saturday special—I can baking powder 1 lb. coffee, 1 pkg. cornstarch, 1 pkg. gelatine, \$1.25 and 157 trade marks. Eastern Estate Tea Co.

Special for Saturday, ratine and voile dresses; colors, blue, tan, lavender; good value at \$3, for Saturday only at \$1.98. Paris Shirtwaist House.

Mr. and Mrs. F. G. Howland and Miss Mary Wright left to-day for Bretton Woods, N. H., where they will attend a convention of New England bankers.

Dr. E. B. Whitaker of Merchant street, a member of the state medical board, returned yesterday from Burlington, where the board has been conducting examinations.

Dr. and Mrs. C. W. Steele, with Dr. and Mrs. F. E. Steele of Montpelier, left to-day by auto for Isle La Motte, North and South Hero, intending to return the first of next week.

Mrs. J. J. Martin, who has been spending the past month at the home of her parents, Mr. and Mrs. William McDonald, of Addison street, returned this morning to her home at Bellows Falls.

Peter Emslie of Brook street, who began a two weeks' vacation from his duties in A. W. Radger & Co's. store to-day, leaves to-night for Zanesville, O., where he will make an extended visit with relatives.

The Morrisville-Italian game this afternoon at Berlin street is bound to furnish plenty of excitement. Much interest has been manifested in its outcome. Joe Weaver will be sent in by the Italians against Morrisville. He will give his best to down his former townsman. Weaver will have Fowlie for a battery mate.

President W. H. Eager of the Barre local, Retail Clerks' International association, has been selected to represent Barre clerks at the annual convention of the state clerks' association to be held at St. Johnsbury early in August. The Barre local is in a flourishing condition, as the forwarding of twelve applications for admission at a recent meeting would indicate.

Harry Campbell, who has charge of the Page training stables at Roaring Brook park in Barton, arrived in the city this morning for a short visit with friends. Mr. Campbell will return to Barton Monday, when he will ship the Page string of race horses to Montreal, P. Q., where they are to be entered in the elimination races for the Dominion Derby event.

Next Sunday, July 13, a unique union church and Sunday school service will be held at Hedding Methodist church, beginning at 10:30 a. m. and closing at 12 noon. Every Sunday school scholar of each department is requested to be at the church at 10:15, to be seated in their classes with their teachers for the service. The world's Sunday school day program of responsive service will be followed by a short address by the pastor on "The Twentieth Century Sunday School," with special application for Barre. Bring a good large offering for the state Sunday school work. The entire service will close at noon. Parents take notice and bring the children with you at 10:15.

Regular meeting of Barre Aerie, 1573, E. O. E. Monday evening at 7:30 o'clock in Eagles' hall.

TALK OF THE TOWN

By express, new summer goods, placed on sale at Vaughan's.

More summer goods by express from New York and Boston, at Vaughan's.

Big bargains Saturday—midsummer sale on waists and dresses. Paris Shirtwaist House.

Mr. and Mrs. Charles Smith of South Main street returned last night from a two weeks' trip through Massachusetts. Mr. Smith will resume his duties with the M. & R. road Monday morning.

Misses Priscilla and Thelma Miles and Master Max Miles of South Main street returned this forenoon from Waterbury, where they have been guests for the past ten days of Mr. and Mrs. Walter J. LeBaron.

Miss Euphemia Cook, who has been spending two weeks in Barre as the guest of Mr. and Mrs. William H. Eager of Hooker avenue, left this morning for Leeds, P. Q., where she will visit relatives for a fortnight before going to Ontario, where she is employed as a school teacher.

In the line-up of the strong Morrisville team are many college players, including Kelley of Dean academy, and "Don" Weaver, the star Middlebury college infielder. Morrisville handily trimmed Hardwick with "Bob" Smith. Their team will be even more strengthened when they play the Italians at Berlin street this afternoon. Game called at 3 o'clock.

RANDOLPH.

Mr. and Mrs. Charles Pierce of South Royalton arrived here on Friday for a short stay with Mrs. Nettie Rix.

Miss Nellie Blossom, a teacher in Greenfield, Mass., is in town for the summer with her mother, Mrs. George Hatch.

Mr. and Mrs. Fred Grant and child have returned from a three weeks' stay in Chelsea, where Mr. Grant went for the J. H. Lamson firm to put in a bath room for a party in a private house there.

Mrs. Mabel Adams and daughter, Marian, who have been in Newtonville, Mass., for several weeks, are now at Cataunet, Mass., with the family of L. D. Seaver.

Joseph Goodheart, who is employed by the American Steel & Wire company at Worcester, Mass., has been in town for a few days with his parents, Mr. and Mrs. Jerry Goodheart.

Howard Drew, who has been passing the last week with his brothers, L. C. and George Drew, left on Friday morning for Boston and went from there to Newtonville to take charge of a patient. Glenn Sault has found employment in Claremont, N. H., where Clifford Averill is also at work in the machine shop.

Olan Trany of Los Angeles is with his cousin, Mrs. J. H. Lamson, while visiting old friends in this vicinity. He is a native of this section, but has not been a resident since he was 10 years of age.

Mrs. A. J. Kimball of Burlington, who recently visited Mrs. G. W. Dukette, has returned home.

Miss Evelyn Manney has gone to York Harbor, Me., for a week's stay.

Mrs. G. A. Chedel and her daughters, Misses Jessie and Marjorie, have gone to Enfield to occupy their cottage at Massacoma lake for a few weeks.

Mrs. Eliza Banister and her grandson, Harold Varney, who have been in Warren for several days, returned on Monday.

Mrs. George Taplin and her two children have come from Boston to pass the summer with Mr. and Mrs. George Davenport.

Mrs. W. F. Edson and her sister, Miss Maud Johnston, have gone to Maine for a two weeks' stay.

O. J. Marvott went to Enfield last Sunday and rented his cottage at Massacoma lake to Louis V. Smith of Dorchester, Mass., for the month of August, September and October.

Miss Alice Henry of Troy, N. H., was the guest of her brother, Dr. Frank Henry, and wife on Saturday and Sunday.

Mr. and Mrs. Emma Snow of Springfield, Mass., and Mr. and Mrs. G. E. Parker of Brooklyn, N. Y., were a party who came here the first of the week by auto and were entertained at the inn.

His Pride Stung.

SULPHUR PRODUCTION PASSES \$5,000,000 MARK

Last Year's Output Shows Healthy Increase Over 1911—Rapid Development of Industry in the United States.

The production of sulphur in the United States in 1912 was 303,472 long tons, valued at \$3,250,422, compared with 265,964 long tons, valued at \$4,787,049, in 1911, according to W. C. Phalen, of the United States geological survey. The sulphur came from Louisiana, Nevada, and Wyoming, the production of Louisiana being the dominant factor in the domestic sulphur industry.

During the last 12 years the growth of the sulphur industry in the United States has been phenomenal, and the last seven years has seen the dethronement of Sicily from the dominating position she so long held in the world's sulphur market. Within this period the United States has advanced from the position of an unimportant producer to that of one of the two leading sulphur producers of the world, owing entirely to the development of the sulphur deposits in Louisiana. In 1900 the sulphur production of the United States amounted to 3,147 tons; the imports during that year were 167,696 tons, of which 166,825 tons were classified as crude sulphur chiefly from Sicily. Thus the domestic production in 1900 amounted to not quite 2 per cent. of the sulphur consumed. During 1912 the domestic production constituted more than 91 per cent. of the consumption and

the imports amounted to less than 9 per cent. Moreover, the imports of sulphur from Italy were only 8.7 per cent. of the total importation, and Japan was the leading exporter of sulphur into the United States, 91 per cent. of the foreign sulphur admitted having come from that country. It seems safe to predict that with the completion of the Panama canal, United States sulphur may practically displace foreign sulphur on the Pacific coast.

An advance chapter on sulphur for 1912, just issued by the geological survey, includes detailed descriptions of the sulphur industry in Louisiana as carried on by the Union Sulphur Co. and an outline of the extensions of the company in Europe. An account of the beginning of the operations of the Freeport Sulphur Co. at Freeport, near Bryan Heights, Braxator county, Tex., is also included. This company began operations in November, 1912, when an initial run was made. The sulphur is to be obtained by a process similar to that employed in Louisiana—that is, it will be melted underground and pumped to the surface by means of an air lift. In Nevada the sulphur comes from the town of Sulphur, in Humboldt county. The Wyoming product comes from the Thermopolis district. A new deposit in Wyoming is located in Park county, 12 miles south of the deposits in Sunlight Basin.

Besides tables of domestic production, the report gives figures showing the imports of foreign sulphur and the exports of domestic sulphur. A copy of the report may be obtained free on application to the Director of the Geological Survey, Washington, D. C.
