

REVOLT HITS TAMMANY

Evidences Are Seen in the New York State Primaries

SULZER OPPONENTS ARE DEFEATED

Heavy Vote Cast Against the Democratic Machine

New York, Sept. 18.—The impeachment of Governor Sulzer and his fight for direct primary reform played an important part in Tuesday's Democratic primaries in New York state. The governor's friends yesterday maintained that those issues were responsible for defeats the regular Democratic organization suffered in several localities. In Buffalo and Rochester, the largest cities outside of New York, the regular Democratic organizations, which lined up with Tammany hall in the Sulzer impeachment fight, were beaten. In Albany county former State Committeeman McCabe, clerk for the Senate, a firm Tammany adherent, came so near defeat that the party leadership may remain in doubt until the official count is finished.

In New York city the Sulzer issue was not apparent. Only one of the Democratic district leaders was unhorsed, and this contest was purely local. The Sulzer faction gave the regular organization a close contest in Suffolk county, Long Island. The governor's friends there failed to nominate their candidate for the state assembly, but claim control of the county committee. Sulzer's threat to make the Democratic assemblymen smart for defeating his direct primary returns showed that four of the assemblymen who voted against the impeachment and for his impeachment were defeated for renomination in Buffalo. All five Democratic nominees for assemblymen in Monroe county, which includes Rochester, were defeated by the opponents of Tammany hall. Only one of Monroe's five representatives in the assembly at present is a Democrat. The primaries held by the other parties had no statewide feature to distinguish them.

OTIS BOMB LIKE McNAMARA ONE

Explosive in Both Was "85 Per Cent." Dynamite—Watching Business District.

Los Angeles, Sept. 18.—To that area of the city which comprises the business section and a portion of the cheap hotel district the federal, city, and county authorities combined their energies yesterday in the search for the sender of the dynamite bomb received through the mails Monday by General Harrison Grey Otis, proprietor of the Los Angeles Times.

All agreed the maker of the bomb lived in this district because the package containing the bomb was placed in a parcel post box in the downtown section and carried to postoffice station C, which handles mail for the greater portion of the business district and a large section of the east side.

The dynamite used in the infernal machine was that extremely high-powered explosive known as "eighty-five per cent."—the same as was used by James B. McNamara in blowing up the Times building Oct. 1, 1910. The legal limit for explosives in Los Angeles county is 40 per cent. nitro, and police and county officials directed efforts yesterday to learning what purchases of 85 per cent. dynamite had been made at powder factories recently.

One of the theories discussed yesterday was that the bomb might have been sent by some foreigner, agitated over the Mexican question, and the possibility of intervention by the United States.

MANY MILES OF TWINE.

Contract Indicates the Size of U. S. Mail Business.

Washington, Sept. 18.—Some idea of the amount of mail handled by the post-office department, and the energy required to prepare it properly for delivery, is conveyed in a call issued yesterday by Postmaster General Burleson for bids for 2,200,000 pounds of twine with which to tie up letters. That even this vast amount may not be sufficient is indicated by the added appeal that inventors of substitute tying devices enter the competition for the material, "as it may be required by the postal service during the remainder of the year ending June 30, 1914." "Think what the proposed contract means," said an official of a statistical bureau of mind yesterday. "It would be a simple matter to tie up old Mother Earth with the amount of string we are to get; we might stretch a communicating link to one of the planets; if the energy spent by postal clerks throughout the United States in twisting the string around packages could be harnessed, it would probably serve to drive the vessels of the navy; if, but, oh, what's the use!" The department also asked for bids for 179,000 pounds of book paper for use during the same period. The bids are to be filed before Oct. 16 and Oct. 3, respectively.

SECRETARY LANE NO BETTER

Requires Absolute Rest for a Fortnight, Physicians Say.

Berkeley, Cal., Sept. 18.—That the improvement in the condition of Secretary of the Interior Lane has not been as rapid as had been anticipated was the interpretation placed yesterday on the action of the physicians in removing him from the home of his brother in North Berkeley. It was said he was removed because it was too noisy in the districts where the secretary's brother lives. Absolute and unbroken rest for at least a fortnight is regarded as necessary.

MILLIONAIRES' ROW LOOT WILL REACH \$200,000

Thieves During Summer Have Taken Toll From Residents on New York Thoroughfare.

New York, Sept. 18.—Residents of "Millionaires' row" on the 70th and 80th streets, just east of Central park, estimated yesterday that burglaries during the summer had cost them \$200,000. The latest robbery occurred yesterday at the home of Mrs. Karl Wallach. Mrs. Wallach's son said that the thieves had taken silverware, jewelry, furs and household goods worth \$100,000. Several families learned of their losses for the first time yesterday, when they reopened their houses after being absent during the summer. The detective bureau insisted that the estimate made by property owners were excessive and that the burglary losses in this section during the summer would not exceed \$90,000.

Posting for Photo Outside Poughkeepsie High School When Stand Gives Way.

Poughkeepsie, N. Y., Sept. 18.—A school platform on which 731 children were posing for their pictures yesterday collapsed and 16 of the pupils were injured.

Twelve of the injured were taken to the Vassar and General hospital, most of them suffering from fractured arms and legs.

The platform on which they were standing was 40 feet long, alongside the wall of the building. The entire school body was facing the camera when the platform buckled, the middle portion sagging to the ground and the ends remaining in their original position. Into the V thus formed the 731 children were hurled.

It was thought that none of the injured would die.

Why Pay Extra for Dried-Up Tobacco?

That's what you do when you buy chopped-up tobacco in a tin, bag or foil wrapping. You pay extra for the package—and get dried-up tobacco that burns fast and hot and bites your tongue.

When you buy Sickle Plug you get more tobacco, because there's no package to pay for. You get better tobacco, because all the flavor and moisture are pressed into the plug, and kept there by the natural leaf wrapper. You whittle a pipeful off the plug as you need it—and you're always sure of fresh tobacco that burns slowly, and smokes cool and sweet.

Convenient and economical. Doesn't crowd your pocket—no tobacco spilled and wasted. Try Sickle today—your dealer sells it.
