## To Sew on the White Is a Joy,—a Delight

Too many people buy in a haphazard manner.

They see a machine, it looks good, everything outwardly is attractive, but the most attractive feature is the price.

Perhaps even with your good judgment you would be tempted to invest.

But stop a moment and think the matter over.

Are you purchasing for present needs only? Are you buying merely an ornament for the home? Perhaps you are, and yet we judge not; rather when you come to view the matter properly you feel that service is the real consideration—the very best service to be had, and if you don't get it, your money is as good as thrown away.

And when we say service, we mean the dependable, quality kind, good for to-day, to-morrow, next week, for a year, five years, yes even fifteen or twenty years.

Preposterous, you say—not at all for the White. There are any number of White machines in active use to-day that were bought twenty-five years ago and many have been in commission for even a longer period.

That's convincing, is it not?

The White was a fine machine in those days. It's immeasurably better in every respect now, in general appearance, finish, construction, improvements and all that cause it to merit popular approval.

Don't forget another thing—sometimes an accident may occur; you may possibly need to replace a part, and conditions are such that you are obliged to have it right away; well, you can always find us; you don't have to hunt all over the country to locate us. We are right here on the ground, expect to continue here; and you can get any part of the White at any time and on short notice.

You may say that we are rather prejudiced in favor of this product. Perhaps we are; you would be if you were in our place. But we are just as much interested in seeing that you get a high-grade, reliable machine, for then you'll take pains to tell your neighbors. In other words you will be passing the good news around. It will be a help to them and you will be helping us at the same time.

Join the White Club now forming, limited to fifteen members, this number of machines having just arrived. Two (\$2.00) dollars to join, places the machine at once in your home, if references are satisfactory, then \$1.00 a week for a few weeks until paid for.

Before Buying a Machine, Be Sure to See and Try The White
