

CURLEY WINS IN BOSTON

Elected Mayor by 6,000 Plurality Over Thomas
J. Kenney

ON COLDEST ELECTION DAY

Boston Ever Had—Eighty Thousand Votes Were Polled

Boston, Jan. 14.—Congressman James M. Curley was elected mayor of Boston for four years yesterday by 6,000 plurality over Thomas J. Kenney, president of the city council.

PROPOSITION WITHDRAWN

B. & M.—Maine Central Exchange Is Called Off.

Portland, Me., Jan. 14.—The proposition to exchange \$10,000,000 of the Maine Central railroad's refunding consolidated mortgage five per cent bonds for 100,000 shares of Maine Central stock held by the Boston & Maine railroad has been withdrawn according to an official announcement made yesterday by Morris MacDonald, president of both companies, through the publicity department of the Maine Central.

PRISONER RELEASED AFTER AUTOPSY

So Death of Henry Crowell at Hyde Park Remains a Mystery, David Trudo Was Held After Finding of Body.

Hyde Park, Jan. 14.—The inquest on the death of Henry Crowell was completed Monday and the state's attorney, being of the opinion that not enough evidence was elicited to hold David Trudo on the charge of murder, nolle prosequit the case and the respondent was released from custody. The cause of death remains a mystery.

MYLIUS CANNOT BE BARRED.

Journalist Deported a Year Ago Wins in United States Court.

New York, Jan. 14.—The United States court yesterday decided that Edward F. Mylius, the journalist deported a year ago, cannot be barred on the charge of moral turpitude.

WILL RECOMMEND AGRICULTURAL CREDIT

Governor Glynn Will Make Effort to Reduce the High Cost of Living.

Albany, N. Y., Jan. 14.—In an effort to reduce the high cost of living, Governor Glynn will recommend in a message that the legislature establish an agricultural credit system.

FIREMAN KILLED, 75 IN STREETS

In Morning Fire in Boston, With Thermometer at Nine Below Zero.

Boston, Jan. 14.—Fireman Philip Ferrell was killed and 75 families were driven into the street with the mercury nine degrees below zero by a fire that destroyed the department store of W. & A. Bacon, a four-story building at Washington and Ruggles streets, Roxbury, early yesterday.

Sparks set fire to the roof of a score of dwellings on Harrison avenue, and other nearby streets. The loss is \$100,000.

Safety Conference May Split.

London, Jan. 14.—The international conference on safety of life at sea is in danger of splitting on the same rock that wrecked the first international commission to settle the Alaskan boundary disputes.

Arbitration is the disturbing question.

A REALLY TASTELESS CASTOR OIL AT LAST

Something That Science Tried to Get for 3,000 Years.

Good bye, drugs and pills! The perfect laxative has arrived—Kellogg's Tasteless Castor Oil—made tasteless by a method which chemists have tried to find for 3,000 years.

This is not a flavored or disguised castor oil. It is just pure castor oil without taste or odor. Kellogg's Tasteless Castor Oil is a better castor oil than the old evil tasting, evil smelling kind. While none of the taste remains, none of the good has been taken out. Kellogg's Tasteless operates quickly and freely, without griping, causes no gas, and does not turn the stomach. Children take it easily and retain it.

The drug stores have all been supplied. You have only to ask for Kellogg's Tasteless Castor Oil, 25c or 50c size. It is not sold in bulk. The trade mark is a green castor leaf on the label, bearing the Kellogg signature.

Made only by Spencer Kellogg & Sons, Inc., Buffalo, N. Y., refiners of vegetable oils.—Advt.

HOOD'S PILLS

Cure Constipation, 25c. Purely vegetable. Best family cathartic.

INDIGESTION, GAS, STOMACH MISERY

Time "Pape's Diapepsin"—In Five Minutes Your Sour, Bloating, Gassy Stomach Feels Fine.

Sour, grassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Advt.

TERRIBLE HUMAN WASTE IN THE BALKAN WAR

Nearly 500,000 Males Disappear from the Lands Awarded to Bulgaria Alone.

Sofia, Bulgaria, Jan. 14.—A striking illustration of the terrible human waste in war is furnished by the census just taken of the new Bulgarian territories acquired by conquest. The male population of that portion of Macedonia allotted to Bulgaria was reduced during hostilities from 175,000 to 42,500. In Bulgaria Thrace only 225,000 males remain out of a total before the war of 499,000, while in the district of Mustanga Pasha, where fighting was so long and fierce, only 4,900 males are left out of 33,000 the total when fighting began.

ON RELEASE OF HARRY THAW

A Decision in Case Not Likely Before the Last of Next Week.

Concord, Jan. 13.—No decision on the question of releasing Harry K. Thaw on bail is expected before the last of next week.

William T. Jerome in his efforts to extradite Thaw has sent Judge Aldrich word that engagements would prevent him from attending a hearing before that time.

Thaw took a walk yesterday with the mercury 12 degrees below zero.

McLEAN PLEADS GUILTY.

Took Campaign Contributions from Corporation.

New York, Jan. 14.—Arthur A. McLean, treasurer of the Democratic state committee, pleaded guilty yesterday to accepting campaign contributions from a corporation. Supreme Court Justice Vernon M. Davis suspended sentence.

McLean pleaded guilty to the indictment based upon the testimony of Owen J. H. O'Connell that the other indictment, resulting from Van Alstyne's testimony, would be dismissed.

Sentence was suspended upon the recommendation of the district attorney. "From my own investigation," said Mr. Whitman, addressing the court, "I am satisfied that the officers of the corporation, who were responsible for contributions set forth in the indictments found against this defendant, were not themselves aware that such contributions were in violation of law, and so general has been the custom throughout this state for corporations to contribute and campaign committees to accept such contributions that it is more than possible that this defendant himself was not aware of the gravity of the offense."

MEXICANS BEGIN MARCH TO FT. BLISS

Defeated Federal Soldiers Are Now Under the Escort of United States Cavalrymen.

Presidio, Jan. 14.—Turning their backs on Mexico, the ragged soldiers routed by the rebels yesterday began their march toward Fort Bliss, where they will be wards of the United States.

A lattered line of women and children followed the soldiers over the mountain road, making a sorry picture. All were guarded by cavalrymen.

MEXICO DEFAULTS ON BONDS.

Will Not Pay the Interest Due on Loans.

Mexico City, Jan. 14.—The Mexican government will default in the payment of the semi-annual interest on the bonds of the internal and external debts due the coming six months, according to a decision reached at a cabinet council which lasted until late last night.

The decision of the council was announced by Querido Moseno, Mexican foreign minister, who declared he had been instructed to notify all foreign governments of the default.

The loans are largely held in the United States, Great Britain, France and Germany.

CATHEDRAL IN DANGER.

Notre Dame in Montreal Threatened by Flames.

Montreal, Jan. 14.—Notre Dame cathedral, famous the world over, was threatened by fire yesterday afternoon from a blaze that originated in the business district.

The fire was subdued after a stubborn fight. The loss is estimated at \$500,000.

BROWN ESTATE IN DISPUTE

Rome G. Brown of Minneapolis Petitions for Right to Enter Appeal

TO THE ALLOWANCE OF J. G. BROWN CLAIM

Defense Asserts That Matter Was Adjusted in Minneapolis

In supreme court yesterday arguments were concluded in the case of the city of Montpelier vs. the Central Vermont railroad. The Windham county case of Edwin P. Goodnow vs. the Central Vermont railroad was stipulated for Brattleboro, and the Windham county case of Rosa B. Stockwell vs. Thomas E. Stockwell, for the support of a minor child, was passed up on briefs. Several Orleans cases were set for trial yesterday afternoon but the lawyers missed connection at Wells River and the cases had to be postponed until this morning.

The arguments in the case brought by Montpelier against the Central Vermont were practically the same as those given at Friday's session, the plaintiff asserting the land owned by the railroad was used for farm purposes, while the defendant insists it is used for railroad purposes, or that such part of it as is used for railroad purposes has not been assessed.

The Washington county case in re estate of Andrew C. Brown, Rome G. Brown, appellant, came next. This is a petition for leave to enter an appeal from the commissioner's report of the estate of Andrew C. Brown, and is brought by the son, Rome G. Brown, who asserts he was prevented from taking and entering said appeal "by fraud, accident and mistake." A mortgage belonging to the estate of Lucia G. Brown, of which Joseph G. Brown was administrator, disappeared and the question was whether J. G. Brown or his father, A. C. Brown, had it. J. G. Brown then presented a claim against the A. C. Brown estate, and Rome G. Brown, his brother, protested, and instructed his attorney to take an appeal if the claim were granted. Through a mix-up of circumstances the time limit for making an appeal expired and the petitioner claims that, inasmuch as he had left it with his lawyer and it was through him that the lapse occurred, his claim should have been allowed. It is claimed in defense that the matter had been straightened out in Minneapolis in the presence of a lawyer, and that for this reason the lower court had refused to grant the petition of the appellant for an appeal.

Roy W. Jocelyn of Swanton, a successful candidate for the state bar last October, has just completed his course of study and was sworn in before the supreme court yesterday.

BAILEY WINS BOTH FALLS.

Brattleboro Man Easily Defeats A. Hanson of Barre.

Windsor, Jan. 14.—George W. Bailey of Brattleboro, champion wrestler of Vermont, defeated here Monday A. Hanson of Barre, in straight falls. The winner took less than eight minutes to pin his opponent's shoulders to the mat in each fall.

A Moral Quarantine.

What to do to suppress or keep in check the incorrigible criminal nature is the chief concern of every police commissioner. In New York the new commissioner, Mr. Douglas L. McKay, believes in getting back to what he calls the first principles of police work, which is to use common sense methods. These methods, in his opinion, are to clear the town of professional criminals by enforcing the vagrancy law.

The criminal code classifies as a vagrant "a person who has been more than once convicted as a pickpocket, thief or burglar, and having no visible means of support, is found loitering about steamboat landings, railroad stations, banking institutions, crowded thoroughfares, cars, omnibuses, hotels or other public gathering or assembly and unable to give a satisfactory explanation of his presence." Arrests under this law are now made.

In consequence of this proceeding in New York, is not reasonable for other cities to expect an influx of undesirable persons? Concerted action by police commissions in all cities may be made necessary by this latest move against criminals in the Metropolis.—Boston Globe.

A Happy Bald Headed Man

Well-Known Politician Nearly Bald Now Has Heavy Growth of Hair.

Tells How He Did It.

A western politician, well known on account of his baldness and ready wit, surprised his friends by appearing with a heavy growth of hair; many of his old friends did not know him and others thought he had a wig. On being asked how he did it, he made the following statement: "I attribute the remarkable growth of my hair to the use of the following simple recipe which any lady or gentleman can mix at home: To a half pint of water add 1 oz. of bay rum, a small box of Barbo Compound and 1/4 oz. of glycerine. Apply to the scalp two or three times a week with the finger tips. It not only promotes the growth of hair but removes dandruff, scalp humors and prevents the hair from falling out. It darkens streaked, faded, gray hair and makes the hair soft and glossy. These ingredients can be purchased at any drug store at very little cost and mixed at home."—Advt.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Faded, Lifeless Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and straggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.—Advt.

IN LOCAL MARKETS

Prices on Fresh Eggs and Butter Firm, but Unchanged

FRESH EGGS 36c, BUTTER 32@35c

Fowls Scarce at 18@20c, Potatoes Quiet at 65c—Chickens 20@22c

Barre, Vt., Jan. 14, 1914. Prices on fresh eggs and butter firm but unchanged. Wholesale quotations: Dressed pork—11@11 1/4c. Veals—11@12c. Lams—12@13c. Fowls—Scarce at 18@20c. Chickens—20@22c. Butter—Creamery 35c, dairy 32@33c. Fresh eggs—Steady at 36c. Potatoes—Quiet at 65c.

RICKER'S MARKET REPORTS

Hogs 6 1/2@8c Per Pound, Milch Cows, \$50@65. St. Johnsbury, Jan. 14.—Receipts at W. A. Ricker's market for the week ending Jan. 12 included: Poultry—350, 7@12c. Lams—103, 3@6c. Hogs—185, 6 1/2@8c. Cattle—147, 3@7c. Calves—470, 3@7 1/2c. Milch cows—21, \$50@65.

IN BOSTON MARKETS

Cold Weather May Curtail Egg Receipts and Send Prices Up.

Boston, Jan. 14.—Butter, cheese and egg prices in the local market are about the same as they were at the end of last week. The lower prices recently established on butter seems to be attracting buyers, and the best goods are cleaning up rather well. Because of this condition, there has been no further drop in prices, but prices here are very much out of line with those in other markets, and it would not be surprising if local quotations were lowered in the next few days. Prices of eggs are unchanged, but the market has a distinctly firmer tone owing to the cold and wintry weather the country over, which it is feared may curtail receipts. The cheese market holds firm under moderate offerings and a fairly active demand.

Jobbing quotations: Butter—Fancy Northern creamery, tubs 36@36 1/2c; boxes and prints 37 1/4@38c; fancy Western creamery 35@35 1/2c; fancy storage creamery, 34@35c; good to choice creamery 32@33c, fair to good creamery 30@31c. Cheese—New York twins, fancy 18 1/2@19c; fair to good 17 1/2@18c; Young America 19@19 1/2c; sage, 20c. Eggs—Fancy henery 40c; choice Eastern 38@39c; fresh Western, extras 38@39c; firsts 36@37c; storage extras 32@33c; firsts 30@31c.

BLOWN FROM SEAT.

And Manchester Fire Department Veteran Fatally Hurt.

Manchester, Jan. 14.—While responding to a fire alarm yesterday forenoon, Driver Fred S. Morrill, a veteran of the Manchester fire department, was blown from the steam fire engine seat by the gale, and is now dying at the Elliott hospital in this city.

The injured man had three ribs broken, a broken shoulder and sustained internal injuries.

Finish Each Task.

On a page devoted to New Year's resolutions in the January Woman's Home Companion an Alabama contributor tells, as follows, what the aim of his life is to be in 1914:

"To keep the loose ends of my life tied up. If there is a garment undressed on hand, finish it before undertaking anything else. If there is a letter owing, write it at once. If there is a bill due, pay it before incurring any other expense. Surely! Certainly, but keeping this one resolution means things actually done, not merely thought about and, moreover, shipshape affairs that permit freedom to take advantage of any change in fortune that may come."

Fur Coat Weather Is On in Earnest

Nowadays the weather man has the habit of saying something like "Cold to-day, changing to colder" It makes you shiver to read the weather predictions—provided you are not equipped with a coat that will defy cold.

Everyone knows that there's nothing like a fur coat to keep out the cold and make you comfortable. But not everyone knows the vast difference in fur coats that may appear to be nearly alike. The kind and quality of the fur is important. We have made a study of it, and you can rely on what we tell you to be correct. You can't afford to buy a fur coat without looking ours over and noting our low prices.

Moore & Owens, Barre's Leading Clothiers—122 No. Main St.

A MINERAL WHICH IS HALF GAS.

New Magnesite Deposits Described by United States Geological Survey.

Magnesite is a mineral which is over 52 per cent carbon dioxide, the gas which is used for charging soda water, ginger ale, and similar beverages. By far the greater part of the magnesite occurring in the United States is found in California, according to the United States geological survey, while reports have also been received of deposits in Nevada, Arizona, and western Texas. A number of these deposits, especially in California, are of considerable size and yield magnesite of excellent quality, which is probably exceeded by few, if any, of the foreign deposits and which is superior in purity to much of that mined abroad.

Bulletin 355 of the United States geological survey, entitled "Magnesite Deposits of California," by Frank L. Hess, was based on field examinations of the California deposits made in 1905 and during the winter of 1906-7. This bulletin is still available, but since its publication new deposits have been opened, consumption has increased, and inquiries constantly being received at the survey for information relating to the occurrence and utilization of this material have led to the publication of bulletin 540-S, entitled "Late Developments of magnesite in California and Nevada," by Hoyt S. Gale.

Conditions governing the production and consumption of domestic magnesite have not changed in any marked degree in recent years. The presence of many

good deposits of this material in California must continue to furnish the impetus which will tend to put our own production on the market as soon as natural conditions will allow.

At present by far the largest part of the magnesite used in the United States is imported and is consumed in the eastern states, the importations being about 20 times the domestic production and ranging from 100,000 to 150,000 tons a year.

Considerable interest in the domestic production of magnesite has been aroused of late in anticipation of the possible advantage that may accrue with the opening of the Panama canal, in the hope that this new route may enable California producers to reach the eastern ports at sufficiently low freight rates to allow them to place their products on the eastern market.

Is It Easier to Write a Play Than a Novel?

In the theatrical department of the January American Magazine Walter Pritchard Eaton, the dramatic critic of that publication, writes an article entitled "The Stage Manager," in the course of which he compares the writing of plays with the writing of novels. Following is an extract:

"Arnold Bennett has recently thrown a bomb into the camp of the dramatists by declaring that, contrary to accepted belief, it is much easier to write a play than a novel. One of the chief reasons why it is easier, in Mr. Bennett's opinion, seems to be because a play is so much shorter than a novel. The chief difference (other than length) between

a play and a novel Mr. Bennett finds in the fact that the former is built entirely with dialogue.

"From the writer's standpoint, the real difference between play and novel lies right here: the play must not really be written at all, it must be conceived in the author's mind in terms of spoken words, living actors, lights, scenery, music; the novel is conceived in terms of written words. You may almost be sure that an author who hasn't in himself a touch of the play actor, who cannot tell a story orally with hints of character observation and dialect, who hasn't an eye for color and grouping and a naive love for the footlights, will not succeed as a dramatist. The fact that the same men (as Mr. Bennett) write both novels and plays no more proves the two forms alike than does the fact that Michael Angelo painted and carved proves painting and sculpture to be alike. Likeness they have, of course. But they must ever remain different at bottom because they are bound to be differently conceived and differently executed by the artist. The same man may succeed in both, but in the vast majority of cases the same man doesn't, and probably seldom will. We cannot all be so versatile as Mr. Bennett."

WITHDRAW SEPARATION SUITS.

Duke and Duchess of Orleans Desire to Avoid Scandal.

Brussels, Jan. 14.—The duke and duchess of Orleans, desiring to avoid scandal, have agreed to withdraw the separation suits.

Tee Up! Smoke Up!

AS satisfying as the sounding smack of the perfect drive, is the open-air relish of the perfect smoke—Tuxedo. Both go together, too. When you grab your bag and start for the links, grab up your tin of Tuxedo and take it along.

"Follow through" the snappy afternoon with Tuxedo. Put Tuxedo in your pipe and you will "put" the best. And at "the nineteenth hole" rest up and relax with a good, solid smoke of Tuxedo. That's the advice of good golfers everywhere.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

It's worth your while to try Tuxedo. Especially if a sensitive tongue prevents pipe smoking.

Tuxedo positively cannot bite—not even if you smoke pipeful after pipeful, as many as you can crowd into a day or a week.

Tuxedo is made of only the finest, choicest, selected leaves of perfectly aged Burley tobacco. It is made by the original "Tuxedo Process" which removes every trace of bite and sting and develops all the wonderful mildness, fragrance and flavor of the Burley Leaf in a way that no other brand of tobacco has ever successfully imitated.

YOU CAN BUY TUXEDO EVERYWHERE

Famous green tin with gold lettering, curved to fit the pocket 10c
Convenient pouch, inner-lined with moisture-proof paper . . . 5c
In Glass Humidors 50c and 90c

THE AMERICAN TOBACCO COMPANY

J. J. McDermott
National Open Champion 1911 to 1913
"Pipe smoking gives added pleasure to a golfer when the pipe is filled with Tuxedo. Tuxedo provides more keen enjoyment than any other tobacco I know."

Alex Campbell
Country Club, Brookline, Mass.
"I am always glad to speak a good word for Tuxedo tobacco. Constant use of it only serves to make it better liked. Its fragrant, soothing flavor makes it the choice of many golfers."

Alex Ross
National Open Champion 1907, says:
"Tuxedo, cool and mild, is essentially the smoke that satisfies. Many of my fellow golfers agree with me in giving preference to Tuxedo."
