

STRIKE IS PROCLAIMED

Traders' Federation Makes It General in South Africa

MARTIAL LAW ALSO PROCLAIMED

Rand Miners Join General Strikers—Feeling Runs High

Cape Town, Jan. 14.—The trades federation yesterday proclaimed a general strike throughout South Africa. Martial law has also been proclaimed.

Rand miners have joined the general strike. If they obey the order the government will send 200,000 natives back to their homes.

AN INDUSTRIAL AWAKENING PROMISED

"That Will Put the Panic Preachers to Shame," Declares Leader Underwood.

Washington, Jan. 14.—An industrial awakening "that will put the panic preachers to shame" was promised yesterday by Democratic Leader Underwood after Republicans in the House had painted dark pictures of the ruin to result from Democratic legislation.

TAX UPON CAPITAL.

France's Latest Plan to Raise Money to Support Army.

Paris, Jan. 14.—The French cabinet's project to meet the immense additions to the military expenses by an annual tax upon capital was laid before the deputies last night.

PEEVISH, CONSTIPATED CHILDREN LOVE "CALIFORNIA SYRUP OF FIGS"

Harmless "Fruit Laxative" Cleans Tender Stomach Liver and Bowels Without Gripping.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has stomach ache, sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in just a few hours all the foul, constipated waste, undigest-

BURNED AND ITCHED SOMETHING AWFUL

Little Pimples on Hands and Arms, Began to Fester, Turned and Tossed All Night, Suffered Torture. Used Cuticura Soap and Ointment a Month. Hands and Arms All Better.

481 East 7th St., South Boston, Mass.—"I first noticed little pimples on my hands and arms and they burned and itched me something awful. They first looked like little white lumps and then they began to fester and came to a head. The burning and itching were so intense that I scratched till I made bleeding sores and began to feel very much better. It seemed when my clothing touched me that I would scream. I could not sleep at night; I would turn and toss all night. I suffered torture. It seemed as though I should go frantic; I did not seem to care what happened; I did not care whether I lived or not."

"I tried various ointments and various ointments with no help. I did not know what to do until a friend told me to use Cuticura Soap and Ointment. I had only used the Cuticura Soap and Ointment a month when my hands and arms were all better." (Signed) Mrs. Elizabeth B. Gustin, Nov. 1, 1912.

Cuticura Soap and Ointment do so much for poor complexion, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. Sold everywhere. Sample of each mailed free, with 32-p. book on the skin and scalp. Address post-card "Cuticura, Dept. T, Boston."

DOG SWALLOWED HATPIN.

Operation on Valuable Animal at Rutland Successful.

Rutland, Jan. 14.—"Nan Patterson," a registered Boston bull terrier, owned by John J. Kafery of this city, has undergone a successful operation at a veterinary hospital here for the removal of a 10-inch hat pin. It is not known how the long pin got into the animal's throat. The dog for several days choked a great deal while eating and it was believed that a fish bone had become imbedded in her esophagus. An incision was made through the skin of the animal's neck and out popped the head of the pin. The long wire had pierced the windpipe and the point of the pin had pricked through the muscles of the neck and was just under the skin. The dog will recover.

OUTLINES TRUST BILLS

President Wilson Indicates to Cabinet Scope of Measures

HE'LL ASK CONGRESS TO MAKE LAWS

Bills Were Considered at Yesterday's Cabinet Meeting

Washington, Jan. 14.—The president yesterday gave the cabinet members his idea on the government's relation to big business; the field that anti-trust legislation should cover at the present session and the spirit which he believed the task should be approached.

A feeling of friendly conciliation rather than of hostile antagonism, was a program that will eliminate uncertainty about the law and stimulate the growth of legitimate business are fundamentals of the president's plan to be embodied in his message to Congress.

He presented to the cabinet cardinal features of his plan which are the supplementing of the Sherman law so as to reduce the debatable area around it, the prohibition of interlocking directorates; the location of individual responsibility and fixing of personal guilt for all violations; the creation of an interstate trade commission to perform the functions not only of a bureau of information, but to determine by investigation whether decrees of dissolution are carried out.

The president believes there has developed an acceptance of the principle that private monopolies are indefensible.

WILSON STARTS TURMOIL.

Nominates John Skelton Williams for Comptroller.

Washington, Jan. 14.—President Wilson yesterday nominated John Skelton Williams, now assistant secretary of the treasury, to be comptroller of the currency. The nomination was determined upon yesterday at a conference between President Wilson and Secretary of the Treasury McAdoo.

As comptroller of the currency, Mr. Williams will be on the organization committee argued with putting the new currency act into effect.

The total salary of the comptroller of the currency under the new currency law amounts to \$12,000 yearly. The salary of the comptroller as such remains at \$5,000, as formerly, but under the new law he will receive an additional compensation of \$7,000 a year as a member of the federal reserve board, of which he is automatically becomes a member ex-officio.

CONDITION OF PREPAREDNESS.

Major General Wood Tells How Army Can Fully Attain It.

Washington, Jan. 14.—For steps essential to place the army in a state of preparedness for possible war are recommended by Major General Wood in his annual report.

This includes the establishment of a reserve of trained men, prompt provision of the remaining 42 per cent. of the field artillery projected; creation of the necessary organization to give three infantry divisions; enactment of such personnel legislation as will eliminate unit officers.

HALTS QUEEN MARY AT DOOR

Museum Guard Denies Admission Because of Umbrella—Aghast at Mistake.

London, Jan. 14.—Because she refused to give up her umbrella the Queen of England was refused admittance to Norwich castle museum Monday. Queen Mary was accompanied by the bishop of Norwich.

The attendant, failing to recognize the queen, stubbornly refused to admit her with the umbrella, which she, with equal stubbornness, refused to surrender.

The bishop intervened, but without effect until he disclosed the identity of the royal visitor. Profuse apologies followed, and the queen entered bearing her umbrella in triumph.

CANCER GERM IN MANY FISH.

Human Beings Likely to Be Infected, Dr. Gaylor Says.

Albany, N. Y., Jan. 14.—Many fish in hatcheries are infected with the cancer germ according to a report made by Dr. H. R. Gaylor yesterday. He says human beings drinking water from streams which infected fish inhabit would acquire the germs.

WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain; the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot flannel, hot water bags, etc., in the inflamed nerves, is a temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little book on "Home Treatment of Nervous Disorders" for the asking.

Escaped!

Bite—Sting—Dryness—Heaviness—Parched Throat—you escape them all when you smoke STAG.

And in their place you find Fragrance—Freshness—Mildness—and Eternal Contentment.

"Better than I imagined tobacco could be."

Thousands are saying it. You will say it.

Convenient Packages: The Handy Half-Size 5-Cent Tin, the Full-Size 10-Cent Tin, the Pound and Half-Pound Tin Humidor and the Pound Glass Humidor.

\$51,752.52 PUT INTO STREETS

(Continued from first page.)

both sides of North Main street from Granite to Blackwell streets and on the southerly side of Washington street from Spaulding street to Hill street. We further recommend that time and money be not spared to keep our main streets free from holes and in good repair."

Concluding, the committee indulges in the following: "We have a vision of the near future in which we see South Main street paved to the bridge, which, by the way, will not be the old wooden-covered bridge, but an imposing arch structure with the roadway raised so as to help the grade on the hill beyond. We also see a quiet pavement around the park and on Prospect street to the river. We see permanent cement sidewalks on all the principal business and residential streets. We feel that the need of these improvements is imperative and believe that the city should work to accomplish the work as soon as possible."

City Engineer's Report.

Engineer Reed's report covers references to the usual amount of routine work as well as more important undertakings. Costs and sprinkling assessments were figured for 0.1 miles of street. Lines and grades were drawn for the state highway work on Brook street and the North Main street paving contract. In speaking of the latter, the report refers to 7,700 square yards of paving extending over 1,712 lineal feet of street at a cost of \$3 per square yard.

Following is the table of sewer construction: Third street, 20 feet of six-inch sewer; South Front street, 432 feet of eight-inch sewer, with two manholes; Warren street, 124 feet of six-inch sewer; Boynton street, 230 feet of eight-inch sewer with two manholes; Boynton street, 114 feet of six-inch sewer. Total 939 feet; four manholes.

Of surface sewers, 5,145 feet were constructed, measurement and inspections for which were made by the engineer. Brook street had 1,400 feet and Hill and Liberty streets together had 1,800 feet. Lines and grades were given for 3,295 feet of sidewalk curbing, of which 1,360 feet were old curbing re-set. North Main street had 2,512 feet and Berlin street had 470 feet.

Cement walks constructed aggregated 1,207 square yards, the bulk of which was distributed as follows: Liberty and Orange streets, 748; South Main street, near Troy and Holden plant, 245; North Main street near Reynolds, Drown, etc., blocks, 214 square yards. Bridges, reservoirs and cemeteries were inspected and city records were augmented by a set of new maps made by the department. Work for private parties and maps and supplies sold netted an income of \$47.55. The financial statement refers to \$2,075.19 expended for salaries, \$57.30 for supplies and \$34.92 for other bills. Work done for some of the larger departments was valued as follows: Streets, \$296.45; permanent streets, \$602.11; city records, \$301.43; general, \$238.77; water, \$139.65; sidewalks, \$115.17.

French's Barre Library Report.

Directors of French's Barre library, in their annual report stated that there were 2,285 volumes on hand. The sum of \$327.29 of the fund remains and \$28.46 was paid for books in 1913, that sum being the difference between the present fund and the sum on hand at the beginning of the year, plus the interest. The report was accepted and ordered printed on the motion of Alderman Patterson.

Routine Business Transacted.

Routine business played but a small part in the session. Alderman Calder furnished a bond of \$1,000 for his office, George Mutch and John McDonald being named as security. The bond was accepted and ordered filed. Having obtained permission from the state public service commission, the Consolidated Lighting Co. applied for a permit to re-string its high tension power lines along Blackwell, Granite, and River streets. It was granted. A request from the state board of health asking for permission to use the opera house some night in the near future was referred to the health committee, with authority to expend \$5, if

Topics of the Home and Household.

To make dress shields for thin waists, cut white flannel the size desired, trim the edge with narrow lace and tie in the dress with narrow tape. They will keep the waist dry.

To destroy cockroaches—Put about a quart of water sweetened with molasses into a tin wash basin; use plenty of soap and wipe in the direction of the place frequented by cockroaches.

The most successful way to keep gladioli bulbs is to let them dry well in the open air, then cut the stalks, leaving three or four inches of stalk on the bulb. Place in paper bag and tie loosely, so not to exclude all the air, and hang in the cellar.

To wash Persian rugs or carpets, take cold water and plain soap, and scrub with a small scrubbing brush; use plenty of soap and wipe in the direction of the pile with a clean cloth as you go along. The rugs will come out perfectly fresh and new.

In making a pudding in which milk and cornstarch are used, the milk should be brought to the boiling point first; then add the cornstarch, and, when the milk is smooth and thickened, add the egg and reduce the heat. If this plan is followed, the albumen is not tough—Newark News.

London Has Women's Theatre.

London has a "Women's theatre," the result of the enterprise of a group of English suffragettes, the Actress' Franchise league. The theatre was opened on Dec. 8.

The "Women's theatre" is managed entirely by women, who will be stage managers, as well as producers, and who will be in charge of the box office. The members of the actress' league maintain that plenty of actresses have business ability, and in this theatre they will have an opportunity to exercise their capabilities.

The women who are promoting this enterprise hope to bring about a higher standard of plays. They deplore the low tone of the usual farce type of play, and insist that the public will patronize a higher class of production, if they are given an opportunity to do so.

Candy Recipes.

Parched Pop-corn—This is quite different from ordinary pop-corn and it is very delicious and easily prepared. Place in an iron frying pan over a gentle heat a cupful of pop-corn just removed from the ear; stir constantly with a fork so as to keep the grains moving. The fire must not be too hot or the corn is liable to scorch. Continue this parching process until the grains have puffed up and are almost round, besides being colored a delicate brown. Turn into a large bowl and pour a generous quantity of melted butter over the hot corn, stirring it about so that the butter coats all the grain evenly. Salt the corn as soon as it is buttered so that the salt may cling to the kernels.

Glaze Fruits and Nuts.—Grapes, oranges, almonds, chestnuts, walnuts, sugar. Have the fruits perfectly dry and divided into sections, and the nuts shelled. In the instance of chestnuts, boil them in water until tender, then simmer for a little while in a thin sugar and water syrup so that they may be slightly sweetened. For the glaze sugar, boil together half pound of cut sugar and half cup of water until a little dropped into cold water immediately becomes brittle. Pick up each piece of fruit or nut separately with candy dippers or long-handled sugar-tongs. Dip very gently into the boiled sugar; then lay on waxed paper or on an oiled platter to set. Halves of nuts can be dressed into a small ball of almond paste or of fondant and then dipped into the glaze sugar.

Caramel Almonds.—One-pound of Jordan almonds, one pound of sugar, two tablespoonfuls of water. Shell, but do not blanch the almonds, and dry them in the oven until slightly crisp but not brown. Place the sugar and water in a heavy saucepan or frying pan and

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburg Breast Tea," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—Adv't.

Having Fitted the Entire First Floor in the Building We Now Occupy at 79 North Main Street into a

First Class Paint Shop

and with a complete line of the very best Paints and Varnishes that money will buy, we are now prepared to paint your carriages, automobiles, or whatever you have that needs painting, in a manner that will please the most exacting. None but strictly first-class carriage painters employed in this department.

Our prices will be the lowest possible, quality considered. Don't forget the place
