### GRAY HAIR BECOMES DARK, THICK, GLOSSY

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Advt.

Scott's Emulsion overcomes nervousness better than anything else because its nourishing force enriches the blood and stimulates its flow to all the tissues and bathes the tiny nerve cells in the rich plasma by which they are nourished.

Shun alcoholic substitutes that stimulate and stupefy. Take Scott's Emulsion for your nerves. Its nutritive power is the greatest help that nature affords.
