## Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

### Wonderful Case of Mrs. Stephenson, on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years, would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me, could not lift the lightest weight without making me sick; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sanative Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

### A Grateful Atlantic Coast Woman.

HONOLULU, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

### EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts Before Breakfast if Your Back Hurts or Bladder Bothers You.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv't.

### "CASCARETS" FIX SOUR STOMACHS

Gently Move Acids, Gases and Clogged-Up Waste from Stomach, Liver and Bowels While You Sleep.

Get a 10-cent box now. That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness, and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any. Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv't.

## TELEPHONING AGAINST TIME

The American demand for prompt service during the busy hour When seconds count Americans look to the telephone for IMMEDIATE service.

At certain hours during the day everybody wants to talk at the same time, and telephone calls come thick and fast. People become impatient of the slightest delay.

They have no time to think of the tremendous load that is put upon the telephone system. They are not interested in the means. They demand results.

The way that the Bell Companies have met this demand has made Bell Service the standard of excellence the world over.

To meet the requirements for the busy hour the entire system must be in perfect condition. Every operator must be on duty and keyed up to concert pitch. Every emergency must have been foreseen and provided for.

The promptness of American telephone service inspires the wonder of European visitors. They see an American call up a correspondent in a distant city with as much confidence as he calls his next door neighbor.

When the New Yorker says: "Wait a minute until I telephone to Washington," his guest, judging by his own transatlantic experience, is prepared to wait an hour.

Even the American does not appreciate what instantaneous service has cost. He does not realize that it means that the company must have at instant command a separate line for each customer, everywhere, at that rush hour.

Frequently one man talking over a long distance Bell line has the exclusive use of \$300,000 worth of equipment.

No one else can use it while he is using it.

Talking from New York to St. Louis his voice travels over one million pounds of copper wire. This is own private one-passenger talk road while he is using it.

Each additional circuit demanded by the extra business means an additional investment in copper wire—a large expense for surplus plant, which is only used for a short period each day.

If during the busy hour the Associated Bell Companies could postpone each successive call for half an hour—string them out through the day—an enormous saving of expense could be made. But the nation's talk would lose in its race against time, and the whole telephone service of the country would be demoralized.

This investment in extra facilities means that American out-of-town service is a matter of seconds, where minutes and hours are required in any other country.

As much as any other feature of American life this long distance service of the Associated Bell Companies is the measure of the unique progress of the country.

### New England Still Leads.

Boston, Jan. 22.—John S. Kent, president of the New England Shoe and Leather association, declared at the annual meeting of the organization yesterday that despite tariff legislation, which was expected to prove a detriment to the shoe business in New England is prosperous and New England is still the center of the shoe industry. He urged the association to use its influence in debating the so-called "pure goods" bill now before Congress, saying that

such legislation would advance the price of shoes to the wearer and offer a serious menace to the manufacturer.
