### STRIKERS BURN 14 CHURCHES

The Italian Rioters Dam-  
age Thirty-Nine  
Others

### AND LOOT 23 MORE SUCH EDIFICES

Cavalry Charges Incendi-  
aries at Bologna—Sharp-  
shooters Landed

Rome, June 16.—Church property suffered severely during the riots accompanying the recent general strike in Italy, according to reports presented to Pope Pius yesterday. These show that 14 churches were burned and 39 damaged, while 23 others were looted. Work was resumed generally yesterday at Ravenna, Forli, Cesena, Rimini, Lago, Faenza and Parma. In other districts the authorities were gradually succeeding in restoring order.

At Bologna, however, rioters yesterday set fire to the cathedral, the Church of Peace, and the Church of the Holy Cross in Sanzonia on the Adriatic, after they had sprinkled the doors with petroleum. Cavalry arrived in time to prevent the destruction of the cathedral, but the interiors of the other churches were devastated and only the walls remain standing of the Church of the Holy Cross. A detachment of 200 sharpshooters arrived on board a torpedo boat at Senigallia yesterday to assist in preserving order. A stretch of 100 yards of railroad track in the line between Modena and Mantua was torn up by the strikers yesterday. The telephone poles near Mirandola also were broken down. Soldiers were sent out to effect repairs.

In Ancona, where the stern repression of disorders brought about the declaration of a general strike throughout Italy, work was resumed everywhere yesterday. Detachments of soldiers and sailors still patrolled the streets and occupied strategic positions. In spite of efforts among the strikers to call out railway workers, enough men remained at their posts yesterday to permit the train service to run almost normally.

The general strike has ended, and the strike of the railway men which included only a small number of the employees, has been called off. Railroad, telegraph and telephone lines are hurriedly being repaired. Ravenna and Pimini have again been connected by telegraph. These lines were cut five times, each time being repaired with difficulty, and they are now guarded by troops. The railway line between these two points has been restored by the use of a military train with sharpshooters. The first train set over the line from Ferrara to Ravenna was loaded with soldiers. Not a few towns, having lost their gas and electric light supply, are being illuminated by army and navy searchlights.

Admiral Cagni, who was in command of the Italian bluejackets on their first landing in Tripoli, has now under his direction the quelling of disorders at Ancona. A detachment of bluejackets from his naval division has reinforced the garrison there. Before landing, the admiral reminded his men that they were Italian sailors and had never endured insults, either abroad or at home. He hoped that they would be worthy of their traditions on this occasion. Shortly afterwards a mob attacked the station which was guarded by sailors, and the bluejackets with fixed bayonets charged the revolutionists, who fled before them.

When the revolutionary movement began at Ancona a week ago, the anarchists, headed by Malatesta, published a special newspaper, which they called the Brutus Gazette. This contained in large type the following announcement:

"A revolution has broken out and is spreading through Romagna. The Quirinal has so far escaped invasion by the revolutionary masses, but is threatened. The monarchy has been condemned and may fall to-day or to-morrow—certainly soon. Therefore we must act most energetically. Any hesitation or weakness to-day is cowardice, treason, imbecility." By means of this "official" organ reports were spread throughout the surrounding country that 50 people had been killed in Ancona, that a provisional government had been installed at Milan, that Tuscanry has risen and that the navy had mutinied.

General municipal elections were held Sunday at Rome, Milan and Turin. Of special importance was that in Rome, where the contest for supremacy lay between the anti-clerical extremists, who are headed by Ernesto Nathan, for six years mayor of Rome, and an alliance of Clericals and Liberal Monarchists headed by Prince Colonna. According to early returns the Colonna faction seem to have the advantage. The strike here and the revolutionary movements in other parts of Italy strengthened their cause.

### TO EXTEND MOTH QUARANTINE.

New Lines Will Cover Known Range of the Gypsy and Brown Tail.

Washington, D. C., June 16.—The lines of the quarantine declared in New England against the gypsy moth and the brown tail moth will shortly be extended by the U. S. department of agriculture, unless good reasons are advanced against this step at a public hearing to be held in Washington at 10 o'clock on June 22. It is proposed also to quarantine certain sections on the north side of Long Island, which has hitherto been free from these pests. The new quarantine lines will cover the known range of the two insects.

### Plimley and McKenzie King Accept.

St. Albans, June 15.—The committee on invitations and speakers for the Peace Centenary announced today that it had received letters from Congressman Frank Plimley of the second Vermont district and Hon. McKenzie King, an ex-member of the last Liberal cabinet in Canada, accepting invitations to speak here July 4. Mr. Plimley will take the American side and Mr. King the British side of one hundred years of peace and the significance of it to each country.

Prescribed by  
doctors for  
nineteen years

### Resinol stops skin torments!

THE soothing, healing medication in Resinol Ointment and Resinol Soap penetrates every tiny pore of the skin, clears it of impurities, and stops itching, instantly. Resinol speedily heals eczema, rashes, ringworm and other eruptions and clears away disfiguring pimples and blackheads, when other treatments prove a waste of time and money.

Sold by all druggists. Resinol Ointment, 50c and \$1. Resinol Soap, 25c. For trial free, write to Dept. B, Resinol, Baltimore, Md. Refuse substitutes offered by a few unscrupulous dealers.

### READY TO LEND \$200,000,000 TO MOVE THE YEAR'S CROPS

Secretary McAdoo Announces That Government Will Lend Hand to the Banks.

Washington, June 16.—Secretary McAdoo again stands ready to lend a hand to western and southern banks in case they need money for crop moving purposes. The plan of lending government money to the banks in agricultural districts for use during the crop moving season last year was so successful that it will be adopted this year if the necessity arises. Money loaned by the treasury department last year was secured mostly by commercial paper, and all the borrowed money had been returned to the treasury by April 1, together with interest amounting to \$294,800. The total amount loaned to banks was \$37,386,000. It went to 193 banks in sixty-two cities of twenty-eight states. Secretary McAdoo announced he would lend \$50,000,000, but that much was not sought. In fact, the secretary stood ready to loan as much as \$200,000,000, had the banks in the farming sections demanded that much money.

### FAIR WEATHER THIS WEEK.

Showers May Come First Day or So, However—Cool for the East.

Washington, June 16.—Generally fair weather is forecast for the coming week, though it will be unsettled and showery the first day or two from the Missouri valley eastward to the Atlantic coast. Toward the end of the week a disturbance is expected to develop in the extreme northwest. "Temperatures will not change materially in the south," said the weather bureau's bulletin. "Over the central districts they will be normal or a little below, while over the east and north they will be somewhat low for the season, with a recovery to warmer conditions over the northwest after the middle of the week."

### NO HOPE FOR TAX DODGERS

Escape Is Impossible, Says  
the Commis-  
sioner

### DEPARTMENT TO TAKE UP PROSECUTIONS

Many Secret Sources of In-  
formation Are Avail-  
able

Washington, June 16.—Treasury agents are making ready to take the trail of income tax dodgers.

"A man is a fool who attempts to avoid the income tax," said Commissioner Osborne yesterday. "He is sure to be detected sooner or later. There is no chance that tax dodgers can escape."

The time for payment of this tax does not expire until July 1, but it is known that the treasury department already has the information necessary for the prosecution of many persons who made false returns.

It may take the treasury department months, or even years, to catch up with some of the tax dodgers, but the officials say the class will be relentless. The records of all banks and business concerns are open to the department and its agents have many secret sources of information.

The penalty for making a fraudulent return is imprisonment for not more than one year or a fine not exceeding \$1,000, or both, with the costs of prosecution. Persons subject to the tax who make no report may be fined from \$20 to \$10,000. The penalty for failure to pay the assessments upon returns before July 1, will be five per cent, plus an additional five per cent, for every month of delay.

### COMPROMISE IN DENMARK.

King Wins Point in the Upper Chamber.

Copenhagen, June 16.—A compromise was reached yesterday on the question of the dissolution of the Landsting or Upper House of the Danish parliament. The premier desired the dissolution of the Landsting, but the king maintained that the twelve life members appointed by himself should not be included. In a way the king has carried his point, because by the present arrangement new elections will be ordered for the fifty-four ordinary members of the Upper House, and the burning question of the twelve members nominated by the king has been postponed. By the dissolution the premier hopes to break the legislative deadlock, so that he may bring about the passage of the constitutional amendment bill.

### Pinklets Really Do Correct Constipation

There are few persons who do not suffer more or less from constipation and because of the discomfort it causes and the ill-health that results from this condition everyone should know how to properly correct it.

Harsh purgatives, formerly much used, act violently and leave the constipation worse than before. Pinklets correct this unnatural and dangerous condition by gently assisting the sluggish bowels and torpid liver to regain their normal activity. Their action is gentle, but effective and thorough, and they do not cause a single gripe. Unlike strong purgatives, Pinklets do not upset the stomach nor irritate and over-stimulate the bowels. Because they have none of these evil effects, they can be taken with entire safety until the constipation is corrected.

To simply regulate the bowels or to treat obstinate cases of constipation, Pinklets are the ideal laxative. They are safe for every member of the family to use. Any druggist can supply you at 25 cents per bottle. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for a Pinklet book which tells all about the cause, symptoms and treatment of constipation and sick headache.

### TWO BILLS

For Separation of B. & M. and New Haven Railroads.

Boston, June 16.—Two bills providing for the separation of the Boston & Maine and the New York, New Haven & Hartford railroad systems were reported to the executive committee on railroads yesterday by a sub-committee appointed last week.

One provides for a complete separation of the two properties and the retention of state control of the Boston & Maine stock held for the New Haven company by the Boston Railroad Holding company, but does not contain a referendum clause on the question of state ownership.

The other bill does not insist on the retention of state control of Boston & Maine stock, but provides that upon petition of 25 stockholders, representing at least 10 per cent, of the Boston & Maine stock, the attorney-general should institute suit against certain former and present directors of the New Haven road to compel the restoration to Boston & Maine stockholders of money alleged to have been lost through the New Haven's management of Boston & Maine affairs.

No action was taken by the railroad committee on either bill, but it was said that some compromise measure probably would be drafted.

### MRS. PENNYBACKER IS CHOICE.

Certain to Be Re-elected Head of Federation of Clubs.

Chicago, June 16.—The renomination and re-election of Mrs. Percy V. Pennybacker of Austin, Tex., as president of the General Federation of Women's Clubs to-day was forecast when the nominating committee met yesterday.

No candidate has come out in opposition to Mrs. Pennybacker. Her attitude in bringing the suffrage resolution to a quick vote won the support of suffragists, who had previously been lukewarm in their support.

Mrs. Grace Julian Clarke of Indianapolis, chairman of the federation press committee, is a candidate for a place on the general federation board, with prospects of election.

### If You Could—

- Separate the most nutritious part of the kernels of choicest white corn—
- If you could cook this carefully selected part just as we cook it—
- If you could cure, sweeten and salt it to get the same delicious, delicate flavor that we get—
- If you could roll each separate bit, thin and ribbony, under 40 tons pressure—
- If you could pass the flaky bits in at the top of a great oven 30 feet high, through which they would slowly move to the bottom and come out toasted to a golden-brown—and all this, without being touched by hand—
- Then 'most anyone could make his own

## Post Toasties

But the best part it, you don't have to go to all that bother and care. It is all done for you!

Anywhere in America, ten or fifteen cents (according to size) will buy a large, tightly sealed package of this dainty food—

Sweet and crisp, fresh from the factory, and ready to eat with cream, immediately the package is opened.

Grocers everywhere sell Post Toasties

### WILSON NAMES RESERVE BOARD

C. S. Hamlin of Boston Fifth Man—  
Governor to Be Selected After  
Senate Action.

Washington, D. C., June 16.—Nominations of Charles Hamlin of Boston, T. B. Jones of Chicago, W. P. G. Harding of Birmingham, Ala., Paul Warburg of New York, and A. C. Miller of San Francisco, to be members of the federal reserve board, were sent to the Senate yesterday by President Wilson.

The governor of the board will not be selected until after the Senate confirms the nominations.

The members of the board were nominated to serve the following terms: Hamlin, two years; Warburg, four years; Jones, six years; Harding, eight years; and Miller, ten years.

Hamlin was selected yesterday, after E. C. Simmons of St. Louis had declined the appointment.

Jones, a Chicago lawyer, had been selected for the governorship, but with the coming of Mr. Hamlin to the board it was thought that plan might be changed and the governorship might go to the Boston man. Mr. Hamlin is an expert in finance, who served as assistant secretary of the treasury under President Cleveland, and returned to the treasury department soon after President Wilson took office, as the second secretary in charge of customs. The appointment of John Shelton Williams to be controller of the currency left vacant the office of assistant secretary in charge of the treasury fiscal bureau, and Mr. Hamlin was appointed to that place, which put him logically in line for promotion to the secretary's office itself.

President Wilson, it is said, has been reluctant to appoint Mr. Hamlin to the reserve board, because he felt he was needed in his present position.

### HOME RULE IN LORDS JUNE 30.

Amending Bill on Irish Measure Goes to Commons Next Week.

London, June 16.—Second reading of the Irish home rule bill in the House of Lords will come on June 30. This announcement was made in the Lords yesterday by Lord Crowe.

The bill amending the home rule measure will be introduced next week in the House of Commons.

### T. R. GUEST AT GREY'S LUNCHEON.

Meets Leaders of British Liberals at Foreign Minister's Table.

London, June 16.—Col. Theodore Roosevelt yesterday was the luncheon guest of Sir Edward Grey, foreign minister, at a private affair at which the former American president met many of the Liberal leaders. It was reported that the Irish question, in which Col. Roosevelt is known to be interested, would be generally discussed.

Last night Col. Roosevelt will attend the horse show at Olympia. Sir Edward Grey's guests to meet Col. Roosevelt were Premier Asquith, Ambassador Page, Chancellor of the Exchequer David Lloyd George, Lord Harcourt, Sir James Bryce and Sir Cecil Spring-Rice, British ambassador at Washington.

### ANOTHER STATE BANK CLOSED.

A Munday Institution at Marine, Ill., to Be Examined by State Auditor.

St. Louis, Mo., June 16.—The state bank of Marine, Ill., was closed by the directors yesterday pending an examination of the state auditor. The action of the directors was voluntary. C. B. Munday resigned the presidency at the request of the directors following the closing of the Chicago banks, in which he was interested. The bank has deposits of \$220,000.

It is understood that Munday's interest in the bank is to be bought out and the bank reorganized.

### WILLIAM LEADS DEFENSE.

Prince of Albania Helps to Repulse Attack on Durazzo.

Durazzo, Albania, June 16.—Albanian government troops under the personal leadership of Prince William yesterday repulsed a strong attack on the Albanian capital by Mussulman insurgents. At the outset of the fighting, the insurgents gained an advantageous position, but after Colonel Thomson, the Dutch commander of the gendarmerie, had been killed, Prince William placed himself at the head of the defenders, who succeeded in driving off the attacking force.

St. Albans high school defeated Plattburgh high school in an extra inning game at St. Albans on Saturday by the score of 5 to 4.

### FEARFUL STORM STRIKES PARIS

The Streets Cave in and People Are  
Carried Down into the  
Cavities.

Paris, June 16.—A thunder storm of phenomenal violence raged over Paris for three hours last night. It caused loss of life and enormous property damage. Streets were flooded and sewers burst.

In the fashionable quarter, streets caved in, engulfing several pedestrians. The most serious cave-in was at the Place Saint Philippe de Roule, where people in the shelter of a cafe awning sank with the street. Troops were called out to aid the police and firemen in the work of rescue.

On the Place St. Augustin, a taxicab was engulfed. Later the firemen uncovered the taxicab and removed the bodies of the chauffeur and the passenger, Madame Lavolti.

Lightning struck and set fire to cafes and river steamboats.

### ANOTHER MOVE ON WILSON.

Women's Clubs to Send Suffrage Delegation to the President.

Washington, June 16.—Another suffragist march on the White House is being planned as the result of the endorsement of woman suffrage by the Federation of Women's clubs at Chicago. President Wilson will be asked to receive a deputation of suffrage club women headed by Mrs. Harvey W. Wiley, on June 20. The leaders have entrusted to Mrs. Wiley the work of selecting the members of the deputation, which they plan shall be composed of several hundred representative club women from all the states. The demonstration will come as the climax of a campaign for favorable action on the suffrage amendment by the House rules committee on July 1.

When the last delegation was received by the president, he told them that he did not consider he had a right to recommend his personal views to Congress, and pointed out that the Democratic party in its platform had not touched upon woman suffrage. The suffrage leaders say they intend to ask the president to act regardless of the Baltimore platform, and to use his influence for a favorable report from the rules committee.

**THE SECRET OF BODY**

Any oil may have the "feel" of the right body at ordinary temperatures, but the important question is this: Can it hold its body at cylinder heat? Is it stable at heat where body is needed?

This stability is a natural property—no process of refining, compression, "cutting," or filtration can "manufacture" it into an oil. It must be in the original crude stock. That is why we use costly paraffine crudes in making

## Polarine

These oils have what is known as a paraffine base. Paraffine oils have the natural property which gives them a good lubricating body at cylinder heat. We could buy crudes cheaper than paraffine crudes. The oil would look just as good in the can. It would feel just as good between the fingers. But it would not stand under the heat in the cylinder.

The expensive stock used in Polarine makes it cost much more to produce, perhaps a little more to buy. But it makes Polarine the cheapest oil to the user in the end. Polarine is the standard oil for all motors.

**Standard Oil Company of New York**

When the revolutionary movement began at Ancona a week ago, the anarchists, headed by Malatesta, published a special newspaper, which they called the Brutus Gazette. This contained in large type the following announcement:

"A revolution has broken out and is spreading through Romagna. The Quirinal has so far escaped invasion by the revolutionary masses, but is threatened.
