The train bearing the emperor and his family passed the spot a few minutes later without further incident. The members of the party were on their return journey from their recent visit to King Charles of Roumania.

DRILL PUNCTURED THUMB.

Everett C. Hillman Met With Serious Accident at Waterbury.

Waterbury, June 18.—Everett C. Hillman, who runs one of the lathes in the white birch department of the Demeritt & Palmer Packing Co., received a very painful injury Tuesday afternoon. He had stopped the machine, as he supposed, to make some repairs, when in some unknown way the machine started and his thumb was pinned under the drill. The drill passed through his thumb and was broken off, the physician extracting it and dressing the injured member. Because of the injury to the bone, it will be a long time before Mr. Hillman can work. The accident seems the more unfortunate in that Mr. Hillman was laid off not long ago with an injured hand. He is the master of Diltingham grange of Duxbury.

VILLA WINS POINT OVER CARRANZA

Latter Accedes to His Fighting General's Demand to Lead Army Against Zatecas, and Villa Appears to be Placated.

Washington, June 18.—Official information reaching the Washington government last night from American Consul Edwards at Juarez said Gen. Francisco Villa and Gen. Venustiano Carranza, leaders of the constitutionalist movement in Mexico, had patched up their differences and Villa would proceed to take charge of the military movement against Zatecas where the revolutionary forces recently met reverse. That Gen. Carranza had determined upon a truce with Carranza and had demonstrated his attitude by imprisoning some officers in the first constitutionalist chief's command was verified in reports to the state department to-day. It was declared, however, that Villa's action had served the purpose for which it was intended and that he would henceforth command the military advance against Huerta.

Other official dispatches received were to the effect that all of the principal officers of the revolutionary movement sided with Villa in his difference with Carranza as to the methods of proceeding with the military campaign and that Carranza had agreed that Villa should take supreme military command.

According to the official dispatches the differences between Carranza and Villa arose over the attacks on Zatecas. Carranza, it was stated, insisted that Gen. B. Natera lead the assault and mapped out plans which Villa did not support.

Villa insisted that Carranza was being influenced by ambitious politicians in the revolutionary movement and determined to resign his commission as chief of the military forces in northern Mexico.

Carranza accepted his resignation and ordered Villa to Chihuahua to assume the military governorship of the state. Immediately, it is said, all of Villa's subordinate officers revolted, insisting that the first chief had made a mistake. Carranza then is said to have yielded and to have restored Villa to his command with instructions to proceed.

HUERTA DELEGATES SCORE WILSON STAND

On Insisting On a Constitutionalist For Mexican Provisional Presidency Instead of a "Neutral."

Niagara Falls, Ont., June 18.—The Huerta delegation to the mediation conference issued a statement last night charging that the insistence by the United States on a constitutionalist for the provisional presidency was opposed to a "neutral" stand and tantamount to abetting and even exacting fraud and violence at the elections.

The publication of this statement was unexpected by the American delegates. When they learned of it their attitude was that the Huerta delegates were acting entirely within their rights when they criticized the American plan for the establishment of a provisional government in a communication addressed to the Americans themselves, but they were greatly surprised by the Mexican delegates' action in giving it out.

One paragraph of the Mexican statement, criticizing the Washington administration, says:— "The American delegation draws an illogical inference when it says that the rebel successes show that the nation is with them. The central and eastern states of the republic which have a total population of over 10,000,000 inhabitants are not under rebel control. Of these Guanajuato, Jalisco, Puebla, Vera Cruz, Mexico and Oaxaca alone have over 7,000,000. But admitting said erroneous inference is to be correct, it is no argument for the forcible imposition of the triumph of the revolutionary candidate as under a neutral government he would be assured of a certain and honorable victory. If the nation is with Carranza, as the American delegates claim it is, the nation will elect him without the necessity of tainting his triumph with either fraud or violence or the charge of its being the fruit of foreign intervention, accusations which public opinion will always make against it. Carranza elected by the nation under a neutral provisional government would command the respect due to the person who incarnates the nation's will whereas elected under a government purposedly imposed as the result of any action of the Washington government he would always be regarded as a traitor."

FEDERALS MOURN FOR REBEL CAPTAIN

Flag on the Conquering Guerrero is at Half-Mast for the Commander of the Vanquished Ship.

Five of the constitutionalists who were picked up after the sinking of the Tampico, will be spared.

Captain Malpico was formerly a lieutenant in the Mexican navy, and the Guerrero's crew is said to entertain a brotherly feeling toward him and his men.

STEAMER'S DAMAGE WAS OVER-STATED

Declare Officials of North German Lloyd Line, Whose Kaiser Wilhelm II Was Punched by Small Vessel.

Bremen, Germany, June 18.—The North German Lloyd line to-day issued a statement declaring the damage to the Kaiser Wilhelm II in yesterday's collision was considerably less than first reported. The steamer docked to-day at Southampton and the passengers were transferred to the Imperator. The steamer has a hole in its starboard side.

Southampton, England, June 18.—The North German Lloyd steamer Kaiser Wilhelm II, which left Southampton shortly after noon yesterday bound for New York with a thousand passengers, received a big hole in her side amidsthips, caused by a collision with the Liverpool grain steamer Incemore, bound from a Black sea port for Antwerp.

The Incemore, a much smaller craft than the German steamer, is in dock here with her bow badly smashed. The collision occurred in a dense fog in the English channel, 13 miles south of the Nab lightship.

Both captains did their best to avert a collision, but the short distance separating the vessels rendered their efforts ineffectual, and the Incemore struck the liner on the starboard side amidsthips.

The steamers stood by each other until it was ascertained that neither needed immediate assistance. The forepeak of the Incemore rapidly filled with water, but the stout bulkhead confined it there, and although so much down by the bows that the propeller was half out of the water she managed to crawl into port. There it was found that the damage to the bows extended for a length of twelve feet and a width of ten feet.

The Kaiser Wilhelm carried 132 first cabin passengers, 188 in the second cabin and 700 in the third. Among the passengers are: William M. Clements, Mrs. A. H. Walker and Mrs. Joseph Frankel of New York, and Mrs. Alvin W. Kreech and family and Miss Doolittle of Utica, N. Y.

The fog was general off the southern coast and the steamer Copsewood of Middlesboro, from Grimsby for Newport, which arrived last night at Cowes, reported that she had been in collision with the German steamer Etruria, from New Orleans for Hamburg. The Copsewood sustained damage on the port quarter.

PLEASED WITH VISIT.

N. E. Cemetery Superintendents Left for Home Last Evening.

Most of the 75 New England cemetery superintendents and their wives, who have been the guests of the city since Tuesday morning, bade farewell to Barre last evening and left for their homes, via Boston, on the Green Mountain express at 9:30 o'clock. Two night coaches reserved for the visitors on the trip to Barre, were attached to the express. The departure of the superintendents was an auspicious ending to a successful two days' outing. After the hand concert, the Barre Citizens' band, led by members of the allied committee, escorted the delegates down through North Main street to the M. & W. R. station. Just before the train pulled out both the entertainers and the guests exchanged enthusiastic cheers. Across the square an illuminated sign welcomed the visitors to come again and that welcome was echoed as the express left the station.

Yesterday's splendid weather made possible one of the most delightful features of the outing. Some of the manufacturing plants visited in the forenoon were inspected for the second time at the request of the cemetery superintendents. In numerous instances the manufacturers provided the superintendents and their guests appropriate favors as reminders of their visit to Barre. Trips were made to Elmwood and Hope cemeteries and in the little park outside the latter burial ground, the superintendents held a brief business meeting and extended votes of thanks to the four local organizations and to the ladies. Other side-excursions in the afternoon included a trip to Montpelier, where Green Mount cemetery was inspected, and a delightful ride over the hills to Berlin pond. Near the pond the tourists were served ice cream and cake at the Stewart farm. On the way home, the cars stopped at the Morrison farm on west hill and the occupants were shown through the dairy barns and allowed to inspect the fine herd of cattle there. Supper was served in the Congregational church.

That the guests appreciated the entertainment during their stay in Barre no one who mingled in the crowd that made the auto trips can doubt for a moment. On all sides were expressed sentiments of the highest appreciation and more than one of the superintendents voiced a desire to make a return visit to the Granite city in the near future.

Throughout the day the various conferences and addresses were well attended and an unusual degree of interest in the convention proceedings was manifested by all. A pleasurable feature of the afternoon program was a piano duet by Misses Merle Gow and Kathryn Martin and a vocal solo by Miss Flora Parcher of Waterbury Center. Excellent music was rendered in the evening by the children's chorus of the Congregational church. Miss Parcher also sang.

There are a multitude of ways in which the Christian Endeavor can help the Sunday school. At the same time members obtain valuable training for the work which they should later do in the wider field of the church. We must recognize that neither the Christian Endeavor or the Sunday school is an end in itself; but both are efficient means used to inspire, educate, train and develop workers for the kingdom which God has for his children here and in the years to come.

"In attaining the ideal relation between the two organizations we need the faith that can pray without ceasing; that will not give up whatever obstacles may be encountered. And, if in the spirit of faith, with patience and earnestness and loyalty we go about our work, our two organizations ought to be able to work efficiently together to do the common work of Christ's church."

LOCAL EASTERN STARS

HONOR GRAND MATRON

Mrs. Abbie D. Stone of Ruth Chapter, Barre, Congratulated Formally on Her Election to High Position in State Organization.

Ruth chapter, No. 33, O. E. S., honored Mrs. Abbie D. Stone, the recently elected grand matron of the Eastern Star bodies in Vermont by tendering her a reception in Masonic hall last evening. It was the first time that the chapter had officially marked the honor conferred on it by the election of one of its own members as grand matron at the grand convention in Burlington a few weeks ago. More than one hundred people prominent in Star circles were present, many coming from Montpelier and Williamstown chapters.

In the receiving line were Charles Lundgren, worthy patron of Ruth chapter, Mrs. Elizabeth Gove, worthy matron, Mrs. Stone, the grand matron, E. H. Prouty of Montpelier, the grand sentinel, Mrs. Hattie E. Richmond of Northfield, the grand chaplain, Mrs. Philo Huntington of Montpelier, the deputy grand matron and Mrs. Alda M. Dunham of this city, a past grand matron of the state. Soon after 8 o'clock, those who were later to appear in the receiving line and the guests were escorted to the lodge room by the following members: Mrs. Lillian Duncan, Miss Jennie Marr, the associate conductress, Miss Ena Adie, Mrs. Alex Young, the marshal, Mrs. James Gow and Mrs. Homer C. Ladd.

One of the delightful features of the evening was an informal program carried out by local soloists and entertainers. Miss Murdena Smith contributed piano solos, Misses Mary Patterson and Glee Wood sang and Dr. F. M. Lynde gave selected readings. The guest book was in charge of Mrs. Grace Lebourveau and the occasion was made more notable by the recording of newly given guests. A social hour after the program was brought to a close with light refreshments, the chapter serving ice cream and cake.

Members of the Presbyterian Bible class to the number of 40 enjoyed an outing at Benjamin Falls last evening under ideal conditions. A bounteous supper was spread and the open air seemed to give all a large appetite, as was easily discernible. Ice cream and soft drinks had their places on the menu. The evening was spent in ball playing, in which the girls' team "put it over" the boys'. Solos were contributed by Alex. Hall and Misses Marie Macdonald and Mary Watson. Story telling around a huge fire also helped to while away the time and when dusk had settled the party took the route homeward. All expressed their desire to have another such outing later in the season.

C. E. CONVENTION OF MUCH BENEFIT

Washington County Delegates Finished Their Sessions in Barre Last Evening—Earl M. Lewis Re-elected President.

"A Trip to the Holy Land," an illustrated lecture by Miss Beulah E. Bates, state secretary, brought to a successful close the 38th annual convention of the Washington county Christian Endeavor union at the Congregational church last evening. A large crowd attended and Miss Bates compelled careful attention from her audience as she accompanied each stereoscopic view with little descriptive lectures. A devotional service opened the evening exercises and a consecration and quiet time followed the lecture by Miss Bates.

In the late afternoon the Endeavorers held their annual business meeting and elected the following officers: President, Earl M. Lewis of Barre, who succeeded himself; vice president, Miss Etta F. Graves of Waterbury; secretary and junior superintendent, Miss Lena M. Andrews of Montpelier; treasurer, Miss Marion F. Stickney of Barre; lookout committee, Rev. Fred McNeil of Graniteville, Mrs. G. N. Welch of Northfield, Miss Mertie B. Howe of Roxbury and Miss Rachel Erwin of Montpelier. Committee reports, covering a wide range of topics, were received at the same time and accepted. Earlier in the afternoon Miss Etta F. Graves conducted a conference on junior work that was helpful in every detail. One of the inspiring addresses of the afternoon was given by H. G. Woodruff, who spoke on "The Ideal Relation Between the C. E. Society and the Sunday School." Mr. Woodruff presented a workable program for adjusting the programs of these two organizations. Miss Bates contributed a timely address on "The State and International Advance."

Excerpts from Mr. Woodruff's address are given as follows: "The Sunday school is the place for Bible study, where in the plastic years of childhood and youth the fundamental truths of religion are learned. It helps to strengthen spiritual life of members and to build up Christian character. Most of the organized classes are older than Christian Endeavor."

"Christian Endeavor also teaches religion—but emphasizes its practical aspects; trains in public speaking; in committee work; in social work. It teaches loyalty to Christ and to the church. It emphasizes daily prayer and daily reading of God's word. It stands for systematic and definite Christian service, for a working and workable Christianity. Here again we see the inter-relation of the two organizations for the Sunday school offers the most available practice ground for the Christian Endeavor; and most Christian Endeavor societies recognize this fact by appointing a Sunday school committee, which works to build up the Sunday school."

"There are a multitude of ways in which the Christian Endeavor can help the Sunday school. At the same time members obtain valuable training for the work which they should later do in the wider field of the church. We must recognize that neither the Christian Endeavor or the Sunday school is an end in itself; but both are efficient means used to inspire, educate, train and develop workers for the kingdom which God has for his children here and in the years to come."

DEATH WOULD BE FIGHT

Michael J. Slattery Lingered Four Days After Taking Paris Green

END CAME TO-DAY AT THE HOSPITAL

Montpelier Man Took the Poison Early Sunday Morning

After lingering between life and death for four days after taking Paris green, Michael J. Slattery, a well-known Montpelier granite cutter, died this morning at the Heaton hospital in Montpelier, where he was taken Sunday from his home after his condition had been discovered by his son, William Slattery of Northfield. At no time since he had been in the hospital had there been hope for recovery of the man, although he had shown remarkable vitality.

It was early Sunday forenoon that William Slattery arrived in Montpelier from Northfield and went to the Slattery home, 40 Hill street, to find the door locked and no signs of life about the place. At length, however, his repeated knocks brought a tottering man downstairs, the man being the elder Slattery, who was able to open the
