

MAY ATTACK U. S. FORCES

Mutineers from Huerta's Army Threaten to Make Charge on Garrison

MEXICAN COMMANDER NOTIFIES FUNSTON

Latter Confirmed Story of Mutiny in Dispatch to War Department

Washington, D. C., July 7.—Brigadier General Funston, in a despatch to the war department to-day, confirmed the reports of a mutiny among the Huerta forces before the American outposts at Vera Cruz.

HUERTA TROOPS REVOLT

According to Report Received at Rebel Headquarters.

Vera Cruz, July 7.—Word of a revolt on the part of a large number of the federal troops stationed along the line in front of the American outposts reached constitutionalist agents in this city late last night.

In order to prevent a clash between forces loyal to Huerta and those reported to be in revolt near the American lines which might result in complication with the American outposts, Octavio Campero, Carranza's agent here, appealed to General Funston for permission to pass the lines in order to instruct the mutinous troops to move rapidly away from the neighborhood of Vera Cruz into territory held by the constitutionalists.

General Funston, who had already been informed that unusual developments of some kind were taking place within the federal lines, had given orders to the outposts to maintain unusual vigilance. He refused Campero's request on account of the existing armistice and in order to maintain the neutral position of the American forces.

MONSTER GIFT POSSIBLE.

Carnegie May Donate \$75,000,000 for Libraries.

St. Paul, Minn., July 7.—An earnest plea in behalf of the woman educator by President Joseph Swain, and discussion of a plan for the establishment of libraries in the country districts to which Andrew Carnegie may be the chief contributor, marked yesterday's session of the National Educational association.

President Swain was loudly applauded, particularly by the women delegates, when he made such statements as: "Pay the teachers a living wage," "Let the women teachers vote," "Provide a system of retirement allowances so that teachers will work contentedly," "Open more supervisory positions to women," "Choose the best person for a position, regardless of sex."

Supporters of the presidential candidacy of David S. Jordan were elated over the declarations of President Swain and pointed out that such views expressed by the administration would go a long way in bringing the support of the women delegates to Dr. Jordan, who is termed the "machine candidate" by the southern delegates.

Philander Claxton, United States commissioner of education, created a surprise at a meeting of state superintendents by announcing that Andrew Carnegie has under consideration a plan for the establishment of libraries in country districts that would call for a contribution of between \$75,000,000 and \$75,500,000 by the steel magnate.

A proposal by E. E. Scribner of Ishpeming, Mich., for a federal bureau of education with a representative in the president's cabinet was well received. It was announced unofficially yesterday that those in favor of simplified spelling will make no effort to place the matter before the convention this year.

In discussing the plan for rural Carnegie libraries, Mr. Claxton said: "Mr. Carnegie was interested in the proposal, and asked me how much money it would require. I told him over \$75,000,000. He is determined to give his money away and die poor, and here is an opportunity."

"From what he said, I have reason to believe that he contemplates the proposition to him that cities make—they to buy the lot that will erect the building—Mr. Carnegie would do his share."

The general session of the association last night was devoted to a discussion of the status of woman. Flat-chested women graduates from institutions of learning with all sorts of intellectual, but with bad digestion and frazzled nerves, are hopelessly out of fashion, said Miss Mary E. Woolley, president of Mount Holyoke college. She named good health as the primary requisite for the successful woman.

AUTO SKIDS AND KILLS.

Augustus Booth of East Boston Was the Victim. Rockport, Mass., July 7.—Augustus Booth of East Boston was killed yesterday when an automobile which he was driving skidded and overturned on a newly oiled road near the junction of Marmion way and South street. His companion, Miss Margaret Cate of Winchester, escaped injury except for a shaking up and minor bruises. Booth was crushed beneath the rear seat.

COAST DEFENSE TOWERS PLANNED

To Protect British Isles From Attack From Aircraft—Towers to Dot the Entire Coast.

London, July 7.—As a defense against attack by air craft, the British government to-day decided to dot the coasts of the British Isles with a series of towers, each of them armed with two quick-firing guns of special design. A complete circle of towers is to be erected around the naval stations, such as Portsmouth and Eosyth and other especially vulnerable points.

BLUE SKY LAW VOID.

Iowa's Enactment Is Declared to Be Unconstitutional.

Des Moines, Ia., July 7.—Iowa's so-called blue sky law, providing for the regulation and supervision of investment companies, was held unconstitutional in a per curiam opinion handed down yesterday by Walter L. Smith, United States circuit judge, and Smith McPherson and John Pollock, United States district judges.

Although the measure was attacked on five different grounds, the judges cited only two specific instances wherein the law is invalid that it offends against the commerce clause of the federal law, and that it grants privilege and immunities to citizens of Iowa denied to citizens of other states.

The request of the petitioners for an injunction to prevent W. S. Allen, secretary of state, and George Cason, attorney general, from enforcing the law as properly passed was not decided by the federal judges.

The opinion given yesterday coincides with one handed down by the federal judge of Michigan on the illegality of the blue sky law.

FAST LIFTING-OFF WATER.

Glenn Curtiss' Flying-Boat Makes Good Ascent.

Hammondsport, N. Y., July 7.—With a load of nearly 1,800 pounds, Glenn Curtiss yesterday rose from the water in the America, the Rodman Wanamaker trans-Atlantic flying boat, in 60 seconds after leaving the dock. Planning on the surface for another 100 yards he was free and clear in the air one minute and 15 seconds after the start.

This is the fastest rising from the water the America has done up to the present. Mr. Curtiss believes that a little more experimental work will see the America leaving the water quickly with the full load required for the flight to the Azores.

HIS FREE SPEECH CURTAILED.

George Fred Williams Couldn't Talk About Albania As He Liked.

Washington, D. C., July 7.—President Wilson had before him to-day the resignation of George Fred Williams, American minister to Greece and Montenegro, whose alleged criticisms of conditions in Albania caused a sensation in Washington and in the capitals of Europe. It was expected that the resignation would be accepted immediately, thus terminating Williams' brief career as a diplomat.

Williams gave his reason for resigning that he could not comment upon conditions in Albania as he would like to under the restraint imposed by his diplomatic position and he did not feel he could conscientiously keep silence with his knowledge of what was being done.

ROYAL COUPLE BOMBARDED.

Suffragette Literature Furnished Most of the Ammunition.

Edinburgh, July 7.—The suffragettes took advantage of the visit here yesterday of King George and Queen Mary to prepare the usual suffragette demonstration, in which the bombardment of the royal couple with suffragette literature was the feature.

Two women obtained possession of a balcony and as the royal carriage passed they threw down upon it a lot of suffragette appeals. Then two detectives seized them.

The king, looking up, saw the women struggling in the arms of the officers. They were removed to the police station.

PLEADED NOT GUILTY.

Louis Eisman Was Arraigned on Abduction Charge.

Hingham, Mass., July 7.—Louis Eisman pleaded not guilty when arraigned in the district court yesterday, charged with abducting Fern Hallian, daughter of Mr. and Mrs. J. H. Hallian of Nantasket. He was ordered to furnish a bond of \$1,000 and went to the Hingham police station pending the appearance of a bondsman.

Eisman, who was Hallian's chauffeur, was arrested Saturday in Portland, Me., where he was found in company with Miss Hallian.

PRISONERS AID AFFLICTED.

Inmates of Charlestown, Mass., State Prison Send \$288 to Salem.

Boston, July 7.—Inmates of the Charlestown state prison yesterday sent Governor Walsh \$288 as their contribution toward the relief of the sufferers by the Salem fire. The governor sent the prisoners a message of appreciation of the gift.

Additions to the relief fund came in slowly yesterday, and the total last night was still under \$400,000. The amount in the hands of the treasurer was announced as \$395,151.

BOTH BOXERS CONFIDENT.

Welsh and Ritchie Will Fight in London To-night.

London, July 7.—Freddie Welsh, lightweight champion of England, and Willie Ritchie, world's lightweight champion, arrived in London from their training camps to-day for their championship fight, which is scheduled for this evening. Both boxers declared themselves confident of winning the match. Welsh is a slight favorite in the betting.

WON'T SERVE ON BANK BOARD

Because Paul M. Warburg Objects to Personal Quizzing

WILSON WITHDRAWS THE NOMINATION

Federal Board Has Enough Members to Proceed with Work

Washington, D. C., July 7.—Paul M. Warburg of New York to-day formally requested President Wilson to withdraw his nomination to be a member of the federal reserve board, and the president will do so to-day.

Mr. Warburg, who is a member of the banking house of Kuhn, Loeb & Company, was nominated for the four years' term, and when the Senate banking committee began examining personally all the nominees of the president for the reserve board, Mr. Warburg indicated that he did not wish to be questioned by the committee as a condition to taking the appointment. To-day he called by telephone and personally requested President Wilson to withdraw his nomination.

There was no indication whom the president might choose to fill the place, but the change in the personnel, it was said, will not further delay the actual organization of the currency system.

The Senate has confirmed the appointments of W. P. G. Harding, A. C. Miller and Charles S. Hamilton, as members of the board and they, with Secretary of the Treasury McAdoo and Comptroller of the Currency Williams, members ex-officio, constitute a quorum which now may proceed with the work.

BURNED A MAN AS JOKE.

Butt of the "Fun" Died and Two Other Men Were Arrested.

Salisbury, Md., July 7.—Joseph Darby and George Sloops youn white men, were brought to the county jail from Hebron late yesterday, charged with pouring coal oil on Benjamin Goslee, colored, 71 years old, and then setting fire to his clothing, burning him so badly that death resulted in a few minutes.

Darby made a statement in which he assumed sole responsibility for the deed, saying it was intended as a practical joke. He said the three men had been drinking together and the negro became stupid. Unable to arouse him Darby poured the contents of a kerosene lamp on his clothing and ignited it. The flames were extinguished too late to save the man's life. Before he died Goslee said the white men always had been friendly towards him.

VERMONT EDUCATORS MEET.

Union School Superintendents Are at Queen City Park.

Burlington, July 7.—The annual session of the union school superintendents of the state was opened last night at Queen City park. A. W. Varney of Bennington, president of the association, presiding. About 50 superintendents throughout the state were present. After a few words he introduced M. S. Stone, state superintendent of education, who gave a short welcome to those assembled, and outlined the work of the association. The chairman then introduced Governor Fletcher, who gave a short address. He expressed himself as greatly in favor of the work of the association, but said that he did not want to promote the cause of higher education if it was for private interest or gain.

Dr. E. A. Winslow of Boston, editor of the New England Journal of Education, was the last speaker.

There will be three sessions daily for the rest of the week, at nine, two and eight o'clock. The general theme for discussion is the educational policy of the state. This morning Mr. Ryan of the bureau of education was the speaker and this afternoon Prof. W. F. Munroe of the state normal school of Montclair, N. J., spoke.

400 STUDENTS IN CAMP.

Will Study Military Tactics Near Burlington for Month.

Burlington, July 7.—The government students' military camp for the north-eastern section of the United States opened here yesterday for five weeks. There are 400 students under the tents, representing selected representatives from many of the higher institutions of learning in this part of the country.

The first routine began to-day and the first lecture was given at the University of Vermont gymnasium by Capt. Oliver Edwards of the fifth infantry, who is commandant. The men, after providing themselves with uniforms, were given their infantry equipment and were shown how to handle and pack it.

Most of them were provided with rifles. Many of the young men were unfamiliar with weapons, but there is a large percentage who have had military instructions.

The Y. M. C. A. tent is already in full swing with reading room, telephone and telegraph wires. The city council voted an appropriation at a special meeting last evening for the establishment of bathing quarters on one of the beaches on Lake Champlain, solely for the accommodation of the student camp.

REPORT EXPECTED SATURDAY.

In Case Growing Out of Wreck of Empress of Ireland.

Montreal, July 7.—The report of the commission which inquired into the wreck of the Empress of Ireland is expected to be made Saturday, according to advices received to-day from Quebec.

DEFIED ARREST AND WAS SHOT

Edward Mooto, Vermont's Famous Woodchopper, Is Not Badly Wounded—Officers Fired Shot in Making Arrest.

Springfield, July 7.—Edward Mooto, who a few years ago won not only state but national fame as a woodchopper under the patronage of the late Maxwell Evans of Windsor, is in the Springfield hospital with bullet wounds in his left arm and shoulder, as the result of a mix-up between Mooto's son, Charles, and the officers of the law after Charles Mooto made, it is alleged, a threat to harm C. L. Douglas, who operates a stage between Felchville and Green Bush.

Douglas reported the affair to Deputy Sheriff Collins Stearns and the latter swore in two deputies and went to the Mooto home where the young man and his father defied the officers. Deputy Sheriff Carpenter, it is claimed, received a blow on the head from a chair which cut a gash about three inches in length.

When the Mootos, who, it is claimed, were intoxicated, showed a disposition to disregard the officers, Deputy Sheriff Stearns drew a revolver and fired, the bullet striking the elder Mooto in one of the muscles of the left arm, the ball passing upward and coming out beneath the shoulder. In the mix-up and confusion, the younger Mooto made his escape.

Mooto, sr., was brought to the hospital here where he was attended by Dr. L. R. Doane.

In the afternoon the younger belligerent came to Springfield and in a decidedly crestfallen way surrendered himself to the authorities.

Mooto, sr., will be taken to Woodstock jail as soon as his condition will permit.

TOUCHED LIVE WIRE AND WAS KILLED

Henry N. Chaland, Aged 27, An Electrician, Was Killed At Lyndonville, Leaving Wife and Three Children.

Lyndonville, July 7.—Henry N. Chaland, 27, of this town was instantly killed yesterday when he came in contact with a live wire. He was employed by the Lyndonville Electric department and was engaged in putting a knob on a tree when his ungloved hand touched a live wire and he was electrocuted.

He is survived by his wife, three children and his parents, Mr. and Mrs. Cyril Chaland of Lyndonville.

BROKE EVERYTHING BREAKABLE AND SOILED EVERYTHING THAT COULD BE SOILED IN TWO HOUSES.

Proctorsville, July 7.—Two cases of wanton destruction of property have just come to light in this town. Ion Dwyer of Providence, R. I., and George Woodward are the victims of the maliciousness.

The vandalism in the Dwyer home was discovered recently, when the house was opened to put in readiness for the occupancy of the owner during the summer.

Every piece of furniture, it is claimed, had been damaged, the dishes broken, and all of the table and bed linen had been soiled.

An examination of the house shows that the person who committed the vandalism worked systematically to despoil the entire interior.

The Woodward house, which is near the Dwyer house on the Tarbellville road leading toward Weston, and which has been unoccupied during the winter past, was entered and the furniture and china despoiled, evidently by the same person who entered the Dwyer house.

Last fall the Fletcher house, in the same section of the town, was entered and similar depredations committed.

It is generally believed that the acts of vandalism were those of an insane person, but there is no clue to the identity of the one responsible for the damage in the three houses.

CAVENDISH STATION ROBBED.

Thief Got \$40 But Overlooked Package Containing \$58.

Cavendish, July 7.—Though the matter has been kept quiet it has been learned that the Rutland railroad station here was entered about noon last Friday and \$40 stolen from the money drawer. A package containing \$58 of money belonging to the express company, which was placed in a book nearby was evidently overlooked by the thief.

Station Agent D. Stimets discovered the break upon his return to the station after dinner and immediately notified Deputy Sheriff E. S. Lockwood of Proctorsville, who made an examination of the premises and sent out telegraphic instructions to have a watch kept on suspicious characters, who might be found on trains which had left Cavendish.

A stranger, about 23 years old, wearing a black cap and blue shirt, was noticed loitering about the station during the morning Friday, but he could not be found after the break was discovered.

The station was entered by forcing a railroad spike under a window.

CAUGHT TROUT WITH HANDS.

Afterwards Told About It and Got Arrested and Fined.

Rutland, July 7.—Carl Laird of Clarendon was fined \$35 and costs by City Judge F. G. Swinerton here yesterday for catching six trout by a method other than angling. He drew the water from a pool in Cold river and secured nine fish, which averaged a half pound each, with his hands. He was ignorant of the law, having told many people how he made the catch.

ST. JOHNSBURY SCHOOL HEAD.

Walter H. Young, Recently of Peekskill, N. Y., Selected.

St. Johnsbury, July 7.—The board of education has engaged Walter H. Young as superintendent of schools, to succeed Corwin F. Palmer, resigned. Mr. Young has been superintendent of schools in Peekskill, N. Y.

SMOKE DROVE GUESTS OUT

Thorndike Hotel in Rockland, Me., Visited by Fire

75 PEOPLE RUSHED INTO THE STREET

Fire Was Confined to the Store in the Lower Floor

Rockland, Me., July 7.—Seventy-five scantily clad guests made a hurried exit from the Thorndike hotel early this morning when the night clerk, Edgar Pinkham, discovered a fire in a store in the basement of the hotel block and aroused them. The fire, which is believed to have been of incendiary origin, was confined to the store with a loss estimated at \$5,000, but smoke filled the hotel. The guests escaped without injury.

MONTPELIER PLANS TO FIGHT RATE

City Council Causes Papers to Be Served on Barre & Montpelier Traction & Power Company.

Papers were served this morning by Deputy Sheriff Charles A. Smith of Montpelier in a bill of complaint and citation on the Barre & Montpelier Traction & Power Co. for a hearing to be held on Monday, July 13, at 1 o'clock relative to the proposed raising of rates in Montpelier from five to six cents. No restraining order was issued but a hearing on an injunction will be held. The papers were served in behalf of the city of Montpelier through City Attorney George L. Hunt.

According to the statement of the traction company, the proposed change in rate schedules was to go into effect Wednesday, July 8.

INGRAM CASE SETTLED.

Long Litigation Over Barre Estate Ended By Agreement.

Judge L. P. Slack, as chancellor, has set a hearing in the J. R. DeCollaines Granite Co.'s receivership case for next week Thursday at Montpelier.

Yesterday afternoon Judge Slack heard the petition for temporary alimony in the case of Elizabeth Clark Mutch vs. James Mutch, divorce being sought in a suit on the grounds of intolerable severity and refusal to support. The petitioner asked for a restraining order to prevent Mr. Mutch from selling or encumbering any real estate or personal property and she also sought for the custody of five minor children, ranging in age from 18 months to seven years.

In her petition Mrs. Mutch set up that her husband was earning \$20 a week, and she asked for enough to support her children and to pay for the costs of the court proceedings.

After hearing the case, Judge Slack granted the petitioner \$10 a week alimony. J. Ward Carver appeared for the petitioner.

An agreement of settlement was entered in the case of Jessie Law Ingram vs. Alice B. Paige, Mrs. John Cruickshank and Mrs. Anna Milne, now in Scotland, and also Clark E. Baldwin and William H. Harris, executor of the James Ingram estate, in accordance with the provisions of the orator's bill that the orator receive one-third of her husband's half interest in the quarry land. One-half interest in the land was valued at \$20,000. As soon as an agreement can be drawn up it will be signed by the chancellor. This settlement ends the Vermont proceedings in a well known case in which the widow and one daughter had been willed one dollar each. B. E. Bailey and F. L. Laird appeared for Mrs. Ingram and S. Hollister Jackson for the defendants.

A hearing was held on the report of J. Ward Carver as master in the suit of Fred Houston of Northfield against Emma Giffin, contribution for water supply, \$104 and interest, an alternative finding being reported by the master. Gates, White and Plumley appeared for the plaintiff, and J. H. Senter for the defendant.

TWO CASES IN MONTPELIER.

One First Offense and the Other a Subsequent.

In Montpelier city court to-day Frank Thomas, who was released from the county jail last Saturday and who returned yesterday from a trip to St. Albans, was arraigned for a subsequent offense of intoxication. He pleaded guilty and decided to go to the county jail again.

A man giving his name as R. C. Smith of Barre pleaded guilty to a first offense of intoxication and arranged to pay a fine of \$5 and costs. He was arrested on Elm street after being ordered of the State House grounds.

WILL BE TORTURED UNLESS RANSOMED

Wealthy Mexican Cotton Manufacturer Said To Be Held for 1,000,000 Pesos By Zapatistas.

New Bedford, Mass., July 7.—The aid of the state department, in obtaining the release of Juan Devalasco, a wealthy Mexican cotton manufacturer, who is reported to be held for ransom by a band of Zapatistas at Las Frailes, was invoked to-day by John E. Furness of this city, United States representative of the Velasco factories. Furness, in his message to Secretary Bryan, said that Velasco had been threatened with torture unless a ransom of 1,000,000 pesos is paid.

C. W. GATES A SPEAKER.

Vermont Road Commissioner at A. A. A. Meeting.

Maplewood, N. H., July 7.—The annual mid-summer meeting of the American Automobile association ended yesterday with a general discussion of good roads.

Addresses descriptive of good roads movements were delivered by ex-Congressman Samuel L. Powers of Boston, State Engineer S. Percy Hooker of New Hampshire and by State Highway Commissioner Charles W. Gates of Vermont.

Gov. Samuel D. Felker of New Hampshire, who welcomed the tourists in behalf of the state, described the interest which New Hampshire holds for the development of highways.

At the final business meeting resolutions were adopted in favor of a universal wheel license, against unjust discrimination against automobilists, and in favor of the regulation of individuals in their use of the highways.

It was voted to annul the contemplated tour to the San Francisco exposition and to devote the energies of the association to routing the principal national highways across the establishment of rendezvous for the members in San Francisco, Los Angeles and Seattle.

In his address Gov. Felker said three trunk lines have been constructed from the northern end of New Hampshire to the Massachusetts line and that various cross-state lines have been built on a state-aided basis. Only three towns demurred against paying their proportionate share, he said.

Ex-Congressman Powers, who is president of the Metropolitan Motor association in the Metropolitan district of Boston, described the condition of those roads as deplorable because of the tremendous amount of traffic to which they are subjected. But for the most part, he said, Massachusetts leads the Union in the attention it affords to its highways.

Commenting upon the policy of federal aid, Mr. Powers said that the national government probably will require the states to raise an amount at least equivalent to the amount appropriated by the nation.

State Engineer Hooker recommended the construction of low-cost roads, averaging \$4,000 a mile for the smaller states that have comparatively small valuations. He said that his experience as state commissioner of highways of New Hampshire made manifest to him that the roads which cost more than \$10,000 a mile are the roads that also cost the most to maintain.

Though New Hampshire has a valuation of but \$400,000,000 and has 17,000 miles of highways, the state has maintained its roads from the automobile licenses.

Mr. Gates described the development of highways in Vermont.

SEEK GIRL'S ASSAILANT.

Barre Police Have Been Working on the Case Three Days.

Barre police are looking for the perpetrator of one of the most revolting statutory assaults that has ever occurred under official notice. Nearly three days have elapsed since little Eva John, seven-year-old daughter of Mr. and Mrs. Amos John of 40 Prospect street, was lured to a grove at the west end of Hope cemetery and there assaulted. Hoping that a policy of silence might aid them in the search for the guilty one, the officers maintained silence about the affair until to-day. Efforts are still being made to identify the child's assailant, but thus far the attempts made to implicate certain persons have been unsuccessful because of the child's failure to recognize in any of the suspects the man who inveigled her into accompanying him to the burial ground in broad daylight.

According to the child's story she was walking along North Main street on the afternoon of July 4 when she was accosted by a man who offered her money to go with him to Hope cemetery. Innocently enough, she assented, and the pair were seen traveling along Brook street toward the graveyard. When allowed to go she ran home, and her parents, realizing her condition, summoned a physician. Policemen were notified at once and within a few hours a search was under way.

USED NEW REVOLVER.

Lewis H. Dodge of Braintree, Mass., Killed Himself.

Braintree, Mass., July 7.—Lewis H. Dodge, aged 54, shot and killed himself at 6 p. m. last night in an upper chamber of his home at 36 Shaw avenue, East Braintree. His wife, hearing the report, rushed upstairs and found him lying on the floor. By his side was a revolver with the safe key stuck in it.

Dodge had been in ill health for about two years and he had not worked for some time. He was a machinist and well known in this town. Despondency is thought to have been the cause of his act.

He went to Boston yesterday afternoon and is supposed to have bought the revolver there. He retired to his room immediately after returning home and the shot came soon after. Dr. F. H. Gile, who was summoned, said death was probably instantaneous.

ARRESTED IN VERMONT

And Will Be Arraigned in Claremont, N. H., Court.

Claremont, N. H., July 7.—The police located Aleck Soudnick in Springfield, Vt., at 3 o'clock yesterday morning and Chief Elmer Cole went after him.

According to Tony Walkovick, who is in the hospital badly lacerated about the head and face, and Mike Kerasmovite, also battered about the head, they were assaulted and robbed Sunday night on River street. They declare that Aleck Soudnick, with others, pounced upon them, Soudnick beating them with a piece of iron water pipe. They were deprived of their coats and vests and \$45 in money. Kerasmovite also lost his papers and other valuables, it is alleged.

John Soudnick, a brother of Aleck, was caught on his way to Claremont Junction yesterday. Warrants were issued for two others.

EDITOR GILPIN SELECTED.

For Vermont Board of Education to Take Place of Franklin S. Billings.

Barton, July 7.—Wallace H. Gilpin, editor of the Barton Monitor, has been appointed a member of the board of education to succeed Franklin S. Billings of Woodstock, resigned.

CITY CHARITY DEEDS TOLD

In Itemized Statement of Poor Department to City Council

DURING MONTH OF MAY \$886.83 WENT
