

FACTS AND FICTION

Experiences of Barre Citizens Are Easily Proven to Be Facts

The most superficial investigation will prove that the following statement from a resident of Barre is true. Read it and compare evidence from Barre people with testimony of strangers living so far away you cannot investigate the facts of the case. Many more citizens of Barre endorse Doan's Kidney Pills.

Mrs. M. Duthie, 58 South Main street, Barre, says: "We have used Doan's Kidney Pills in our family and from the benefit received I am pleased to recommend them. For years one of the household has taken Doan's Kidney Pills whenever she has had pains across the small of her back or in her side. They also cured her of bladder trouble and she has often remarked how excellent they are."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Duthie recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

RANDOLPH

A very pretty wedding took place at the home of Mr. and Mrs. H. H. Paige on Saturday, Sept. 26, at 11 o'clock in the forenoon, when the niece of Mrs. Paige, Miss Ruth Dutton of Kane, Pa., and Carl Hayes of New York were united in marriage by Rev. C. H. Dutton, the father of the bride, and Rev. Fraser Metzger of this place. The bride, being becomingly gowned in white silk with delicate lace trimmings, and the single ring service was used, the father reading the service and Rev. Metzger pronouncing the couple man and wife. Two bridesmaids attended the bride, one in pink and the other in blue, the ladies being former classmates in Middlebury college, while two other classmates officiated in the diningroom. Following the ceremony there was a wedding breakfast served by the aunt, Mrs. Paige, which consisted of six courses. The decorations were of autumn leaves, which made the house very attractive. Following the ceremony the couple left for New York, where the groom is engaged in business and where they will reside. The bride attended Middlebury college for two years, then went to New Orleans, where she has since been a teacher. The guests were all from out of town with the exception of Rev. and Mrs. Metzger, and were as follows: Mrs. F. P. Hayes, mother of the groom, of Brooklyn, N. Y.; Rev. Charles Dutton, father of the bride, of Kane, Pa.; Philip Dutton, a brother of the bride, of Hartford, Conn.; Mr. and Mrs. S. E. Drew, grandparents of the bride, who are both 80 years of age, of South Royalton; Mrs. Charles Southworth and Ida N. Ainsworth of South Royalton; Mabel K. Tooley of Stratford, Conn.; Grace E. PAIN IN THE BACK

Do not worry about a pain in your back. The worry will do you more harm than the pain. The serious disease of the kidneys seldom or never produces such pains while the cause of most back-ache is muscular rheumatism, which is painful but never fatal. Lumbago is a form of muscular rheumatism, so is stiff neck.

Sufferers from any form of muscular rheumatism affecting the joints, should keep the general health at the highest standard by the use of a non-alcoholic tonic like Dr. Williams' Pink Pills, and such good nourishing food without too much meat. Proper nutrition and good blood are the best means of fighting rheumatism. Medicines do not control the disease directly but a well nourished system will often throw it off. Rheumatism quickly thins the blood. Dr. Williams' Pink Pills act directly on the blood and as they build it up and strengthen the system there is an increased resistance to the rheumatic poisons. In this way many rheumatic sufferers have found complete recovery.

A book "Building Up the Blood" which tells about the treatment of rheumatism is free for the asking from the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

Counsel for Mrs. Carpan claimed that improper and insufficient evidence had been introduced to bring about the indictment. After the motion had been denied, George M. Levy of counsel for Mrs. Carpan said that the motion to dismiss the indictment which they had prepared would not now be moved.

Peace Sunday and the American Red Cross October 4, 1914. To all the Churches in the United States: Our president has, by proclamation, designated Sunday, October 4, as a day of prayer for peace. It has been suggested in many quarters that on this Sunday a collection be taken up in every church to relieve suffering in the war-ravaged countries of Europe. The Red Cross, which is charged with the special duty of aiding the sick and wounded in time of war, respectfully urges that opportunity be given in each church to every person who so desires to make a contribution to the American Red Cross, which is impartially aiding every country in a spirit of common humanity, and which recognizes no distinction of race or nationality. However, every contributor who desires to designate any particular fund or country to which his or her contributions shall be applied, may do so, and such request will be respected.

LOOPS LOOP OVER THE WHITE HOUSE

Lincoln Beachy's Performance Watched by President Wilson—Washington Enthralled.

Washington, D. C., Sept. 29.—Lincoln Beachy in an aeroplane looped the loop four times over the dome of the capitol yesterday, while President Wilson watched the performance from a White House window. The aviator then made such an abrupt landing on the lawns of the Potomac river near the Washington monument that observers in the tall wireless towers at the Arlington radio station reported he had fallen. Beachy then finished the performance by turning two loops over the White House and then more loops, flying over the business section of the city.

SERVIAN INFANTRY BRAVE But It Does Not Shoot as Well as It Might.

Rotterdam, Sept. 29.—An Austrian captain, wounded in the battle of Sjabatz, is quoted in the Bohemia, a newspaper published at Prague, in part as follows: "The Servian infantry is very brave, but does not shoot as well as it might. The only good snots the Servians have are the Komitadje irregulars, who, concealed in the foliage of bushes and trees make a specialty of shooting down the Austrian officers."

"The Servian artillery is excellent, accounted for in part by the circumstances that fighting in his own country it is fully familiar with the terrain. As a result their range is good, all the more so since they are given by the natives information which we cannot get, of course. Generally, the direction of advance of our army is given by the Servian peasants to their army by the lighting of great straw fires. In the sepulchre under the church in Sjabatz we found a telephone station with wires running to the various Servian headquarters."

"But the Servian soldiers are brave. Some of our tactics are peculiar. Now and then numbers of them permit themselves to be made prisoners of war for the mere purpose of supporting a plan of ambush. Cases, too, have been known in which prisoners of war made attacks on our men with hand grenades concealed by them. The confusion resulted from this has in many instances resulted in the escape of the prisoners."

"We have found that women fight us with rifles, while every child are employed to throw bombs. A 12-year-old girl who was shot through the legs and was taken into the hospital at Neuzatz, boasted of having thrown 16 bombs among Austro-Hungarian troops."

Burlington Schools Opened. Burlington's public schools began the week of the year on Monday, three weeks later than usual, the postponement being due to the prevalence of infantile paralysis.

The attendance yesterday, while large, was not up to the average. The grammar school, which is a good barometer of conditions in the lower schools, showed an enrollment of 307. Later in the term, perhaps before the week is out, this will be increased to 375 or more. No figures were given out at the high school but the number is said to be larger than a year ago, made possible by the addition of two grammar grades to the school instead of one as heretofore.

Parents are requested to keep their children at home unless they are in the best of health until later. Kindergarten classes will not meet at all for some time.

All pupils were inspected yesterday by Mrs. Howard, one of the medical inspectors, and her assistant.

The total enrollment in all the schools will not be complete for several days as additions are expected daily.

New Agricultural Specialist. The agricultural extension service of the University of Vermont has added a new specialist to its staff, in the person of Edwin L. Ingalls, for seven years superintendent of schools in Hartford, Mr. Ingalls will have direct charge of the boys' and girls' club work in the public schools of the state, giving his entire time to the work. He is a graduate of the university class of 1896, has been intimately connected with public school instruction in Vermont for nearly 20 years and brings to his new work an equipment of experience and sympathy which cannot fail to make him of great service. Through him the extension service of the state university hopes to interest every rural and village boy and girl in things agricultural, and to carry the benefits of state and federal legislation in behalf of extension work in agriculture and home economics to the generation which is coming to the front.

Italy Wants a Pretext All Ready for Hostilities at a Moment's Notice, It Is Declared.

London, Sept. 29.—According to information received here, Italy is prepared to take the field at a moment's notice. It is reported that the standing arms has been mobilized unostentatiously, giving her a striking force of approximately 450,000 men, while she has a reserve of 1,000,000 on which to draw. There is every indication that Italy is merely waiting for an overt act by Germany or Austria, such, for example, as a violation of Switzerland's neutrality. A possibly cruel usage of Italian citizens detained in Austria may culminate the explosion. At present, in spite of public opinion, the government hesitates to go to war merely for the purpose of taking advantage of Austria's weakness or for territory grabbing. A definite reason for

WOUNDS HEAL QUICKLY. And There Is Practical Absence of Blood Poisoning.

London, Sept. 29.—The rapidity with which the wounds of soldiers are healed, and the practical absence of blood poisoning cases, has been a surprise in view of the "deadly effectiveness" of the modern army weapons.

"The antiseptic treatment of wounds almost immediately after their infliction has a great deal to do with the fact that cures are effected in such a short time as has been demonstrated in the London hospitals," said one of the physicians in attendance upon the wounded British soldiers.

"While surgery has made wonderful strides in the last decade, the results might have been different were it not that the antiseptic preventive measures have been applied with the utmost efficiency.

"Another very important reason lies in the fact that the bullet fired from a modern rifle travels with such velocity as to obviate the danger of a ragged wound, and unless a vital organ lies in the path of it, the recovery presents no over-difficult problem."
