Acting on the petition of people living in that vicinity as well as manufacturers whose granite plants are located in the south end, the aldermanic fire committee has caused to be installed on Boynton street, not far from Barclay Bros' sheds, a new fire alarm box. The number 411 will be sounded when the box is turned for an alarm. Among the manufacturers nearby are Barclay Bros., Robin Bros., J. P. Corskie & Son, E. A. Bugbee & Co., and the Carswell-Wetmore Co.

An agitation in favor of a set of lights over the four dials on the town clock in the Universalist church tower, has caused the aldermanic property committee to consider ways and means for supplying the demand for better lighting facilities in the neighborhood of the clock. The matter was first brought to the attention of the committee by members of the Board of Trade, who suggested that the public clock would be better appreciated if people could tell the time o' night as well as the time of day. A complete renovation of the clock, which has included repainting and gilding, is now nearly completed and it is thought that lights will be placed on the four faces of the big timepiece before the stagings are taken down. The Consolidated Lighting Co. has offered to furnish electricity for the lights without cost to the city.

An agitation in favor of a set of lights over the four dials on the town clock in the Universalist church tower, has caused the aldermanic property committee to consider ways and means for supplying the demand for better lighting facilities in the neighborhood of the clock. The matter was first brought to the attention of the committee by members of the Board of Trade, who suggested that the public clock would be better appreciated if people could tell the time o' night as well as the time of day. A complete renovation of the clock, which has included repainting and gilding, is now nearly completed and it is thought that lights will be placed on the four faces of the big timepiece before the stagings are taken down. The Consolidated Lighting Co. has offered to furnish electricity for the lights without cost to the city.

Acting on the petition of people living in that vicinity as well as manufacturers whose granite plants are located in the south end, the aldermanic fire committee has caused to be installed on Boynton street, not far from Barclay Bros' sheds, a new fire alarm box. The number 411 will be sounded when the box is turned for an alarm. Among the manufacturers nearby are Barclay Bros., Robin Bros., J. P. Corskie & Son, E. A. Bugbee & Co., and the Carswell-Wetmore Co.
