CABOT

One of the most enjoyable occasions of the season was the reception on Saturday evening given to Mr. and Mrs. Leon M. Haines by the I. O. G. T. lodge, of which both are members. It has been a custom for many years to give such a reception to each member upon his or her marriage and has proved a very pleasant occasion to many of our young people. The bride and groom were met at the door by an escort of 12 young people, who preceded them, and on entering the hall found a dividing line through which they passed to an arch in front of the platform and passed under four beautiful white bells, while back of them and all through the large assembly room were festoons of wild vines and great masses of evergreens, locust blossoms, syringas, and maiden-hair ferns, arranged in many beautiful designs, forming a delight to the eye and filling the room with fragrance and beauty. In the receiving line were Franklin and Jessie Beaton, brother and sister of the bride. Miss Grace Morse presided at the piano in her gracious manner. After the congratulations, Rev. Morton W. Hale, pastor of the Congregational church, met them and in a few well-chosen words of congratulation presented them in behalf of the lodge, two very handsome willow chairs, as an expression of their friendship and esteem, to which the groom responded in his appreciative way. Miss Esther Wells gave a humorous reading in her inimitable manner. Refreshments of cake and ice cream were served to 100 guests. A very pretty trimmed bride's cake, made and presented by Mrs. Robert Mills, graced the table, around which were included the parents of both bride and groom, and which was served by the bride. There were present three of the charter members of the lodge, which was instituted over 50 years ago—Deacon Moses Haines, Mrs. Sue P. Hoyt and Mrs. George Gould. Mrs. M. S. Haines joined at the second meeting. Three generations of the Daniel Gould and Cornelius Smith families were present, as representatives of those who have been and are still among the lodge's most staunch supporters. Friends from Barre and Marshfield were also present. The entire color scheme of the evening was green and white and the decorations were under the supervision of Mrs. Annie McAllister and her sister, Mrs. Jennie Bruce, who were assisted by many of the older brothers, as well as the younger members of the order. It will serve as another pleasant milestone passed by all. One of Its Members.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist
As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyper-acidity irritates the delicate lining of the stomach and food fermentation causes wind, which distends the stomach abnormally, causing that full bloated feeling. The boys' and girls' acid fermentation interferes with and retards the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bi-saturated magnesia, which is double the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask the Barre Drug Co. or your druggist for the bi-saturated magnesia. I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.

PIMPLES RED AND DISFIGURING

Came on Face, Then on Arms, Itched So Would Scratch. Used Cuticura Soap and Ointment. In Three Weeks Healed.

68 Poplar St., Boston, Mass.—"My trouble began with pimples spreading on my arms. They were very red and they itched so that I began to scratch them and that caused eruptions. They first came on my face and they were so red and disfiguring and my face itched so at night that I would scratch them until I became bleeding. I would get to bed about nine o'clock and fall asleep about twelve. "I used remedies and creams but in the morning they would be worse. After about five or six weeks I saw the Cuticura advertisement in the paper. I used the Cuticura Soap and Ointment three weeks and I was completely healed. The trouble was gone." (Signed) J. Hammer, Oct. 16, 1914. "It is easy to claim to speedily heal itching skin troubles and to promote and maintain a good complexion, clear skin, clean scalp, good hair and soft white hands but quite another thing to do so. Cuticura has been successfully doing this work throughout the world for thirty-six years.
