

ENGLAND'S PART IN WAR

Premier Asquith Lays Bare to Commons Her Performance

SENT 1,000,000 MEN TO FRANCE

Hundreds of Thousands to Other Front—Great Submarine Work

London, Nov. 3.—In his address before the House of Commons yesterday afternoon, Premier Asquith stated that Field Marshal Sir John French, commander of the British forces on the Franco-Belgian front, was now in command of nearly 1,000,000 men. Mr. Asquith said the total casualties in France and Flanders amounted to 377,000. He asserted the Germans had not made a net gain of a foot of ground since April.

Reviewing the work of British submarines in the Turkish campaign, the premier said that in the Sea of Marmora they had sunk or damaged two battleships, five gunboats, one torpedo boat, eight transports and 197 supply ships.

The premier accepted his full share of responsibility for the first attack on the Dardanelles, which resulted in failure, with the loss of several capital ships. He said this attack was made after full investigation and consultation with naval experts, and that it was sanctioned by the government, notwithstanding some doubts in the mind of the government's principal naval advisers.

Mr. Asquith said there was full agreement between Great Britain and France to maintain the independence of Serbia and not let her "become the prey of the sinister and nefarious combination of Germany, Austria and Bulgaria."

The premier asserted the financial situation of Great Britain was serious, and that the nation must be prepared to make far greater sacrifices than it had yet done to enable it to sustain the burden imposed by the war.

Premier Asquith said he strongly believed the recruiting plan of the Earl of Derby would succeed and that compulsion would be unnecessary.

Premier Asquith prefaced his remarks concerning the war by saying his statement had been delayed by circumstances over which he had no control, but the delay had the advantage of enabling him to receive warnings and counsels from every quarter. He would disappoint many expectations, he continued, not the least the expectations of those who thought he ought to appear as a criminal or a penitent in a white sheet. However, he did not propose to adopt either attitude.

He intended to describe as far as possible the actual prospective position to the nation, which "is as determined to-day as it has ever been to prosecute the war to a successful conclusion, and which trusts the government, by whomsoever controlled, to use every means to the attainment of that purpose."

He continued: "It is true that to-day some parts of the horizon are overcast. This, like other wars, has been fruitful of surprises and disappointments. The moment calls for three things: A proper sense of perspective, a limitless stock of patience, and overflowing reservoirs of courage, both active and passive."

Mr. Asquith referred to the "small scorie of professional whippersnappers which kept our enemies supplied daily with a diet of falsehoods." The government, he said, had no interest in concealing anything, subject to the one overriding consideration that its disclosures would not assist Great Britain's enemies.

"How do we stand to-day?" asked the premier. "In August of last year we were prepared to send abroad six infantry and two cavalry divisions. In the operations described by Field Marshal French in his last dispatch he had under his command not far short of a million men. To these must be added the troops at the Dardanelles, in Egypt and in other theaters of war, as well as our garrisons and troops in reserve."

The announcement was made by Premier Asquith that former Premier Ven-

WHEN LIVER IS TORPID

or sluggish all the other vital organs of your body are affected—you have stomach and bowel troubles, your head aches, your skin loses its clearness and you have "the blues." Take Hood's Pills—gentle and thorough. Do not irritate nor gripe. Price 25c, of all druggists or C. I. Hood Co., Lowell, Mass.

COLD GONE! HEAD AND NOSE CLEAR

First Dose of "Pape's Cold Compound" Relieves All Grippes Misery

Don't stay stuffed up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold, either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known, and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Adv.

FELONS WIN PARDON FOR BRAVING DISEASE

Governor Brewer of Mississippi Frees the Men Who Stood Tests of Pellagra.

Jackson, Miss., Nov. 3.—Dr. Joseph Goldberger of the public health service, Washington, has reported to Gov. Brewer that his hunt for the cause of pellagra, a disease that killed over 11,000 Mississippians last year, has been successful. Six of eleven prisoners submitting to tests have developed the disease. The experiment began Feb. 15 last.

Dr. Goldberger has found that pellagra is caused by unbalanced diet and insufficient nourishment, and that the cure is in the opposite diet.

Four local physicians diagnosed six positive cases with two probable out of eleven subjects. The men have been pardoned, but will remain on the prison farm to receive a course of treatment consisting of a strengthening diet, such as eggs, milk, lean meat, vegetables, etc.

Local physicians claim this is the greatest discovery made by the medical profession in years.

"ALL PULL TOGETHER."

That Is Shevlin's Advice to Yale Football Generals.

Chicago, Nov. 3.—"All pull together and pull quick," is the advice Thomas L. Shevlin, captain of the Yale eleven in 1905, will give to the Yale squad when he arrived in New Haven to aid in whipping the team into shape.

Shevlin, who was summoned from Minneapolis, reached New Haven late yesterday. He left Chicago Monday night.

"I am going to New Haven to be of what assistance I can," Shevlin said. "I don't know what the matter there, but I do know that we'll have to get ready to defeat Harvard and Princeton. We've all got to pull together and do it mighty quick."

Twice before since his undergraduate leadership of Yale, Shevlin has been called to assume charge of the coaching.

KING GEORGE BACK HOME.

Shows No Serious Effects From His Fall From Horse.

London, Nov. 3.—King George, who was injured by a fall from his horse last Thursday while reviewing the troops in France, returned to London Monday afternoon. He was much fatigued by his journey, but it was stated that his condition was satisfactory.

Earlier in the day the following statement was issued by the king's physicians: "Improvement in the condition of the king continues. His Majesty had a better night."

Sir Anthony Bowlby and Sir Bertrand Dawson, physicians to the king, accompanied him on the journey. Sir Frederick Treves, another of his physicians, met him at the station.

Although the king's return was unforeseen and unexpected, the clearing and closing of the greater part of Victoria station and the main exit attracted a crowd. The king walked almost unaided from the train to his automobile. He looked well and it was stated that without doubt the sea trip had benefited him.

The press association sent out this dispatch: "With respect to various rumors which are current regarding the nature and extent of the king's accident, the association learns authoritatively that the bulletins have fully, frankly and quite truly stated the position, concealing nothing. His Majesty received a very severe shock and was badly bruised, but no bones were broken and he received no injury at all likely to be of a permanent character. His Majesty is making good progress and there is every expectation of a reasonably early and complete recovery."

HE COMES HOME.

William Sprague Returns to Native Land in Death.

New York, Nov. 3.—The body of William Sprague, a former governor of Rhode Island, who died in Paris Sept. 11, arrived here yesterday on the steamer *Rockaway*. Accompanying the body were Mrs. Sprague, the widow, and her grand-daughter, Mrs. Jane Sprague-Steele.

Col. Michael J. Lynch, military aide to Governor Rockman of Rhode Island, J. Henry Butler, executive secretary, and A. Stanley Hart met the body at quarantine and will have charge of the transportation to Providence, where the military funeral will take place Friday.

Willie—How, what is diphtheria? Two—Diphtheria is a very contagious disease which you must be clean and up, my son.—*Charleston Register*.

COTTON BREAKS \$3 A BALE ON NEW ORLEANS MARKET

Heavy Selling Wave; Decline Influenced by Good Weather and Expected Optimistic Report.

New Orleans, Nov. 3.—Cotton broke \$3 a bale on the New Orleans market yesterday in the first half of the session. It was one of the heaviest selling waves of the season. The decline was influenced by good weather over the belt and the report that a local authority was coming out with a crop estimate of 13,000,000 bales. Large stop loss orders were uncovered at 11.50 for December. Toward the end trading months were 59 to 64 points under last week's close.

LIVESTOCK VALUES LOW.

Heavy Run of Cattle in the West Affects Brighton Market Prices.

Brighton, Nov. 3.—Owing to a heavy run of cattle in the West, the dressed beef situation at Brighton stockyards yesterday morning was easy, and values

GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

Hair Stops Falling Out and Gets Thick, Wavy, Strong and Beautiful.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandereine hair cleanse." Just try this—moisten a cloth with a little Dandereine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil, and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandereine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use, when you will actually see new hair—fine and downy at first—yet really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25-cent bottle of Knowlton's Dandereine from any druggist or toilet counter, and just try it.—Adv.

Better Than Gold Dollars at Fifty Cents

Have your Furs remodeled and repaired now while the season is young. Later we will be rushed to the limit.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat if You Feel Backache or Have Bladder Trouble

Meat forms uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste, get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless, and makes a delightful, effervescent, lithia-water drink, which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

of livestock ruled low. Arrivals were not particularly heavy, but the demand was moderate. Hogs were again lower, but calves and lambs were steadily held.

Beef cattle were in better supply and 8c was about the top for anything offered, though shippers were trying to get more. Tops were sold at 7 1/2@8c, with good cattle at 7@7 1/2c and light cattle at 6@6 1/2c.

Six cents was about the top for even fancy cows and heifers, the range for tops being 5@6c with good cows at 4 1/2@5 1/2c, ordinary cows at 3 1/2@4c, and canners at 3@3 1/2c.

Bulls were also easier, 5 1/2c being about the top though an occasional animal was held at 6c. Ordinary bulls were held at 4 1/2@5c, with bolognas at 4@4 1/2c.

Calves were fairly steady, fancy selling as high as 10c. Good lots were rather scarce and were firmly held at 9@9 1/2c, with fair lots at 7@8c and grassers and drinkers at 5@6c.

The supply of sheep and lambs was small and prices were steady at 7@8c for lambs and 4@6c for sheep.

Hogs were 1/2c lower for dressed, best lots of live hogs selling at 7 1/2@8c, with rough lots at 7 1/4@7 1/2c, and boars at 4c. Conditions are again normal at the Brighton stockyards, except that nothing can be shipped or received from the five-mile radius in Worcester county, where the latest outbreak of the foot-and-mouth disease was discovered. Both Watertown and Brighton yards are open for business and fair strings of milch cows are noted in the Brighton cow barns, but trade was not active. Values took a wide range as to quality, running from 83@85 for ordinary cows, to \$100 and upward for fancy milkers.

LIGHTNING BROKE UP HOUSEKEEPING

Played Strange Performances in House in West Brattleboro, But There Were No Persons in the House at the Time.

Brattleboro, Nov. 3.—Lightning played strange pranks in cavorting through the house of George B. Liscom on the Bonnyvale road in West Brattleboro at 8:30 o'clock yesterday morning and did damage estimated at over \$500. The clock in the kitchen stopped at 8:51 which fixes the time when the bolt, the first of the thunder storm yesterday morning, struck. No fire resulted.

Apparently the lightning hit an elm tree in the yard, jumped over the telephone wire to the piazza roof and removed a section of that, going thence into the house, where it shot around three rooms. Mr. Liscom was working for Silas Holbrook in West Brattleboro and his daughter, Miss Alice Liscom, was at her employment in the Holstein-Friesian office.

Arthur Miller, who was driving past the house, saw the damage. Fearing that someone might have been in the building and injured, he forced an entrance and then reported to Mr. Liscom.

Twenty windows were damaged, and in some instances an entire window and sash were removed. The telephone wire vanished entirely and the water pipes in the house were all leaking. In one of the rooms were several pieces of furniture and these were hurled into a motley pile in the middle of the room with the register from the floor on top and the door to the room leaning against the pile.

In the dining room the curved glass doors of a china closet were opened without breaking the glass, but every pane of china in the closet was smashed. One entire pane of glass was removed whole and was lying on the grass outside unbroken. Pictures were yanked off the walls and plastering ripped off in three rooms, while clapboards at the rear of the house were either torn off entirely or broken and started from their fastenings.

Apparently the same bolt entered the next house, owned by Mrs. Etta F. Alkey and occupied by William H. Eddy. This also followed the telephone wire, but did only a little damage, which was confined to one room.

The storm broke under peculiar conditions. While the sun was shining brightly in the southwest the thunder was rolling in the northwest, which was black with clouds. The low clouds soon covered the whole canopy, making it so dark that in many business places the electric lights were turned on. The storm was seen of less duration, but much rain fell in the brief period, accompanied by small hailstones. About 20 local telephone lines were put out of commission, affecting from 90 to 100 instruments. Repair men began at once the work of restoring the service.

Marriage vs. Traveling

"I wish I had money enough to get married," he remarked.

She looked down and blushed. "And what would you do?" she asked, looking very hard at the carpet.

"I would spend it traveling," he replied.

KAISER SEEKS POPE'S AID

Buelow and Vatican Delegate Now Collaborating

IN TENTATIVE PEACE PROPOSALS

For the Pontiff to Submit to the Entente Powers

London, Nov. 3.—Prince von Buelow, reported to have been sent to Switzerland by the German government to initiate peace negotiations, will remain at Lucerne three or four weeks, says the Bernese correspondent of the Bologna Resto Del Carlino, to collaborate with Monsignor Marchetti, papal delegate to Switzerland, in drawing up peace proposals which Pope Benedict could submit to the entente powers. The Resto Del Carlino asserts the pontiff himself now is engaged in combining the most promising features of various projects for mediation which hitherto have been suggested into one precise and definite plan. The paper reviews the report that the pope will seek to induce President Wilson to act simultaneously with him in intervention in behalf of peace.

The Swiss press is commenting extensively on the visit of Prince von Buelow to Switzerland. Although it is stated that the prince has come to Switzerland merely for a holiday, the Basel Nachrichten asserts that he is accompanied by two officials of the German foreign office. It is known here that Prince von Buelow will shortly meet Monsignor Marchetti, papal delegate to Switzerland. Geneva newspapers state that the movement in favor of peace negotiations has been carried to such a point that the meeting place of the proposed peace conference is now under discussion. They say this congress will be held in Switzerland, and that the central powers favor Bern and the quadruple entente Geneva. Consequently, the press argues, the presence of Prince von Buelow in Switzerland seems to have a political object.

The Rome correspondent of the Daily News, attributing his information to a "trustworthy" source, telegraphs: "The pope is determined not to support any initiative towards peace obviously inspired by the Austro-Germans unless assured there is a possibility that the allies are favorable to a consideration of proposals. Switzerland also is determined to abstain from any peace negotiations which are foredoomed to failure."

CANT DIVORCE SOLDIERS NOW.

British Wives Must Wait Until Men Return From Front.

London, Nov. 3.—Wives who seek divorce from officers and men at the front will have to wait until the men return to Great Britain before action will be taken on their petitions. The ruling was made by Justice Sir Henry Baggave Deane when asked for permission to

Wear Clothes That Fit Your Calling!

Moore & Owens BARRE'S LEADING CLOTHIERS BARRE, VERMONT

serve a divorce petition on an officer on the fighting line. "It is not in the interests of the nation," said the court, "for men to have their minds diverted from their duties by such matters."

He Likes This Smoke

"On duty," New England's fire-lads put out all kinds of fires. But "off duty," there's one they always like to start—the glowing coals of Mayo's Cut Plug in the bowls of their favorite pipes. Mayo's gives them the relaxation they need and keeps them happy and content.

Generations of New England smokers have found day-long, year-round, wonderful enjoyment in Mayo's Cut Plug. This famous old brand has a wonderful record because it's a wonderfully good tobacco.

Mayo's Cut Plug

Mayo's is pure, mild Burley leaf, aged and blended to delightful richness, mellowness and sweetness. Then made into Cut Plug so the fragrance goes all through it and it burns evenly, giving you a cool, satisfying smoke.

Your taste never tires of Mayo's. You smoke pipeful after pipeful through the day, and next day you go to it with the same thorough pleasure and satisfaction. And you find Mayo's "always good"—in 40 years Mayo's quality has never varied. Sold everywhere in handy 10c pouches.

THE AMERICAN TOBACCO COMPANY

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; to sour bile to coat your tongue and sicken your breath or dull your head; or constipation, bilious attacks, sick headache, colic, inflammation or peasy, acid stomach, you must bathe the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowels do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of Epsom's phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of Epsom's phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphate hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel, like you felt before your blood, nerves and muscles become saturated with an accumulation of body poisons, begin this treatment, and above all, keep it up! As you and last water set on the skin, loosening, exfoliating and purifying as Epsom's phosphate and hot water before breakfast set on the stomach, bowels, kidneys and bowels.—Adv.
