Limestone Sweetens the Soil.
Farm and Fireside says:
"Fipely ground raw limestone is quite as good for use in sweetening the land as burned lime; but the amount used should be twice as great. It sweetens the soil without burning it."

HAIR AND SCALP NEED DAILY CARE

Beautiful Hair is WITHIN the Reach of All
If you value the appearance of your hair, you should treat your scalp as often and well as you brush your teeth, and rub into the scalp pores twice daily a little Parisian Sage. This treatment is not a mere "hair tonic." It is bottled nourishment for the hair roots, and it is simply wonderful what an improvement its use for even a week will make in the appearance of anyone's hair. It never injures, is delightfully cool and pleasant to the scalp, and takes out the dull, lifeless look in the hair, making it soft, fluffy, glossy and beautiful. Two or three applications remove every trace of dandruff, and daily use will prevent its return. The Red Cross Pharmacy and the leading druggists everywhere can furnish you with Parisian Sage—it costs but a trifle.—Adv.

Is Pellagra a Poverty Disease?

"A prominent and wealthy man recently died at Lynchburg, Virginia, of pellagra. This disease in Europe has been pronounced a poverty disease," comments Farm and Fireside, published in Springfield, Ohio, "and in Italy has been called the 'hunger madness.' United States health physicians still think it is a disease of bad nutrition. It is hard to reconcile these views with cases involving people whose diet may be as-

sumed to contain milk, eggs, lean meat, and all those dietary elements which are supposed to prevent it."
