Globe Safes

are roomy, portable, orderly, secure, convenient, sightly. The great convenience of a Globe Safe to the busy man who hurriedly places important papers, documents, records, books, etc., into it for protection against fire and prying eyes, before leaving his office, entirely overshadows the comparatively small cost for safe and sections. Catalogues upon request. Agents for Barre.

After a lapse of several days, due to the desire of the owners to make needed repairs on the surface and in the quarry pits, the J. K. Pirie quarries in Graniteville and Williamstown were opened for business this morning with a large gang of men employed. Snow has handicapped the quarrymen in their work this winter and considerable time has been lost as a result. While machinists were busy tinkering derricks and other apparatus, a detail of men worked several days to get the quarries into working condition. Business at the Pirie deposits promises to start off with a boom and the demand for the Pirie stock here in the city and in other centers is larger than usual.
The opening game of the Spaulding high school basketball schedule for 1916 is to be played to-night in the armory hall in Montpelier with Montpelier seminary. The Spaulding team has been practicing every day since the opening of the winter term and, with the knowledge of the game acquired from the class games played before the vacation, should give a good account of itself. Spaulding has been unfortunate in losing three of her best men through different reasons and as a result will put a team of untried men on the floor to-night. The probable line-up will be as follows: Nichols, center; Mann and Densmore, forwards; Rogers and Cole, guards. Friday night Spaulding plays Hardwick at the gymnasium in the Spaulding annex.

Wanda, the Woman of Mystery.
The name of Madame Wanda is on the lips of everyone who has attended her exhibitions at the opera house. How does she do it, is the question everyone is asking. Her mental telepathy is marvellous. Her reading of thought is even more so. Madame Wanda herself has no explanation of this mysterious faculty. It just comes to her and it opens up the possibility of "wireless" thought transference, being one of the developments of the 20th century. Truly the hidden mysteries and agents of the human family are being unfolded to us one by one. Go and see Wanda and be convinced of this lady's wonderful psychic power.
In connection with the madame, a program of high-class feature films will be shown.
Wanda's engagement is for the entire week.—adv.
