

### LABOR FOR PREPAREDNESS

Samuel Gompers Addresses the National Civic Federation

BUT DEFENSE MUST BE DEMOCRATIC

Labor Never Opposed the Agencies of Justice, He Declares

Washington, D. C., Jan. 19.—Adequate preparedness for national defense was advocated here yesterday by Samuel Gompers, president of the American Federation of Labor, in a speech before a session of the annual convention of the National Civic Federation devoted to that subject.

While he insisted that military organization must be democratic and the nation must be safeguarded against the evils of militarism, Mr. Gompers declared that pacifists failed to understand that quality of the human race which made men willing to risk their all for an ideal.

"There is little progress made in the affairs of the world in which resistance of others is not involved," he said. "Through we may realize the brutality of war, though we may know the value of life, yet we know equally well what would be the effects upon the lives and the minds of men who would lose their rights who would accept denial of justice, rather than hazard their physical safety."

"The progress of all ages has come as the result of protests against wrongs and existing conditions and through assertion of rights and effective demands for justice. Our own freedom and Republican form of government have been achieved by resistance to tyranny and insistence upon rights. Freedom and democracy dare not be synonymous with weakness."

"Preparedness and defense are practically the reverse and obverse sides of the same problem. There are two lines of approach to this problem—one indirect, involving consideration of the development, health and conservation of the citizens, and the other direct, involving the weapons of defense and specific plans for the use of power."

"National preparedness involves power to co-ordinate and to utilize national forces and national resources. War as it is waged yesterday is not determined merely by the men on the battlefield, but also by the mobilization of the national resources, national industries and commerce. The real problem is the organization of the material forces and resources of the country, the co-ordination of these in the furtherance of a definite defensive military policy."

"Whatever plan may be adopted," said Mr. Gompers, explaining the attitude of labor, "the organized labor movement of America demands that certain fundamental principles must be regarded. All policies and plans for national defense must be determined by representatives of the people. The organized labor movement, which is the only means for expressing the will and the desires of the great masses of our citizenship, asserts its right to representation in all committees, commissions, or bodies that decide upon military defense."

"The labor movement holds that policies and methods of self defense are best safeguarded when there is equal opportunity for all to become members of whatever organization and institutions, whether military or otherwise, exist throughout the country. Not only must entrance to all institutions be freely and equally accorded to all, but the military must be democratically organized, democratically officered, and under the control of heads who are responsible to the citizens of the land."

"The labor movement has never advocated the abolition of agencies for the enforcement of right and justice for the government, but it does demand that these shall be so organized as to prevent their misuse and abuse as a means of tyranny against the workers, and to prevent the development of pernicious results that have grown out of militarism, the building up of a separate military caste and the subversion of civic life to military government and military standards."

### RUBBER SHIPMENT SEIZED BY BRITAIN

Sheeting Weighing 1,375 Pounds Was Removed from the Federik VIII.

London, Jan. 19.—One hundred and twenty-five parcel post packages containing sheet rubber, weighing an aggregate of 1,375 pounds consigned to Rothemburg, were taken from the Danish liner Frederik VIII. at Kirkwall. The Frederik VIII. sailed from New York Dec. 17, sailing from there in time to reach Copenhagen on Dec. 22. Fourteen related members of the Ford peace party were on board her on this trip. She is not due to leave Copenhagen again until early next month.

### THE SENATE STOPS LIPPITT

He Offers Huerta Eulogy Attacking President Wilson

UTTERLY IMPROPER, SAYS SENATOR STONE

Borah Urges an Intervention Vote—Is Ruled Out of Order

Washington, D. C., Jan. 19.—The Mexican question came up in the Senate again yesterday when Senator Lippitt, Republican, had the clerk read an editorial attacking President Wilson and eulogizing the late General Huerta.

The reading had not proceeded far when Senator Myers, Democrat, interrupted it. "I object to further reading of this editorial," he declared.

"I think that it is entirely improper for the Senate to put itself in a position for criticizing the president of the United States in eulogy of a man characterized as a cut throat and a usurper."

"The senator is entirely right," declared Chairman Stone of the foreign relations committee. "I shall object."

By viva voce vote, further reading of the editorial was denied. Senator Lewis, Democrat, then asked that his resolution which would direct the president to send armed forces to Mexico to cooperate with Carranza's troops in maintaining order, be referred to the foreign relations committee.

"I would suggest," said Senator Borah, Republican, "that we act on the resolution now. I am ready to dispose of it at once. The Senate ought to take a decisive step this morning, notifying the de facto government in Mexico that we are ready to use the armed forces of the United States to protect our people."

Vice President Marshall ruled the discussion out of order. Senator Lippitt and Senator Stone had a lively argument following the introduction by the former of a resolution directing the president to employ the armed forces of the United States to protect Americans in Mexico. Mr. Lippitt was caustic in his criticism of the administration's policy and Mr. Stone equally warm in his defense of a course that will avoid war.

### GERMAN SPY ESCAPES AUTHORITIES IN NEW YORK

Lincoln, Held on Charge of Forgery in England, Breaks Away from Federal Officer.

New York, Jan. 19.—Ignatius T. Lincoln, a former member of the British Parliament and a self-confessed German spy, and who was being held here pending his extradition to England on forgery charges, escaped from a deputy marshal Saturday while being taken from the Raymond street jail to the federal building in Brooklyn.

The United States marshal here has notified the secret service and a nationwide search has been ordered. It is thought in some quarters that Lincoln boarded an outgoing steamer shortly after his escape. Lincoln, who has been held in Raymond street jail, Brooklyn, since last August, has been allowed numerous privileges, it was said, at the jail. The prisoner was writing a book dealing with international espionage systems, and he was in the habit of going to the Brooklyn federal building to work on this two or three times a week. He was always accompanied by a deputy marshal.

Gergynan, member of Parliament, self-confessed spy, and, it is alleged, criminal—those are a few of the stages in the amazing career of Ignatius Timotheus Trebitsch Lincoln. His real name is Isaac Trebitsch, and he was born of Jewish parents at Paks, in Hungary, about 36 years ago. In 1896 he arrived in England, flying from the police of his native land, who are said to have wanted him for theft. Soon after his arrival in America, early last year, he contributed to the New York World magazine his confessions, which went to show that during the present war he secured a post in the censor's office, and afterwards became a spy in the interests of Germany.

After complaining that while acting as censor of Hungarian correspondence at Mount Pleasant postoffice he was subjected to many insults, he continues: "I resigned as a censor. I now determined to leave England, but before so doing I felt compelled by an irresistible force, born of disgust and thirst for revenge, to hit back in some form or other. I had occasionally obtained information of great importance. I knew, for instance, of the first raid on the Right of Heligoland two days in advance—and so did the Germans." Afterwards he attempted to get into a secret service department at the war office. He continues:

"My aim really was to lure part of the British fleet into a certain quarter of the North sea on a certain day, and to have the German fleet within easy steaming distance. In order to procure this I proposed just the reverse to Captain Kenay, and laid before him a carefully prepared scheme, the ostensible purpose of which was to destroy part of the German navy."

Lincoln was arrested at New York on Aug. 5 of last year.

Cattle in the United States. Washington, D. C., Jan. 19.—The department of agriculture's annual estimate of the cattle in the country Jan. 1, issued yesterday, shows 21,988,000 milk cows, and increase of 3.4 per cent over 1915, 39,432,000 other cattle, an increase of 6.4 per cent; 49,162,000 sheep, a decrease of 1.8 per cent, and 28,047,000 swine, an increase of 0.2 per cent.

### Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vacuous—a good clear skurt a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

### HUNDREDS OF BULGARIANS KILLED IN AIR RAID

Twenty-Five French Planes Said to Have Attacked Military Camp at Petrits.

London, Jan. 19.—Hundreds of Bulgarian soldiers were killed and a very large number wounded in a bombardment of Petrits, by a squadron of 25 French aeroplanes, according to dispatches received in Athens and forwarded by the correspondent there of the Evening Standard.

### HOW TO PROLONG LIFE

By adopting a simple diet, men like Couaro have lived to be 100 years of age, but with our complex diets of to-day, the vitality of the aged is taxed to its utmost endurance. A simple diet, therefore, is conducive to a long life, and if the vitality becomes impaired and weakness seems apparent, our local druggist, Floyd G. Russell, proprietor of the Red Cross Pharmacy, has in Vinol a reliable, non-secret remedy, which contains just the elements needed to restore strength to weak, feeble, old people, and prolong a healthy, happy life.—Adv.

### IN BOSTON MARKETS.

Cold Weather Lessens Egg Supply—Price No Higher Yet.

Boston, Jan. 19.—The arctic weather of the past few days is responsible for a marked falling off in the local receipts of eggs and the market is decidedly firmer in consequence, though as yet storage offerings are the only grade that has advanced in price. The scarcity of fresh western eggs makes for a good demand for storage eggs. It will probably be a week or 10 days before western consignments recover from the present cold wave and higher prices are likely. The butter market does not show much life and outside of fine fresh stock, receipts of which are light, sellers have no more to say about prices than buyers. The cheese market continues firm; local holdings are concentrated in a few strong hands and are not being pressed for sale with the English markets on a high level and the likelihood of good-sized exports between now and the spring.

### SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Thickness

Hair that loses its color and luster, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of sage tea and sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and luster and gives it an appearance of abundance.—Adv.

### HOG PRICES ADVANCED.

Beef Cattle Easier at Brighton Stockyards—Lambs Continue Scarce.

Brighton, Jan. 19.—Hogs were advanced in price at the Brighton stockyards yesterday morning, but beef cattle showed an easier tendency. Lambs continue scarce and high.

Beef cattle were distinctly easier, no sales being noted at over 8 cents. The range for tops was 7 and 8 cents and light cattle at 5 and 6 cents.

Six cents was about the top for best cows, though occasionally a fancy heifer brought a little more money. Tops are quotable at 5 1/2 to 6 cents with good cows at 4 1/2 to 5 cents, ordinary cows at 3 1/2 to 4 1/2 cents, and canners at 3 to 3 1/2 cents.

Average beef bulls sold at 5 to 5 1/2 cents, though occasionally a fancy animal brought as high as 6 cents, or a little better. Bologna bulls at 4 to 4 1/2 cents. Calves held up well in price, good lots bringing 8 to 10 cents, with fancy a little higher. Fair lots sold at 7 to 8 cents, with grassers and drinkers at 5 to 7 cents. Hogs were advanced in price, in sympathy with the market for dressed hogs. The western run continued heavy, but a good local demand has led to higher prices. Brighton receipts are small. Quotations on the best lots at Brighton yesterday morning were 7 to 7 1/2 cents, with rough lots at 6 1/2 to 6 3/4 cents and boars at 3 1/2 to 4 cents. Lambs are still scarce, especially for anything choice. Best lambs sold yesterday morning at 8 to 10 cents, with
