WHISKEY? NO—NOT FOR RHEUMATICS

Don't drink whiskey if you have rheumatism, and be sure and keep your feet warm and dry, and drink plenty of lemonade.

This advice, says an authority, is helping; but as all know who have suffered, rheumatism is a stubborn disease and yields only to a remedy mighty enough to conquer it.

Many doctors have prescribed and hundreds of helpful druggists have advised a half teaspoonful of Rheuma once a day, because they know that powerful Rheuma, harmless as it is, acts with speed and overcomes in a few days the most torturing case of rheumatism or sciatica.

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

There were 385 visitors at the St. Albans rest room during February.

Mrs. Lizzie White, for 23 years register of probate for the Lamoille district, finished work in that position Feb. 29.

The Morrisville schools are to observe the 125th anniversary of the admittance of the state of Vermont into the Union.

United in life, Mr. and Mrs. Jonathan C. Emerson of Bristol are now united in death. Mr. Edwards, aged 84, died Feb. 29 at his home on Bristol flat, and next morning Mrs. Emerson, aged 82, died. Both succumbed to pneumonia.

Roscoe N. Lowell, who was badly injured by a load of lumber falling through a bridge between Waterford and East Barre station 14 weeks ago, died at Brightlook hospital in St. Johnsbury last Friday, after much suffering. His home was in Sutton.

Miss Clara Bennett, an Orleans girl who is taking the nurses' course in the Battle Creek sanitarium, injured her arm very seriously while out on skin with some other nurses. Her arm was badly fractured and may result in a serious condition.

For 47 years, which ended with the present week, H. A. Blake has been the Sutton correspondent of the St. Johnsbury Caledonian. During that time the residents of the town have undergone a complete change, very few now living there who were when he began work for the paper.

Oliver Ward, who was found lying in the snow in Pittsford Monday night, with hands and feet frozen solid, is in a serious condition at the Proctor hospital. His hands will have to be amputated and probably his feet. A bottle said to have contained alcohol was found lying beside him.

Woodman's hall in South Hero village was burned to the ground Thursday. The fire started from an overheated stove and was difficult to fight, with no fire apparatus and no water. At one time nearby buildings were in danger. The building was insured for \$2500, which will help defray the loss, although it was worth much more. The extension school was holding meetings in the building.

WOMAN PLEADED FOR FREEDOM.

But Court Said "No" and Sent Her to State Prison.

Burlington, March 3.—Mrs. Josephine Young, the woman who had been on probation for several weeks and who violated the terms of her parole was brought into city court yesterday. She will serve an original sentence of not less than ten nor more than 12 months at the state prison at Windsor upon her plea of guilty to adultery.

A pathetic scene was enacted this morning as she appeared before Judge Par and sought to tell her story. "If I had only known," she said, "if I had only known. Please judge let me off this once, I promise I'll be a different woman. Really, I will. My poor children. If I had been sent to jail in the first place, I never would have gone so far."

But the court had no alternative in the matter and Mrs. Young will serve her sentence and her children will be cared for by the city.

A COLD MONTH.

Official Figures Bear Out General Impression About February.

Depleted coal bins first furnished evidence of the correctness of the general opinion that February was an unusually cold month and now comes further proof in the meteorological summary for the 29 days, furnished by Local Forecaster J. K. Hooper of the United States weather bureau at Burlington. The mean temperature was 15 degrees, which is three degrees below the average February temperature for the last 33 years and in marked contrast to the mean temperature of 24 degrees during February of 1915. The highest during the month was 47 degrees, on the 1st, and the lowest was 15 degrees below zero, on the 14th. The greatest daily range was 26 degrees, on the 24th, and the least daily range was five degrees, on the 2d. The precipitation (rain and melted snow) amounted to 2.33 inches, the normal precipitation for the month being 1.42 inches. The prevailing wind was from the south, the total movement 8,188 miles, the average hourly velocity 11.8 miles, and the maximum velocity 42 miles per hour, from the northwest, on the 7th. The month was made up of four clear, 12 partly cloudy and 13 cloudy days. Precipitation in quantity sufficient to measure occurred on 18 days and the total amount included 17 inches of snow. Solar halos were noted on the 5th, 11th, 12th and 20th, a lunar halo on the 14th, fog on the 24th and 25th and sleet on the 29th.

BOTH CLAMOR FOR "DOPE."

Man and Woman Suffer Agony in Burlington Jail.

Burlington, March 3.—Sheriff Allen is having no easy time with Edward and Florence Walsh, alias Leban and several other names, who were arrested at Winooski Tuesday on the charge of obtaining morphine contrary to law.

No disposition has been made of their cases by the government. Meanwhile they are being cared for by the sheriff in the best way possible.

"TIZ" FOR SORE, TIRED FEET—AH!

"Tiz" is Grand for Aching, Swollen, Tender, Calloused Feet or Corns

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet.

"Tiz" cures your foot trouble so you'll never limp or draw up your face in pain, your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it.—Adv.

MORE FOREST PLANTING.

Interest in the Movement in Vermont is Increasing.

The report of the state forester recently published, shows that the interest in forest planting is still increasing in Vermont. More people planted trees in 1915 than in any previous year. Altogether over four million trees have been planted in the state by about 600 people since the establishment of the forestry department. In order to give a better idea of what this number really means it may be said that the trees are planted in rows six feet apart, and there are, therefore, about 4,500 miles of such rows in the state.

At a conservative figure for lumber it is estimated that these plantations in forty years will add at least \$1,000,000 to the assets of the land owners of Vermont. Besides this it means much to the industries of the state and to the men who will have winter work in cutting the timber as it becomes mature.

In these days of increasing public expense for penal institutions, education, highways, etc., it is fitting that the state should invest a few thousand dollars every year in a way to build up the assets of the future.

Orders for nearly half a million trees for the spring planting season have already been received, but the state nursery has been enlarged and will probably be able to meet all demands.

Among the private owners, Dr. William Stanford Stevens has the largest plantation in Vermont, located in the town of Enosburg. He has already planted 250,000 trees and has 50,000 more for the present season. Among the other large planters the coming season will be Miss Emily Proctor, Hon. Frank Partridge, and the Vermont Marble company, all of Proctor; Mr. William Bris of Londonderry, and The Orchards Farm of Bennington, which will plant a variety of trees, including white, Scotch and Norway pine, Norway spruce, and white cedar. Judge Charles H. Beckett will begin some extensive planting on his place in Williamstown; and Mrs. C. S. Woodbury on his lakeside property near Burlington.

CHANCE FOR VERMONT BOY

To Secure Appointment to U. S. Naval Academy.

Under a law just passed by Congress, Senator Carroll S. Page of Vermont is permitted to nominate another candidate for the United States Naval Academy at Annapolis. In accordance therewith, President Ira L. Reeves of Norwich university has consented to conduct the preliminary examination of those who wish to compete for the appointment, and Tuesday, March 21, at 9 a. m., at Norwich university, Northfield, has been designated as the time and the place for holding such examination. Any person wishing for the printed regulations with reference to entrance to the Naval academy will be furnished therewith on application to Senator Page in writing. Senator Page says he wishes the best man to win this appointment and he will make the recommendation solely on merit.

MACHINISTS GO ON STRIKE.

5,000 Out in Buffalo, as Many More to Follow.

Buffalo, N. Y., March 3.—More than 5,000 union machinists went on strike yesterday, demanding an eight-hour day and wage increases. Labor leaders say the number will be increased to 10,000 by to-morrow.

After a stormy meeting which extended into the early hours yesterday, extensions of two days each were granted to the Snow Stream Pump Works, the Standard Stroker company and the Crossby Manufacturing company to meet the demand of the men. The Lake Erie Engineering Works offered to adopt the union schedule by May 1, but their proposition was denied. The Pierce Arrow Motor company, crowded to capacity with orders, is the largest concern affected by the strike. Many of the plants have large war orders.

THE FASHION.

For the new spring dresses, both stiff taffetas and soft crepe materials are popular, according to the fashion of the dress. When a soft material, such as Georgette crepe, is used, finish the bottom of the skirt with a wide bias band of taffeta or some such material to hold out the skirt, then there should be a small bolero or straps, or just the suggestion of this heavier material on the blouse. Ruffles, straight or bias, are used profusely for trimming on the otherwise plain dress. Overskirts, pointed in back and front or at the sides, are graceful and becoming over plain foundation.—Woman's World for March.
