**TO SUMMON J. T. LENNOX IN BRANDEIS INVESTIGATION**

**Senate Committee Is Anxious to Learn More About Bankruptcy Case.**

Washington, March 6.—Louis D. Brandeis' law partner, E. F. McClennen, was cross-examined for three hours Saturday before the Senate sub-committee investigating Mr. Brandeis' fitness to be a supreme court justice. Counsel for those opposing confirmation asked particularly about the Lennox bankruptcy case and at the end of the cross-examination the sub-committee decided to summon James T. Lennox, the principal in that litigation, and requested McClennen to produce stenographic notebooks in which reports of conversations on the subject in the Brandeis law office were made.

Opponents to Brandeis' confirmation charge that he is guilty of unprofessional conduct in filing an involuntary bankruptcy petition against Lennox based partly on an assignment he is alleged to have previously advised Lennox to make. McClennen's examination went into many details of the case, but failed to develop any material additions to the story which he told on direct examination and in which he saw nothing reflecting on Brandeis' professional conduct.

Austen G. Fox, who conducted the cross-examination, tried to develop whether Brandeis had been in conference prior to the assignment proceedings in 1907 with Moses J. Stroock of New York, representing the Stein & Co., one of the assignees regarding the case. McClennen was unable to give the desired information, and Senator Works announced he would insist that Mr. Stroock, who testified about other matters at a previous hearing, be recalled.

Mr. Fox read long extracts from the minutes of a hearing before a bankruptcy referee in the Lennox case, in which a stenographer stated that she had written letters to various persons in 1907 announcing that Stein & Co. claimed as its property any leather in their possession coming from the Lennox company after a certain date. Her recollection was that Brandeis dictated the letters, and that there previously had been a conference between Stroock and Brandeis.

**MANN PLAYING POLITICS**

**Working the Armed Ships Issue to the Limit**

**SENATE STILL EFFERVESCING**

**Fight in Lower Body Will Continue for Two or Three Days**

Washington, March 6.—The House Saturday was deep in the maelstrom of the controversy over armed merchantmen, and the Senate, Republican representatives, including Minority Leader Mann, are playing politics with the issue to the limit. Practically everything there has been informal and under the surface. Nevertheless the fight in the House is most intense and probably will continue for two or three days. Mann and Majority Leader Kitchin are virtually co-operating. There are votes enough to put through the resolution framed Friday by the foreign affairs committee, but the pinch comes over a special rule which apparently will be necessary. The rules committee, it develops, has been deadlocked because of the absence of Chairman Henry and the recalcitrance of a Tammany Democrat, Patten.

A rule to shut off debate always alienates a certain number of votes in the House. Some Republicans from the eastern states will probably vote for it. But there is danger of the contest being very close, consequently the need of proceeding cautiously. Representative Rogers of Massachusetts, a member of the foreign affairs committee, said Saturday that time was in favor of the administration, and a purpose to wait till Tuesday gave the president's friends more confidence. It is still claimed there are enough votes in the House to pass a resolution warning Americans of armed ships, if the test could be squarely made. Whether this be so or not, there is effort to prevent parliamentary tricks by which this question could be proposed or any huke permitted such as Senator Gore perpetrated.

It would be little surprise if the Senate put in much time for several days

**SAYS WE BECOME CRANKS ON HOT WATER DRINKING**

**Hopes Every Man and Woman Adopts This Splendid Morning Habit**

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all its waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.—Adv.

discussing the controversy. The irreconcilables among the 14, as well as some who voted Friday in the affirmative, are eager to explain, and were declaring Saturday that the armed liner issue is still unsettled in the Senate.

Congress in both branches is getting ready for the army increases. Senator Chamberlain put in his bill Saturday. As soon as the water-power bill is disposed of in the Senate and the legislative appropriation bill in the House, a plunge into army discussion is looked for.

**SUPPORT THE PRESIDENT.**

**William H. Taft Talks About Situation in Washington.**

Boston, March 6.—"Stand by the president," is Prof. William Howard Taft's advice to Americans. He paid his respect to Gov. McCall at the State House Saturday morning and permitted himself to be quizzed on the Washington developments of Friday, when the Senate apparently supported President Wilson by rejecting the Gore resolve to warn Americans of armed merchantmen. "This is a grave international question," said former President Taft, "and we should all support our president in such crises."

"Do you believe the president was right in his demands upon Congress?" queried a questioner. "Well," parried Mr. Taft, "I should have voted the way he wanted, had I been there." "Do you think the Senate is honestly behind the president?" was a second question. He smiled. "I don't know exactly what the situation is, owing to the tangle in the Senate, but I presume the senators voted correctly."

The former president was chary with his comment on the question of sending pledged or unpledged delegates to a national convention, but his own remark indicated he was with the McCall-Weeks-Crane-Lodge unpledged slate, for he said: "Gov. McCall and I are old friends. I wouldn't want to injure a man lending him my support," and he emitted the famous Taft chuckle. Gov. McCall said Mr. Taft's visit Saturday had no political significance whatever. "Mr. Taft is here on a lecture tour and we simply swapped stories," he said.

**WILSONS OFF ON YACHT.**

**Leave on Mayflower for Week-end Chesapeake Trip.**

Washington, March 6.—President and Mrs. Wilson left Washington Saturday night for a week-end trip down the Potomac river and Chesapeake bay. They planned to return to Washington this morning. The president decided to take the trip because of his desire for rest after a busy week in conference with congressional leaders over the agitation to pass resolutions warning Americans of armed ships.

**\$2,500,000 FOR PLAGUE.**

**Agricultural Bill Reported to House, Carries \$24,501,993.**

Washington, March 6.—The annual agricultural bill, carrying \$24,501,993, an increase of \$1,529,530 over the current appropriation, was reported to the House Saturday. Among the largest items are \$2,500,000 for use in case of an outbreak of foot and mouth disease, or similar diseases; \$250,000 to combat citrus fruit canker in the gulf states, and \$360,000 for education of hog cholera and enforcement of the virusserum-toxin act.

**FRANCIS IS ACCEPTABLE.**

**Nomination as Ambassador to Russia Will Go to Senate.**

Washington, March 6.—The nomination of David R. Francis, former governor of Missouri, to be ambassador to Russia, will be sent to the Senate to-day by President Wilson. Word has been received at Washington from Petrograd that Mr. Francis will be acceptable to the Russian government. He will succeed George T. Marye, who resigned.

**New Destroyer Launched.**

Quincy, Mass., March 6.—The United States torpedo-boat destroyer Sampson named for the late Rear Admiral William T. Sampson, United States navy, was launched from the yards of the Fore River Shipping corporation Saturday. The Sampson is one of the largest destroyers in the navy with an over length of 315 feet. She went into the water 78 per cent completed.

**BOSTON'S AUTO SHOW**

**Opens with a Big Bang and Large Attendance on Opening Day**

**IS FOURTEENTH IN MECHANICS HALL**

**Famous New England Motor Car Display All This Week**

Boston, March 6.—The 11th annual automobile show of the Boston Automobile Dealers' association that opened Saturday afternoon in Mechanics hall, displays to the motorists of greater Boston a most complete and pleasing exhibition of the latest models of pleasure cars, some of the latest commercial vehicle type and the very latest accessories. From number of exhibits, it ranks high among the famous Boston shows, says the Christian Science Monitor, and based on the success with which the other automobile shows of the country have been attended this year, many thousands of automobilists will pass through the various entrances of this big building between Saturday afternoon and Saturday night this week, when the doors are to be closed for the last time.

The past week has been a busy one in getting the building decorated for the display and also assembling the various exhibits. Beginning early Monday morning hundreds of skilled workmen started in to transform Mechanics building into an attractive place for the show. For several months the management has been working on the plan of decoration which was to be made use of this year and painters have been busy producing the big floral arch curtain, wall scenery and drops which are covering an area of 46,000 square feet.

Manager C. I. Campbell has announced that the number of exhibits is 107 different makers, who display no less than 450 models, some of which are new to Boston motorists, and sure to attract considerable attention.

**Barre Bowlers Had Better Bowling Eyes Saturday Night.**

The famous "Hitzum" team from Nashua, N. H., failed to live up to the connotation of their name Saturday night, when they lost all three of their bowling matches with the Merlo academy, team on the local alleys. The two 10-string matches were rolled off in the afternoon and resulted in each case in a few pin margin for the local team. The five-man team match was rolled in the evening and resulted in a victory for the Merlo academy rollers by the comfortable margin of 68 pins. Marriotti secured the high total for 10 strings with 1,077, and Catto, the high single in the five-man match with 132, as well as the high three-string total of 339.

**Enjoy Life! Don't Stay Bilious, Sick, Headachy and Constipated**

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty. Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Adv.

**FIVE KILLED IN WRECK.**

**Man Burned Alive in Ruins of South Dakota Smash.**

Sioux Falls, S. D., March 6.—Two persons were killed and eight injured, three seriously, when a southbound passenger train on the South Dakota Central, for Sioux Falls plunged 26 feet through a bridge about 10 miles south of Watertown, S. D., Saturday. The dead are: David Lovejoy of Watertown, a passenger, and F. E. Dooling of Denver, a traveling man.

The weakening of the bridge by fire is believed to have been the cause of the accident. The engine and a mixed mail and express car passed over safely but the three coaches following plunged through the weakened structure.

Dooling was pinned in the wreck and burned alive. As the flames crept near him he begged the other passengers who were trying to save him to shoot him. Three men were killed and five others injured when a freight train standing on a siding was struck by another freight train on the Chicago, St. Paul, Minneapolis & Omaha railroad near Mountain Lake, Minn., Saturday. The dead are: Albert Utzsch of James, Ia., Michael Weaver of Ellsworth, Minn., C. A. Rowe of Sibley, Ia. All were in a caboose at the end of the train on the siding.
