Everywhere 5 cents C. A. Briggs Confectionery Co., Cambridge, Mass.

AWFUL PAIN FROM RINGWORM ON FACE

Then On Head, Itched Terribly. Very Large, Skin Sore and Inflamed. Had Wet Scales on It.

HEALED BY CUTICURA SOAP AND OINTMENT

"I felt pimples coming out on my face, then on my head, and I began to scratch them for they itched terribly. The pimples were large and red and after a while they festered and seemed to run together like one great ball and then I knew it was ringworm. The ringworm was very large and the skin was sore and inflamed and had wet scales on it. I felt awful pain and I lost a great deal of sleep.

"I used a number of remedies. Then my hair began to fall out. A friend told me about Cuticura Soap and Ointment and I got them as soon as possible. They stopped the itching and falling out of my hair and I only used four cakes of Cuticura Soap and four boxes of Cuticura Ointment and I was healed." (Signed) Miss Ella Roy, Westport, Conn., Oct. 8, 1915.

Sample Each Free by Mail

With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

Courage Failed.

A young woman who was an enthusiastic admirer of the songstress had often expressed a desire to meet Mme. Schumann-Heink and she was finally invited to a reception given in honor of that celebrity. But when it came her turn to be introduced to the famous woman she lost her self-possession. Blushing deeply and twisting about the rings on her fingers, she managed to stammer: "You-er-er-sing, I believe."

PAID BRANDEIS \$225,000 FEE

But Directors Were Satisfied, Says President of Copper Company

BRANDEIS NOT TO BLAME

Smith Tells of Work of Boston Lawyer in the Old Dominion Case

Washington, March 16.—Louis D. Brandeis received \$225,000 as his fee from the Old Dominion Copper & Smelting Company, according to Charles S. Smith, president of the Old Dominion company, who testified before the Senate investigating committee yesterday. He added that the directors of the company believed they got their money's worth.

Smith's testimony was an unqualified contradiction of that offered Tuesday by William F. Fitzgerald, who, Smith said, was engaged in an attempt to wreck the concern and throw it into the hands of a receiver. The engineer's report, which Tuesday Fitzgerald charged Brandeis with having concealed, was considered of no value by the directors, according to Smith, and it had been ordered suppressed by them.

Had Fitzgerald's campaign to prevent the merger of the Old Dominion and the United Globe concerns been successful, Smith said, many stockholders would have lost heavily. As it was the merger was completed and has proved "a most profitable enterprise."

PUT DEFENSE BEFORE LITTLE BILLS, URGES MANN

Minority Leader Wants "Chicken-Feed" Measures Put Out of the Way For Big Legislation.

Washington, March 16.—Minority Leader Mann told the House yesterday during consideration of the urgent deficiency bill that Congress should without further delay "devote its attention to the subject of proper preparation of the country for defense instead of the little chicken-feed bills which drift before the House from committees."

OLDEST DENTIST IN TOWN.

Dr. C. S. Clark of Brattleboro Died at His Home Yesterday.

Brattleboro, March 16.—Dr. Charles Stanford Clark, 69, of West Brattleboro, the oldest practicing dentist in this town, both in years and in length of service, and a man who held several offices of trust and responsibility, died yesterday in his home, after an illness of several weeks. He had been in ill health several months and everything possible was done to bring him a return of good health.

He was born in West Brattleboro July 28, 1846, a son of Stanford Russell and Eliza Lucretia (Adkins) Clark. He attended Brattleboro academy in West Brattleboro and Williston seminary, Easthampton, Mass., was a student in Norwich university, Northfield in 1862, graduated from Eastman's business college in Poughkeepsie, N. Y., in 1865, began his professional studies in the office of the late Dr. O. R. Post of Brattleboro and afterwards took a course in the dental department of Harvard university, which he entered in 1868.

Dr. Clark began the practice of dentistry with Dr. Williams in Woodstock in April, 1869, and in 1871 he located in West Brattleboro, having an office in this village.

He had been a member of the board of directors of the Vermont National bank since 1901. He was a corporate member of the Vermont Savings bank, trustee and treasurer of Brattleboro academy since 1879, and for 26 years, ever since its organization, a director, agent and treasurer of Morningside Cemetery association.

Dr. Clark united with the Congregational church in 1866. For 34 years he had been a deacon of the First Congregational church in West Brattleboro. He was a generous supporter of its finances and was devoted to all church interests. As treasurer of its funds he was always thorough and exact, and in service on its business committees his judgment was relied upon. He was a long-time moderator of the church business meetings and had served as superintendent of the Sunday school.

On September 3, 1870, Dr. Clark married Rebecca Celinda Clark of Peru, who died May 9, 1915. Eight children were born to them, of whom seven survive, Lafayette E., of West Brattleboro, Dr. Charles Ernest of Sivas, Turkey, Rev. James S. of North Bennington, Robert C. of Brattleboro, Mary E., wife of Wesley E. Nims of Orange, Mass., Miss Susan L. of West Brattleboro and Edward S. of Detroit, Mich. There are 11 grandchildren. Dr. Clark also leaves one brother, Samuel Clark of Springfield, O., and one sister, Miss Susan E. Clark of West Brattleboro.

Dr. Clark was a man of sound business judgment and honorable dealings, devoted to his home circle, interested and helpful in church and school affairs, and he will be missed in many ways.

The funeral will be held at 1:30 o'clock Friday afternoon in the First Congregational church, West Brattleboro, and the burial will take place in the West Brattleboro cemetery.

The Scotch Viewpoint.

A Scotch class was examined in scriptures. "Can any boy or girl tell me how Noah would be likely to use his time while on the ark?" asked the inspector. One boy timidly replied: "Please, sir, he wad fish."

"Well, yes, he might," admitted the inspector.

Another little fellow waved his hand excitedly, and said: "Please, he couldna fish very lang."

"What makes you think so, my little man?"

"Because there were only two worms in the ark."

"I give Father Johns' Medicine to My Children, and It Keeps Them Well and Strong."

In a recent message from Cedar Rapids, Ia., Mrs. T. F. Gaines, the mother of three children, says: "I am pleased to recommend Father Johns' Medicine to anybody who wants a medicine to build them up. I give it to my children and it keeps them well and strong." (Signed) Mrs. T. F. Gaines, 921 South 2d street, W., Cedar Rapids, Ia.

It is of vital importance to mothers of growing children to know the value of Father Johns' Medicine as a safe family remedy, because it is pure and wholesome nourishment and is free from morphine, opium, chloroform or any other dangerous drugs. It has had more than 50 years' success in the treatment of colds, throat troubles, stubborn coughs, sore throats, and as a tonic and body builder. It is especially valuable in the getting-well stage following any serious illness when strength building food is required. Be sure you get what you ask for.—Adv.

CUMMINS EASY WINNER.

Given an Eight to One Victory in the Minnesota Primaries.

St. Paul, Minn., March 16.—Although returns from Tuesday's presidential preferential primary were not complete early yesterday, indications were that the victory of Albert B. Cummins, United States senator from Iowa, over Henry D. Estabrook of New York for the Republican indorsement would reach the ratio of eight to one. Additional figures from the rural districts assured the forces of National Committeeman Fred B. Lynch that they would control the Minnesota delegation to the Democratic national convention.

Both Democratic factions approved President Wilson's candidacy for re-nomination.

The presidential contest in the Prohibition party is still uncertain, neither Eugene N. Foss of Massachusetts nor William Sulzer of New York having a decisive lead.

Contempt of Court.

Scene: A police court. Solicitor—Do you know the prisoner well? Witness—Never know him ill, sir. Solicitor—But did you ever see the prisoner at the bar? Witness—Yes, sir, and took a glass with him once or twice. Solicitor—Then, how long have you known this man? Witness—From two feet up to five feet 10 inches. Solicitor (petulantly)—Stand down! Witness (cheerfully)—Can't. I can only stand up—or sit down.

FEAR BIG STEAMER SUNK

The Japanese Hakoku Maru Is Long Overdue

MAY BE VICTIM OF GERMANS

U-Boat May Have Sent Her to the Bottom

London, March 16.—The Japanese steamer Hakoku Maru has been posted at Lloyds as overdue. She left Portland, Ore., Nov. 8, for United Kingdom ports and was last reported as leaving Singapore on Dec. 20. The Hakoku Maru had on board a cargo of 4,100 tons of wheat. Shipping circles in Kobe, where the vessel is owned, fear disaster from a submarine.

Shortly after leaving Singapore the captain of the ship sent a wireless to the owners advising them that in consequence of submarine activity he would take the route around the Cape of Good Hope. The vessel was due at Durban on Jan. 10, but has failed to put in an appearance. Her fate is as much of a mystery as that of the Japanese steamer Senju Maru, which disappeared in the Mediterranean several months ago.

The Hakoku Maru is insured for \$225,000 and the cargo for about \$150,000. She was of 6,000 tons register and was built in England in 1890.

PAIN GONE! RUB SORE, RHEUMATIC ACHING JOINTS

Rub Pain Away with a Small Trial Bottle of Old "St. Jacob's Oil"

Stop "dosing" rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment, which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Limber up! Get a small trial bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away—Adv.

UNDERTAKER EXONERATED

On Allegation of Careless Disposal of Parts of a Body.

St. Albans, March 16.—Following a complaint made to Mayor John E. Mann by J. O. Sargent, freight conductor on the Central Vermont railway, to the effect that parts of the body of W. Charles Campbell, the Central Vermont engineer who was killed and his body horribly mutilated at Bethel last Thursday, had been thrown out on the ground in the rear of the undertaking establishment of Ralph H. Meconroy on Kingman street, the health and nuisance committee of the city council Tuesday afternoon and evening held an investigation for the purpose of establishing the facts and reporting to the full council.

The city council met yesterday afternoon at 1:30 o'clock and after receiving the report of the health and nuisance committee it was voted to dismiss the complaint. The committee on health and nuisances made the following report to the council:

"Referring to the complaint made to the city council to the effect that following the preparation of a body for burial at the Meconroy undertaking rooms in St. Albans, Vt., certain portions of the body, and certain organs of the body, were found on or near an ash heap at the back of the undertaking rooms.

"The matter was referred by the city council to the committee on health and nuisances to investigate and report. We have investigated this complaint to the best of our ability, and our findings are as follows:

"The parts of the body and the organs of the body, which were cited in this complaint were not disposed of in the manner set forth, these parts and organs have all been accounted for, not only by Mr. Meconroy but by three reputable citizens of St. Albans, Vt., who, as volunteers, assisted Mr. Meconroy from the arrival of Central Vermont train No. 3 until after 1:20 a. m. the following morning in the preparation of the body in question for burial.

"We find that in the preparation of bodies for burial all sanitary rules and regulations are followed by Mr. Meconroy, and that all refuse is burned either in the basement of his building or in the incinerator located outside of the building.

"We further find that the body in question arrived in St. Albans from out of town in a badly mutilated condition, and parts thereof were wrapped in cotton, which was heavily saturated. In transferring some of this saturated cotton from the undertaking rooms to the incinerator by Mr. Meconroy's helpers a certain piece, or pieces, of this cotton, to which a small piece of flesh had adhered, was inadvertently dropped, and as soon as these circumstances were brought to Mr. Meconroy's personal attention he immediately took steps to burn same.

"It is our belief that the foundation of this report was based upon the finding of the saturated piece, or pieces, of cotton near the back door of the Meconroy undertaking rooms by parties passing by, as the result of which a magnified report has been circulated."

The story of Mr. Meconroy's alleged neglect properly to care for the body spread from lip to lip throughout the city, growing with each telling, until the climax was reached Tuesday evening, when it was reported on the streets that his license as an undertaker had been taken away from him. Mr. Meconroy

THE VALUE OF TRUTH

Truth in business is just as important as truth in every-day life; truth creates confidence, establishes good-will and builds a reliability that will not be wrecked by the storms of competition.

Through three generations people have learned to place reliance on the advertised words of Scott's Emulsion, because they are unvarnished, unexaggerated truths about a household remedy of real and actual worth.

The popularity of Scott's Emulsion is increasing as intelligence advances, because in these days of adulterations it contemplates to guarantee pure cod liver oil medicinally perfected with glycerine and hypophosphites to build strength, improve the blood and strengthen the lungs. It is free from alcohol or opiates—a wholesome food-tonic, truthfully advertised.

Scott & Bowne, Bloomfield, N. J. 15-20

Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy, Inexpensive but Unequaled

The prompt and positive results given by this pleasant tasting, home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will usually overcome the average cough in 24 hours.

Get 2 1/2 ounces Pinex (50 cents worth) from any drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. This makes a full pint—a family supply—of the most effective cough remedy at a cost of only 54 cents or less. You couldn't buy as much ready-made cough medicine for \$2.50. Easily prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, chest or throat cold is truly remarkable! It quickly loosens a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent loose cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in quaiacil and is famous the world over for its splendid effect in bronchitis, whooping cough, bronchial asthma and winter coughs.

To avoid disappointment in making this, ask your druggist for "2 1/2 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Tuesday morning requested an immediate investigation, as he considered the stories which were current most injurious to him and his business, insisting that out of justice to him the council should immediately do its work and report its findings.

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Dandurine at any drug store, pour a little in your hand and rub well into the scalp. After a few applications, all dandruff disappears, and the hair stops coming out.—Adv.

Never forget

that muddy coffee is as unnecessary as it is distasteful. The FIVE vacuum cleanings we give VICTOR coffee puts an end to coffee troubles; as a trial will convince.

Good Coffee

is always obtainable if you buy VICTOR. It is STEEL cut not crushed or ground like almost all other coffees. You can be certain it's remarkably uniform—good.

VICTOR COFFEE will cheer up any Breakfast Table.

The Leader of America's Oldest Coffee Houses.
