

# PRESIDENT WITH SENATE

## He Wants a Tariff on Sugar Kept Only Until 1920

# OPPOSES CLAUSE OF HOUSE BILL

## Congressman Walsh on Trail of Free Seeds—Vast Amount Wasted

Washington, April 19.—President Wilson favors the Senate bill postponing the placing of sugar on the free list until 1920, in preference to the House bill postponing it indefinitely. Chairman Simmons of the Senate finance committee told the president yesterday that the conferees on the measure were at a deadlock and asked his advice. Senator Simmons returned to a meeting of the conferees prepared to insist on the Senate provision.

### Fight Over Free Seeds.

That government seeds grew cabbages large enough to hide a calf who was attempting to dodge his owner was brought out in the debate yesterday in the House by Representative Stearnson on Representative Walsh's amendment to strike out from the agricultural bill the provision allowing members of Congress to send free seeds to their constituents. Mr. Stearnson, who opposed the amendment, brought this fact before the House when he read a letter from one of his constituents telling him of the antics of his neighbor's calf.

Mr. Walsh's amendment was defeated on a division vote of 45 to 118. For the \$250,000 to be appropriated in the agricultural appropriation bill for free seeds the government might purchase 20 soredly needed aeroplanes, Representative Walsh told the House. The Massachusetts man denounced vigorously the practice of appropriating thousands of dollars every year for common seeds to go to people who never make any report to the government on their growing or other qualities.

### Railroad Employes Urge Reforms.

Representatives of railway employes' organizations yesterday urged the House interstate commerce commission to approve legislation empowering the interstate commerce commission to regulate clearance space about railroad tracks. They pointed out that the increased size of locomotives and other equipment endangered the lives of the employes.

# SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician. If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you get up with a bad taste, tormented tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and most neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent colic, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones. Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleaning, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Limestone phosphate does not restrict the diet like calomel, because it can not sature, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.—Adv.

# A SPRING TONIC

Old Reliable Hood's Sarsaparilla Is Pleasant and Effective.

In the spring your blood is impure and weak, eruptions appear on your face and body, you lack vitality, strength and animation, your appetite is poor and you feel all tired out.

Get Hood's Sarsaparilla from any druggist. It combines just the roots, herbs, and other substances that you need.

It purifies and strengthens the blood—makes the rich red blood that you must have to feel well, look well, eat and sleep well. This is confirmed by thousands of letters from people in all parts of the country.

Hood's Sarsaparilla is the best spring medicine, but is not simply a spring medicine—it is an all-the-year-round blood purifier and tonic. Remember, it has stood the test of forty years. Be sure to get Hood's and get it to-day.—Adv.

# REPEAL BILL IS KILLED.

## Overwhelming Majority Is Against Boston & Maine Reorganization Bill in Massachusetts Senate.

Boston, April 19.—By an overwhelming vote the Senate yesterday killed the bill to repeal last year's Boston & Maine railroad reorganization act. The bill passed the House last week after a long series of dinners at which House members were the guests of the Boston & Maine Minority Stockholders' association.

Since the House voted, two or three dinners have been held and members of the Senate were invited, but none of the senators went. The dinner campaign plainly did not appeal to the senators, and it was evident that the lobbying hurt the bill's chances in the upper branch.

There was no debate. Senator Clark of Brockton said he was not for or against the bill, but asked for information. Senator Clarence Hobbs of Worcester, chairman of the railroad committee, said he could not see that the minority stockholders would lose out if last year's bill is allowed to stand.

# RAILROAD REVENUE.

## Net Operating Income of \$65,941,000,000 for February.

Washington, April 19.—The net operating income of the principal railroads for February was \$65,941,000,000, a revenue of \$287 a mile, as opposed to \$171 a mile in February, 1915.

# Yesterday's American League Results.

# Baseball Notes.

Veau Gregg will not pitch for Carrigan's team until warmer weather. The ex-Clevelander says that his arm is O. K. but with a wealth of pitching material on hand Carrigan does not need him until later.

Carl Mays, a member of the Red Sox pitching staff, may undergo an operation this week. He has been troubled with his tonsils and on advice from Manager Carrigan will probably have them cut out. The operation will necessitate his being out of the game for about a week.

Tris Speaker hit his batting stride Monday. The former Red Sox star slugged out a double and two singles for the Indians. Ty Cobb got a double and two singles.

Hal Chase broke back into the big league with a screaming two-bagger and a single.

Veach, for Detroit, batted for 1,000 Boston. He got three doubles and a single out of four chances.

Larry Gardner got three safe hits out of four chances Monday and made a hair-raising one-hand stop.

"Dutch" Carter, the famous Yale pitcher and close follower of college baseball for about 25 years, is quoted as saying that Dick Harte is the finest catcher in college ranks and one of the best that ever caught.

Cobb and Crawford are now beginning their 12th season as clubmates.

George Stallings says that Coach Fred Mitchell will join the Braves as soon as Harvard's baseball season ends.

The sale of tickets by one of the Boston agents for the opening game of the Braves Thursday has doubled that of the opening game last year, notwithstanding that the Braves were then champions.

# IN LOCAL MARKETS

## Dressed Pork Is Easy at 12c —Fresh Eggs Are Plenty

## MAPLE SUGAR BRINGS 11@11 1/2c PER POUND

## Creamery Butter Is 33@34c Per Pound, Dairy 30@31c

Barre, Vt., April 19, 1916.

Dressed pork easy at 12c. Fresh eggs plenty.

Wholesale quotations:  
Dressed pork—12c.  
Veals, fancy—12c.  
Lamb—17@18c.  
Fowls—20@22c.  
Fresh eggs—21@22c.  
Butter, creamery—33@34c.  
Butter, dairy—30@31c.  
Potatoes—\$1.20@1.25.  
Maple sugar—11@12c.

# RICKER'S MARKET REPORTS.

## No Supply of Lambs and Small Receipts in Milk Cows and Cattle.

St. Johnsbury, April 19.—Receipts at W. A. Ricker's market for the week ending April 18 included:  
Poultry—100 lbs., 12c.  
Lamb—None.  
Hogs—350, 8@9c.  
Cattle—37, 3@7c.  
Calves—400, 4@6c.  
Milk cows—35, \$90@85c.

# IN BOSTON MARKETS.

## Butter Market Quiet and Inclined Lower —Egg Receipts Large.

Boston, April 19.—It begins to look as though a turning point in the butter market was at hand. The local supply is not a great deal larger than it has been, but the demand has been tapering off pretty steadily as prices have gone up and it has been no easy matter to effect a clearance of receipts. A decline in the outside markets, particularly in the West, makes buyers even more cautious than they have been and sellers also are uneasy that they may be caught with high-costing stock on hand; consequently, while quotations are left unchanged, they are more of an asking than a selling basis and slight differences between what is asked and offered are not allowed to stand in the way of sales. The cheese market continues quiet and holders are talking strongly, there is reason to believe that they would sell for less than they ask. Receipts of eggs continue large, but with a good many going into the coolers there are none too many on the open market for the current demand, which is always large during the week before Easter.

Jobbing quotations:  
Butter—Fancy northern creamery tubs 38@38 1/2c, boxes 39@39 1/2c, prints 39 1/2@40c, fancy western creamery 37 1/2@38c, fancy storage creamery, northern 36 1/2@37c, fancy western 35 1/2@36c, good to choice creamery 35@35 1/2c.

Eggs—Fancy henery, 27@28c, choice eastern 25@26c, fresh western extras 24@25c, prime firsts 23 1/2@24c, firsts 22@23 1/2c.

# BEEF CATTLE HIGHER.

## Better Demand at Brighton Stockyards—Hogs Advanced, Calves Firm.

Brighton, Mass., April 19.—The Jewish holidays, which usually have a depressing effect on trading in the Brighton cattle market, seem to have made little impression on the demand this week, as prices yesterday were firm and higher on all beef stock. Hogs also were higher and calves held firmly.

All beef cattle sold better than last week, and higher prices were realized. One choice, heavy pair brought better than 10c, the highest price for months. Tops generally sold at 8 1/2@9 1/2c, with good cattle at 8@8 1/2c, and light cattle at 7@7 1/2c.

Some fancy heifers sold as high as 7 1/2c, the range for fancy being 7 1/4@7 1/2c, with average tops at 7c, good cows at 6 1/2@7c, ordinary cows at 5 1/2@6c, and canners at 4 1/2@5 1/2c.

Best beef bulls brought 6 @ 6 1/2c, with sales at both figures; with average stock at 5 1/2@6c, and bolognas at 4 1/2@5c.

In spite of liberal receipts, calves were held firmly, owing to the demand for the Easter trade. Fancy bunch lots sold as high as 10 cents, the range for fancy bunch lots being 9@10 cents, with good at 8@9 cents, fair lots at 7@8 cents and grassers and drinkers at 5@7 cents.

Dressed hogs have been advanced again, the light run in the West preventing the local packers from getting their full quota of supplies. Some fancy sold up to 10.40 cents, the range for best lots at 9 1/2@10 cents.

No offerings of sheep and lambs were available, and prices were entirely nominal. Full prices could easily have been obtained, provided the stock was to be had.

Milk cows showed little change, though there was a demand for choice stock. Fancy milkers have sold at \$100 @ \$135, with good cows at \$75@80 and ordinary milkers at \$35@40.

# RUSH TO HEAR SAM HUGHES.

## Parliament Buildings Crowded to Hear War Minister.

Ottawa, Ont., April 19.—Large crowds sought entrance to the temporary Parliament buildings yesterday to hear Major General Sir Sam Hughes, minister of militia, make his promised statement in the House of Commons in regard to the charges that abnormal profits were allowed in the awarding of fuse contracts by the Canadian shell committee which are about to be investigated by a royal commission. It was rumored that General Hughes would ask to be relieved of actual charge of his department pending the investigation.

# 25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

## Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to-night—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will you get more than that? Just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Adv.

# AMERICAN FORAGE SEIZED BY CARRANZA, IS RUMOR

## Funston Asks That Report On Incident Be Made to Him At Once.

San Antonio, Tex., April 19.—General Funston yesterday asked that report be made to him at once on the unofficial rumor that a train load of forage shipped from Juarez to Chihuahua and intended for the American troops had been seized by Carranza authorities. The arrival of some of the supplies sent to Chihuahua has been reported, but no advices that had reached the army have been received.

# SEIZE CARLOAD OF ARMS CONSIGNED TO MEXICO

## United States Military Authorities at Eagle Pass Will Investigate Destination.

Eagle Pass, Tex., April 19.—A carload of arms and ammunition consigned to Mexico was seized by United States military authorities yesterday and placed under guard pending investigation as to its destination.

# FRENCH DEPUTIES APPROVE MORE DAY-LIGHT MEASURE

## Pass Law Authorizing Cabinet to Set Clocks Ahead One Hour During War.

Paris, April 19.—The law recently proposed authorizing the cabinet to advance the legal time by one hour during the period of the war was passed by the chamber of deputies yesterday. The purpose of the measure is to advance daily activities during the daylight hours and thus economize in the consumption of gas and coal.

# 3,117 NON-COMBATANTS KILLED BY MINES OR SUBMARINES

## More Than One-Third of Them Were Passengers, Says Runciman in House of Commons.

London, April 19.—Since the outbreak of the war 3,117 non-combatants have lost their lives in maritime disasters due to mines or to submarines of hostile nations, Walter Runciman, president of the Board of Trade, said in the House of Commons yesterday. Of these 1,754 were seamen, 188 fishermen and 1,175 passengers.

# RURAL SCHOOLS

## Boys' and Girls' Club Work.

This week I want to tell the boys and girls about "Pig Clubs."

The Vermont State Bankers' association has made available through the Vermont agricultural extension service \$100 in cash prizes for meritorious effort in a "pig club."

Any boy or girl in the state, 10 to 18 years inclusive, is eligible to enter the contest. Enrollments must be made not later than Tuesday, April 25. The contest will begin May 1 and close Aug. 31. (Local contests may be continued until Dec. 1, so as to get the benefit of fall feeding, local exhibits, etc.) Each member must secure, at the opening of the contest, at least one pig from four to 12 weeks' old and care for it in person, and must keep a careful record of his work throughout the contest.

The work will be graded and the prizes awarded on a four-point basis: Rate of gain, 20 per cent; cost of gain, 40 per cent; quality of pig, 20 per cent; record and story, 20 per cent.

The prizes will be (a) in each county a first prize of \$3, a second prize of \$2, a third prize of \$1; (b) in the state a sweepstake prize—state champion \$10, second best state prize \$5, third best state prize \$1.

The extension service at Burlington will furnish further details to each member when they enroll, blanks for records and reports, seasonal helps and other follow-up instructions, from time to time during the contest.

I think that it would be a good thing if parents and teachers would call this contest to the attention of the boys and girls who might be interested, and have them send their name at once, for the enrollment closes April 25, to E. L. Ingalls, agricultural extension service, Burlington, Vt.

One of the chief aims of a rural school should be to interest the boys and girls in the important home industries. Many a successful farmer can trace the beginning of his interest in farming to the time when, in some way, either by gift or purchase, he became owner of a cash-producing implement or animal. Contests of this kind give the boys and girls some definite interest in the work on the farm, and the knowledge and experience gained will be valuable to all contestants and a great satisfaction to the parents who have helped them study the problems which they have worked out.

# OSBORNE IMMORALITY CHARGE STRICKEN OUT

## Judge Platt Grants Motion By Counsel for Former Warden of Sing Sing.

White Plains, N. Y., April 19.—The charge of immorality contained in the indictment against Thomas Mott Osborne, former warden of Sing Sing prison, was stricken out yesterday. Supreme Court Justice Platt, granting a motion made by Osborne's counsel, ruled that the grand jury which last December investigated the prison reformer's administration intended to charge only misdemeanors, whereas the count quashed yesterday alleges a felony.

The original indictment contained five charges of neglect of duty and one of immorality. Three of these have now been stricken out on various motions by Osborne's attorneys, and Justice Platt has under consideration a motion that District Attorney Weeks be directed to furnish a bill of particulars regarding the remaining three counts.

# STEEL TRUST INCREASE WAGES ALL AROUND

## Second Advance Within Three Months—Both Together Represent About \$20,000,000.

New York, April 19.—The United States Steel corporation yesterday announced another advance in the wages of its employes amounting to 10 per cent, effective May 1. This follows a 10 per cent advance made in February. Both together represent a total increase in wage payments of between \$20,000,000 and \$30,000,000.

# Time for Low Shoes

When it's time for low shoes, it's usually time for new shoes; and when it's time for new shoes, it's invariably time for Regal Shoes

Promise yourself the pleasure this summer of getting real comfort from your shoes. The way to do it is to ask for Regals. This store sells them in Barre.

# Moore & Owens

Barre's Leading Clothiers  
Barre, Vt.

# VARIETIES OF POTATOES.

## Too Many Kinds Foisted on Farmers By Seed Raisers, Says Department of Agriculture.

Some of the finest potatoes ever grown were recently exhibited by the department of agriculture for the express purpose of arguing against any increase in the number of varieties of potatoes now being bred. In fact, the department potato experts believe that the fewer number of varieties the better off will be the industry at large.

One purpose of this exhibition was to furnish information to the department workers themselves in regard to the different qualities of recognized varieties of potatoes. In the exhibit were specimens of the Early Rose group, Early Ohio group, Beauty of Hebron group, Burbank group, Green Mountain group, Rural New Yorker group, Pearl group, Pesslebow group, and so on, to say nothing of hundreds of seedlings and unclassified specimens grown on the department's experimental plots.

"It is the belief of the specialists directly engaged in this work that the industry would benefit greatly by a reduction in the number of varieties that are now grown commercially," says the department. "Seedmen's catalogues often list from 200 to 350 kinds of potatoes. This practice is worse than useless, for it merely confuses the farmer and hinders community adoption of one or two varieties selected for their adaptability to particular soil and climatic conditions. It is believed that if such community would confine itself to one or two varieties best suited to its own conditions, not only would production be greater, but better prices would be obtained on the market. Previous to the outbreak of the European war, hotels and restaurants which had to meet a large demand for potato salad made a practice of importing the potatoes they used for this purpose from abroad. And while it is perfectly possible to make potato salad from any kind of potato, the best tubers for the purpose are not those that contain the largest percentage of starch.

"If more attention were paid to the selection of proper varieties and the growing of potatoes for definite purposes, it is believed that the demand which exists in the large cities for potatoes especially adapted to salad could be met by domestic supplies."

In this exhibit were samples of domestic salad potatoes and of potato bread containing 25 per cent of potato flour and 75 per cent of grain. There were also samples of potato by-products cooked and prepared according to various recipes.

# CAMEL CIGARETTES

TURKISH & DOMESTIC BLEND CIGARETTES

give you such fine satisfaction through that mellow-mild-body, that flavor, that absence of bite, parch and any unpleasant cigaretry after-taste, that your fondest cigarette desires are fulfilled, at last!

Camels are new to your taste because they are blended choice Turkish and choice Domestic tobaccos. They will not tire your taste, they are always most refreshing! Smokers do not look for or expect coupons or premiums with Camels because they realize the value is in the cigarettes which stand every test against any cigarette in the world at any price!

Smoke Camels liberally without a comeback! You'll realize how delightful they are when you give them a thorough try-out! You'll prefer that Camel blend to either kind of tobacco smoked straight!
