

Never Neglect Colds; Treat Them Promptly

Often they lead to those pulmonary troubles which are responsible for more than one-tenth of all lives lost through illness.

Heavy colds which develop deep-seated coughs or cause inflammation of the air-passages and persist in spite of medication, weaken the system to a point where resistance easily is overcome and asthma, bronchial and pulmonary troubles are the result. To renew normal resistance, Eckman's Alternative has been found highly beneficial in many instances.

Its lime content is so combined with other remedial agents as to be easily assimilated by the average person—and it contains no narcotics or habit-forming drugs of any sort. So it's safe to try.

At your drug store.

Eckman Laboratory, Philadelphia.

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

Seven couples from Massachusetts and one from New Hampshire were married in Bellows Falls Easter Monday.

Miss Mary Gibson celebrated the 100th anniversary of her birth Saturday at her home in Hyde Park. She is in good health and retains all her faculties.

To the collection at the Memorial building in Hardwick has been added a small piece of wood taken from the house where Admiral DeWey was born, and on it is a picture of the house.

Since the pastorate of Rev. G. W. Peck, Jr., began in the Rutland Baptist church one year ago, 88 new members have been received into the church, the largest number ever received in the same length of time.

E. S. Rowley, who observed his 96th birthday anniversary at his home in Shelburne last Saturday, is hale and hearty and entertained his friends at an anniversary dinner. He is remarkably well preserved.

M. J. Powers of White River Junction, conductor, running between that place and Burlington and well known all over the state, who has been very ill with pneumonia for several months, was able to make his first run since that time on Monday.

Jennie, young daughter of Mr. and Mrs. Charles Needham of Brandon, stuck a pair of scissors into her right eye Saturday and was taken at once to the Mary Fletcher hospital in Burlington. It is thought the sight may not be entirely destroyed.

The young son of Mr. and Mrs. Ernest Ellis of Rutland is perhaps injured seriously as the result of a fall down the attic stairs recently. He was in the attic with his father and backed off the edge of the stairs, falling the entire length and tumbling a heavy baby carriage down on top of him. His condition is serious.

A young West Wardsboro lad went fishing a few days ago, his pet dog accompanying him. Soon after leaving home, the dog swallowed the bait (a doughnut), fishhook and all. It had gone so far down his throat there was nothing to do but cut the line and await results. So far the dog seems to feel no discomfort from his strange meal.

A work car, in which four employees of the Rutland railroad were sleeping, went over a steep embankment on Friday night, badly injuring all the occupants. They were taken to the Rutland hospital, being badly cut. Three other cars, which followed the work car over the bank, caught fire and were destroyed. The workmen had been painting railroad buildings at Chester and were on their way to Rutland when the accident occurred.

Horace Ballou, who was instantly killed by a train in Royanton last Wednesday, was 81 years old. He was walking between the railroad tracks near the freight depot as a reversed engine taking a wrecking outfit to West Hartford approached and, although the engineer blew the whistle vigorously, Mr. Ballou, who was very deaf, stepped over the rail just in front of the train and was instantly killed. He is survived by one brother.

Jerome Cole narrowly escaped instant death as he was walking along the street in Brandon a few days ago. Suddenly, without warning, a stick of timber eight feet long and about two inches in diameter was hurled from a circular saw in Flint's carpenter shop, through the window and over Cole's shoulder, ploughing up the ground ahead of him. So close did it come that one ear and his shoulder were grazed and three inches more in the right undoubtedly would have cut his head off, with such violence was the stick hurled.

To the list of homesteads in prominence lately from the long time they have remained in one family name must be added the English farm at Prosper, which has been in the same family since 1789, a period of 127 years. Joel English was the first settler on the land, living in a log house until in 1804 he built the present house and lived in it till his death. After him came his son, Henry W. English, then the latter's son, Charles H. English, and at present Lewis W. English, of the fourth generation, is carrying on the place. In the hall stands a tall clock purchased by Joel English, which has been steadily ticking away the minutes for 119 years in the same place.

Shortage of Labor in Bellows Falls.

A peculiar economic condition is faced by the Lustberg, Nast Co., which has leased a Bellows Falls factory and is making shirts there. The newcomers find it impossible to get as many girls as they wish for help. A year ago conditions were such that help would have been easily obtainable. The company has been anxious to hire help for three weeks now and has found it impossible to get more than 15. The pay is good and the work promises to be steady, as the firm has a good rating in the mercantile agencies. Housewives in Bellows Falls also find it a difficult matter to engage maids and other help.

The male employees of the Wyman Flint & Sons company and of the John T. Moore & Son company have been granted a voluntary increase of 29 cents a day and the girls and women have received corresponding increases. It is rumored that the International Paper company will grant its employees an increase of three cents an hour beginning May 1. Because of the European war, and the present prosperity of the country, it is difficult to obtain unskilled labor and the paper mills there find difficulty in coping with the situation, it is said by men employed in the mills.

Robinson & Bellows Falls are making changes on the underpass on River street in North Walpole and consider themselves fortunate that they have the Italian help that they need. But this was only possible by preparedness practiced by the firm. Mr. Robinson went to Boston more than six weeks ago, when laborers who work in construction gangs were not generally employed. He hired a large gang and they were put on important work in Walden, this state. This was done in order to have sufficient help when the spring work opened up.

BUSINESS CARDS

BAILEY'S MUSIC ROOMS
THE OLDEST AND LARGEST PIANO DEALERS NORTH OF BOSTON

If you are looking for a good instrument, call at their branch store, 14 Elm street, Barre, Vt.
