How to stop dandruff and loss of hair with Resinol

Here is a simple, inexpensive treatment that will generally stop dandruff and scalp itching, and keep the hair thick, live and lustrous:

At night, spread the hair apart and rub a little Resinol Ointment into the scalp gently, with the tip of the finger. Repeat this once the whole scalp has been treated. Next morning, shampoo thoroughly with Resinol Soap and hot water. Wash the creamy Resinol lather well into the scalp. Rinse with gradually cooler water, the last water being cold. All druggists sell Resinol Soap and Ointment.
