RANDOLPH

New Bell in Methodist Church Dedicated Yesterday.

The service at the Methodist church was in the form of a dedication of the new bell which was used at the morning service for the first time, on Sunday morning. The pastor, Rev. G. F. Crawford, gave a few remarks and a prayer followed, and the sermon was also along the line of the use of the bell, and what it signified. The choir had also appropriate music. The church here has been organized about 32 years, and since Mr. Crawford's pastorate here, which has extended over three years, the church has purchased a parsonage, and this year has re-decorated the interior of the auditorium and vestry, and now has the bell, which is the gift of several of the church members, one lady giving \$100 towards the purchase.

The friends of Robert Chamberlin, whose death was announced here last week, are pleased to learn that the report was false, but that he is now at the sanatorium, where he is thought to be improving. That he was critically ill from blood poisoning, caused by a wound upon his arm, was indeed true, but anti-toxin was given in great quantities, which relieved his condition, and his recovery is now expected.

Miss Emma Moses and Miss Carrie Eaton, who have been at Castleton for the last three weeks, attending the summer school there, returned home on Saturday night.

Mrs. A. E. Hastings and her daughter, Helen Hastings, went to Lowell, Mass., Saturday to visit Mrs. Charles Houghton, a sister of Mrs. Hastings.

Mrs. Ellen Lattimer and her daughter, Miss Doris Lattimer, went to Ware, Mass., Saturday for a two weeks' visit with Mrs. Carrie Williams.

Mr. and Mrs. Ernest Tracy went to York Beach, Me., Saturday to join Principal and Mrs. E. G. Ham for a two weeks' vacation.

Mrs. E. M. Woodworth has returned from a week's visit in Morrisville and Montpelier.

Mrs. A. H. Powers has been quite ill for the last week, with a stomach trouble, but is now thought to be improving.

Miss Maud Johnston left here Sunday for Lebanon, N. H., where she visited her mother to-day, and then with her sister went to Lowell, Mass., for a short stay, and from there went to York Beach, Me., for the next two weeks. During her absence Miss Sylvia Comstock will take her place in the Half Century store as cashier.

Charles Beedle of Keene, N. H., is passing several days with his brother and wife, Mr. and Mrs. A. H. Beedle.

Jacob Ryerson of Brooklyn, N. Y., has rented the house of E. I. Claffin for the season, and has brought his family here for the summer. Mr. Ryerson has gone back to the city, but expects to return later for a longer stay. Mrs. Claffin is passing the summer with relatives, and Mr. Claffin will attend to his business in town, and board.

BETHEL

Auto in Collision with Bridge Gets the Worst of It.

Luther G. Kent was returning from carrying passengers to Sharon Friday evening with his son, Safford Kent, driving the automobile, when a moment of inattention resulted in a collision between the car and the side of a covered bridge near South Royalton. Neither father nor son was hurt, but the car wheel was smashed and other parts of the car damaged, so that it was taken to a South Royalton garage for repairs, the Kents being taken home in another car.

Peter Parrott of Dannemora, N. Y., is spending the summer at the home of his son, Alfred Parrott.

Miss Kate Bullard has returned from nursing Guy Crowell of East Barnard, who was thought to have sustained fatal injuries when his automobile went over a bank three weeks ago. He is now considered out of danger.

Mrs. William T. Gifford of Hartford, Conn., came yesterday to visit her parents, Mr. and Mrs. Henry W. Preston.

Mrs. S. H. Preston of Waseca, Minn., was here yesterday to see Miss Kate Bullard.

Mrs. Fred A. Marsh visited a sister in Rutland last week.

Mrs. R. W. Morse returned Friday night from Brooklyn, N. Y., where she spent three months with her daughter, Mrs. N. M. Lord. A week ago Mrs. Lord and Katherine, went to a Long Island summer resort in order to be safe from the epidemic of infantile paralysis now prevailing in Brooklyn.

John Kelleher and Daniel Carney were in Barre Saturday to attend the baseball game.

Mr. and Mrs. W. A. Woods and three children of Waterbury were at Mrs. Annie Abbott's Saturday on their way home from spending two weeks at Barnard lake.

Miss Jo Goodyear, formerly a teacher in town, was married at her home in Hancock last Saturday to Fred E. Haynes of South Royalton. Rev. E. L. M. Barnes performed the ceremony. Mr. and Mrs. Haynes will live at South Royalton.

Rev. Robert C. Wilson was in Randolph Center yesterday to hold service in Grace church.

Mr. and Mrs. N. G. Clifford of Burlington are visiting at C. G. Clifford's.

Mr. and Mrs. William H. Stoneman and family of Albany, N. Y., were guests over night at the Bascom house.

PARISIAN SAGE

Puts Hair on Your Head and Helps to Keep It There.

What's the use of being bald? What sense is there in deliberately allowing your hair to turn gray? Do you want to look old before your time? Give up the thought; old age will come all too soon.

Look after your hair. Parisian Sage is a scientific preparation that supplies hair needs—keeps it just what you want. It aims to prevent grayness and baldness by setting life and nourishment into the hair roots.

Man or woman, no matter how old you are, Parisian Sage will help you to look younger and more attractive. Why not use the Red Cross Pharmacy and get a large bottle to-day? It will not cost more than 50 cents, and your money back if it does not cure dandruff, stop falling hair, or itching of the scalp. It will make your hair lustrous, bright and beautiful. It is a most refreshing, pleasant and invigorating hair dressing and absolutely harmless to the hair and scalp.—Adv.

FATIMA A Sensible Cigarette

MEN WHO appreciate efficiency in little things as well as big have been quick to see the wisdom in sticking to a cigarette like Fatima.

Fatimas are comfortable while you smoke them and after, too. That is why Fatimas, with their delicately balanced Turkish blend, always leave a man feeling "fit" even after a long-smoking day.

ROCHESTER

Mrs. Susan Tupper and Mrs. Herbert Cushman were in Montpelier last week to visit R. H. Tupper and family.

Mrs. Frances Hodgson Burnett's story, "Little Lord Fauntleroy," will be presented by local talent in G. A. R. hall Wednesday evening, July 26.

Mrs. John Slatter and son, Hubert, are spending two weeks at her home in South Barre.

A daughter was born to Mr. and Mrs. Walter Severy, July 5.

Supt. and Mrs. Erskine were in Rutland last week.

Roy Stanley of Lowell, Mass., has been a recent guest of Mr. and Mrs. F. O. Kennedy.

Miss Anna Cook of Forestdale was a guest of Mr. and Mrs. Marvin Cook for a few days last week.

Mr. and Mrs. Clifford Knapp of Mineville, N. Y., visited at Luther Bailey's recently.

Prof. and Mrs. Harrington of Middlebury college are boarding at Hotel McCray for a few weeks.

Miss Glendene Ball is entertaining her friend, Miss Jason, of New Bedford, Mass., for a few weeks.

HANCOCK

Mr. and Mrs. Walter Scott visited relatives in Ripton last week.

Misses Bessie and Mamie Hubbard, Howard and Wayne Dunham, spent the Fourth in Barnard.

The children of the Sunday school enjoyed a picnic in Farr's woods on Thursday of last week.

Rev. and Mrs. E. W. Sharpe of Brattleboro were present at the services at the church yesterday.

Mrs. Arthur Drake and two children of Randolph visited at Charles Roberts' last week.

Charles Blyard of New York City is in town.

Ruth Riley visited relatives in Bethel last week.

Chester Lewis and family have moved to Keene, N. H.

Mrs. Leon Claffin and little son have gone to their new home in Bennington, N. H., where Mr. Claffin has worked for the paper company.

Mrs. Charles Blair and two sons and Mrs. William Church and two children visited relatives in Warren last week.

Coal in Oklahoma in 1915.

The production of coal in Oklahoma in 1915 amounted to 3,693,380 short tons, valued at \$7,435,906, a decrease of 295,033 tons, or seven per cent in quantity, and \$768,109, or nine per cent in value, according to figures just published by the United States geological survey. The markets for Oklahoma coal in the South were affected by the cotton congestion in the early part of the year and by the increasing use of fuel oil and natural gas. The rise in the price of crude oil later in the year encouraged the coal operators to expect a widening of their markets and increased business. All counties except Latimer had decreased output in 1915. The number of men employed increased from 8,078 in 1914 to 8,457 in 1915, and the average number of days worked per man declined from 205 to 167.

Examine Your Investments.

then examine ours. See whether you have done better with money than we have. Some folks claim they can handle their money better than the companies. Can. Do you do it? National Life Ins. Co. of Vt. (Mutual). S. S. Ballard, general agent, Rialto block, Montpelier, Vt.

THAT FORTY INCH WAIST.

It Means Overeating, Underexercising and Future Poor Health.

"Beware of a forty inch waist line," says a bulletin from the North Carolina state board of health. "Ten to one the man who is five feet eight inches tall and forty inches about the waist will sooner or later have to consult a doctor for gallstones and kidney trouble and most likely for Bright's or some other serious disease."

"Forty inches about the waist is an abnormal size and condition and shows that he who carries such a burden around with him has an appetite of an abnormal size and proportion. It further shows that something is wrong with his diet or that his energy is reduced to naught. His appetite is either several sizes too big or he 'eats tight' on exercising. Most likely he eats excessively of meats, pastries and heavy foods, which means overworked kidneys and faulty elimination."

"There is usually one, and only one, diagnosis to be made of this class—'fat and forty.' Their bulkiness, flabbiness and shortness of breath are symptoms having for their cause 'overfed and underworked.'"

The bulletin concludes with, "Overfeeding contributes more to disease and premature deaths than underfeeding."

Origin of Dollar.

The dollar was originally a Joachimsthaler-gulden-groschen. But that name was too long for general use, and it was cut down to thaler, which was transliterated into the present form. It could not be either a gulden or a groschen, because the gulden had always been mined of gold. It was not a groschen, because that coin was of small value, so the two were combined. The essential part of the name was Joachimsthal, or Joachimsthal, as it is now spelled, the Joachim valley, in Austria, from which the silver was derived for the minting of this large coin. As that great silver mine is located in Bohemia, the original thaler was the Bohemian dollar. Those silver mines have since attained worldwide fame, because they are the source of radium, but the dollar comes closer home to most of us.

I know Resinol will heal this rash

I never worry if I have a little rash or other eruption break out—I just put on a bit of Resinol Ointment. That takes out the itching and burning instantly, and soon clears the trouble away. I learned of Resinol Ointment through our doctor prescribing it for my brother. Tom had been almost frantic with eczema for months but that ointment healed his skin like magic. Resinol Ointment is sold by all druggists.

Measuring Housework.

Since science has put its mind upon household problems, the housekeeper needs an all-around scientific training merely to keep up with new developments in her profession. One of the most amazing of these is a machine for the measurement of the amount of energy a woman expends in various household tasks. It goes by the name of a respiration calorimeter. By means of it, scientists expect to find out exactly the easiest way to do every sort of housework. The calorimeter is a large, double-walled cabinet, and the subject of the experiment is sealed up in it for the whole day. Every ounce of energy expended by this person will raise the temperature inside the cabinet, and these changes are recorded by a thermometer, and computed in calories. Thus you can find with scientific accuracy whether it is more work to wash potatoes with a perforated masher or a solid wooden one, and how much energy you save by using a vacuum cleaner instead of a broom. The scientists have already determined that it takes less energy to accomplish the same amount of work at a high kitchen table than a low one. They also say that in the course of time domestic servants will be paid on the basis of the amount of energy required for their tasks, rather than the amount of time.

PAGE'S SHAM BALLOT Likened to a Burlesque and Stamped a Fake by a Leading Vermont Editor Worthless As Indicating Any Degree of Public Sentiment The Bennington Evening Banner, published and edited by former Lieutenant Governor Frank E. Howe, in its issue of July 13th analyzes the straw vote taken by the Lyndonville Union-Journal in the interest of Senator Page. The Banner characterises the effort, as conducted by the Lyndonville paper. "A Sham Ballot," and charges that it was not a genuine undertaking, "not a bona fide attempt to sound public opinion," but rather that it was a "plant," (meaning that the result was determined before the canvass was made) to influence the public mind in the interest of Senator Page upon a false and faked premise. And the Banner concludes its caustic analysis of this method of straw vote taking by classing it with the burlesque, which is a stage upon which senators are seldom seen in daylight. It is well worth the time of every reader to peruse carefully what the Banner has said on this alleged straw vote. It is here given in full: Senator Page's first installment of political advertising has appeared and is a pitiful bit of false reasoning based on manifest humbug. Senator Page has a great deal of strength, business sagacity, and is a man of many fine qualities. It seems to the Banner a terrible thing for him to start a campaign for the high office of United States Senator on subterfuge. Are the voters of Vermont children to be fooled by a fairy story? In the first place the Lyndonville Union-Journal didn't take a straw vote of Vermont Republicans on the Senatorial issue. There wasn't a genuine poll taken and the actual results of even the fake poll have not been printed. A genuine poll would have included the names of at least three other men in addition to Page and Fletcher and a correct statement of the result would have told the number of ballots sent out and the number who did not reply or who answered in opposition to both the men suggested. Further than this we do not believe that the alleged straw vote was a bona fide attempt of the Lyndonville Union-Journal to sound public opinion. This is purely a guess on the part of the Banner, but the whole affair indicates that it was a "plant" by Senator Page or some worker in his behalf and carefully planned to show a preponderance of sentiment in his favor. The straw vote of the kind taken would cost not less than \$300 as stamped returned envelopes were sent for replies. John B. Chase, editor and publisher of the Union-Journal, is a country editor in a small town and we do not believe that he spent or could afford to spend upwards of \$300 on any enterprise of the sort. Mr. Chase is an independent voter of Democratic leanings, but a personal friend and admirer of Senator Page. He had a perfect right to do the senator a favor by polling his alleged straw vote for him and to let the senator pay the cost, but it is not to be taken seriously. Anyone has the right to form an opinion from the evidence at hand. We do not claim to have any proof in the matter but the case does not seem to be very obscure. It is manifestly not important just how the list was made out so long as it was sent mainly to partisans on the Page mailing list. A ten minute canvass in any town in Vermont will prove the utter humbug of the affair. The real point is that the so called straw vote was known to be of no value even before the result was partially announced. To attempt now to make it the basis of an argument to the citizens of Vermont is like attempting to buy real goods with imitation money. The Republican voters of Vermont on Sept. 12 are to decide by direct vote whether they want Senator Page for their candidate again or whether they prefer another. Senator Page has been eight years in the United States senate. What the voters want to know is whether his work there warrants his retention. It is only two months to the primary and comedy stuff like the Union-Journal's poll ought to be put away with the other tinsel and trappings of the first act. Senator Page might gratify the desire of many loyal Vermonters if he would for a brief moment drop his straw-vote taking, his prolific letter writing, his personal and all the other methods resorted to in his attempt to keep other men out of the senatorial contest, and reply to his interrogators. Thousands of people in Vermont desire to know what Senator Page has stood for and what he has created in the way of progressive constructive legislation the eight years he has been a senator. Will Mr. Page Answer? —The Allen M. Fletcher Senatorial Club. Northfield, Vt., July 15, 1916.
