

When We Talk Whittall Rugs

We want you to know what we are talking about. We always feel that we can talk pretty big when we get on this subject, because we know, no matter how much we say, we cannot exaggerate their good qualities.

1. The Whittall line of Rugs and Carpets is the finest made in America.
2. Every rug and yard of carpet is made on honor and every rug and yard of carpet bears the trade mark "Whittall's" woven into its back—the trade mark is the proud guarantee of the manufacturer.
3. The materials and workmanship that go with these rugs are unequalled.
4. The dyes are tested in thirty days' direct sunlight, and no dye that will not bear this test successfully is used in the manufacture of Whittall goods.
5. Their reputation for beauty and splendid wearing qualities is world-wide.
6. The line is large and contains just the rug you want in just the size and quality you want it and at the price you can afford.

We show the largest stock of WHITTALL RUGS in this section of the country. We are anxious to add our personal guarantee of excellence to that of the manufacturer.

A man, O. H. Gale, came to The Times office yesterday to inquire if there were any Gales now living in Barre. It developed in the course of the discussion that followed that he is the son of Orlando Charles Gale, and the grandson of George Gale, both at one time residents of Barre and members of the old Gale family connected with Barre's early history. With Mrs. Gale and Mr. and Mrs. W. D. Wood of Detroit, he had come all the way east from Albion, Mich., his prime motive being to see the old town he had heard so much about in connection with his family's history. Orlando Charles Gale left Barre when he was 12 years old and set out for Michigan in company with his father, George Gale, who had accumulated some \$600 as a cabinet maker. They reached Detroit safely but when they opened their trunk found that the \$600 was missing. With Vermont resourcefulness they worked their way to Albion, where the elder Gale in time founded the Gale Plow Co., a concern now employing some 600 men. Mr. Gale, himself, is in the hardware business, a business founded by his father, while a brother is in charge of the plow factory. Mr. Gale went yesterday afternoon to Montpelier to see Charles Gale, a relative, who is revising an old edition of the family history. Later on the party will return to Michigan in the Oldsmobile car in which they have been touring, already having covered New England.
