

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

Walter R. Johnson of Greenfield, Mass., is a visitor in the city. He came to attend the funeral of his grandfather, David Holles.

Rev. C. H. Chapin has left Springfield for Huntington, Mass., where he goes to take up a new pastorate. He has been pastor in Springfield for five years and a half.

E. H. Martin, whose home is in Burlington, and who for 31 years has been a traveling salesman with Vermont as his territory, has retired and will take at least a year for rest.

The three-year-old daughter of Mr. and Mrs. Antonio Selza of White River Junction, who was very badly burned Dec. 15, died the next day at the Mary Hitchcock hospital in Hanover.

Mr. and Mrs. James H. Riley, who observed their 25th wedding anniversary in Lebanon, N. H., Dec. 20, have had 15 children, 13 of whom survive. Mrs. Riley was Mary Ellis of St. Johnsbury.

Eugene Delage, who was injured last week by falling four stories with an elevator at the Winooki woolen mill, died at the Mary Fletcher hospital Thursday morning of internal injuries. He did not seem much hurt when taken to the hospital, but grew rapidly worse.

Albert B. Preston, a 79-year-old Sharon man, went into the woods for a load of logs one day last week and on the way home his steers ran away and he was thrown to the ground. The load of logs passed over one leg, breaking both bones below the knee. He is doing well.

Articles of incorporation have been filed by the Tunbridge Co-operative Creamery, Inc., of Tunbridge, with a capital stock of \$5,000. The subscribers are J. S. Farnham, Welch brothers, E. J. Bugbee and 15 others, and by the Polish Christian Store corporation at Bellows Falls, the subscribers being Joseph Michieniez, John Filipowicz, Charles Wolak and Benedykt M. Nachorjick of Bellows Falls.

B. A. Cummins, brother of Mrs. Frank E. Howe of Bennington, was under attention by shooting in Winnipeg this fall a moose which bore evidence of having carried a bullet in its heart for at least a year. The bullet was found firmly embedded in that member, the wound made by the shot having healed. Mr. Cummins, president of the First National bank of Pierre, S. D., had had the skin mounted and the heart embalmed and intends to present both to the state historical society at Pierre, of which he is a member.

Medical Detachment Transferred. Official notice is given by Adj. Gen. Lee S. Tillotson that the medical detachment of the 1st Vermont infantry had been removed from Burlington and will now be stationed at Pittsford. The detachment, after a few days' following the service on the border, shrank to less than half a dozen men and on account of the slowness in recruiting it was deemed advisable to remove the headquarters. Dr. William H. Mitchell of Shelburne, who served as lieutenant with the detachment, has resigned.

RECENT DEATHS OF VERMONTERS

William Henry Flint died at his home in Brandon Wednesday morning at 7:30 o'clock after a few days' illness with bronchial pneumonia. Mr. Flint was born in Leicester Dec. 21, 1842, but had lived in Brandon most of his life. He was prominent in state and local Grand Army circles, having held many offices of trust in the organization. He enlisted in the 2d Vermont battery, light artillery, Oct. 22, 1861, as a corporal, was promoted to sergeant April 13, 1862, and was discharged July 11, 1864. He re-enlisted as hospital steward and served to the end of the war, being discharged Sept. 23, 1865.

He was one of the most prominent members of C. J. Ormsbee post, G. A. R., of Brandon and had held every office in the organization. He had been elected commander several different times. At the last election of officers he was elected quartermaster, an office which he had held for a number of years. He always attended all Grand Army encampments, not only as a delegate from C. J. Ormsbee post, but from the state as well. He is survived by his wife and three daughters, Mrs. Frank Sanderson of Brandon, Mrs. Burt Thomas of St. Albans and Mrs. Charles Keeler of Westboro, Mass.

Laurette Taylor Advises Young Actresses to Play in Stock Companies.

Laurette Taylor, the famous actress, tells about her experiences on the stage in the January American Magazine. She says:

"Playing stock is an advantage, if you don't allow the praise that you get from people who really don't know to upset you. They get to know you, and send you real home-made pies and pin-cushions and name their babies after you—according to sex, of course. This week you come on as Camille. Loud applause! Next week you come on as Topsy in 'Uncle Tom's Cabin.' Wonderful! You may be too fat or too tall or too blond. But everything you do is 'wonderful!' You forget that it is you, their favorite personality, the audience is applauding, and not the actress' work, and you mix the two things up if you don't look out. In stock, throughout the country, an actress plays parts she never would dream of playing in New York—Camille, Carmen, and so on. I wouldn't think of playing Camille until Bernhardt had been dead for years and year and memories of her had been wiped out. I went to see Bernhardt when she was here four or five years ago—went to see what I had been led to believe was the remnants of a great actress. People said: 'She's nothing like she was. She has lost her figure and her beautiful voice. Don't go. If you go, don't sit too close.' But I went, hoping to catch something from her Camille. I never was thrilled like it; never saw anything as it was that last night."

Fortunate.

Tommy—Say! These oysters are very small! Oysterman—Yes, sir. Tommy—And they don't appear to be very fresh! Oysterman—Lucky they're so small, then, ain't it, sir?—London Opinion.

KEEP COWS RECORD.

Value of Cow Testing Associations Demonstrated.

That the appearance of a dairy cow cannot be depended on to indicate her production of milk is illustrated by a demonstration conducted under the auspices of the dairy division of the department with a herd of nine cows at the national dairy show held recently at Springfield, Mass.

A year's record of milk and butter fat already had been made for all the cows of the herd. During the show complete records of production and feed consumption were kept and in every case the previous records were duplicated. Some of the cows were of poor dairy type, yet were good producers; others were of good dairy type, yet were poor producers; still others of similar appearance had greatly different records. Of the last-named class were Nos. 8 and 9. Many experienced stockmen selected No. 9 as the better of the two, but the records showed that for the last year No. 8 gave 8,445 pounds of milk and 316 of fat compared with 4,279 pounds of milk and 198 of fat for No. 9. This served as an object lesson to the hundreds of people who daily viewed the demonstration that good dairy type is not always associated with large production and that poor dairy type does not indicate lack of large yield.

"What does it cost to keep records?" was a common question of the dairymen. In cow-testing associations, where the above quoted records were made, the charge is \$1.50 a month for each cow, and in addition the board of the tester for one day each month. With feed, labor and livestock so high, it certainly is imperative to eliminate every unnecessary expense like the "boarder" or "robber" cow that fails to pay for even her feed.

In the big room at the dairy show where the cows were stanchioned were several hundred comfortable seats. Here several times each day well known dairymen from various parts of the country talked to the large audiences on dairy problems, illustrating their remarks with the cows of the demonstration herd. Especial emphasis was laid upon the value of records in economical management.

Co-operative bull associations were carefully described and their many advantages explained. That it was possible to have high class bulls of the finest breeding for the use of a dairyman with only a few cows seemed to many farmers as too good to be true, especially when the cost was even less than in the case of scrub bulls. In this connection the charts that illustrated the conditions at Roland, Ia., before and after the organization of a bull association, elicited much interest. At that place, for a yearly investment of \$7.50 each, the members have the use of five \$240 bulls for 10 years.

On the walls of the demonstration room were pictures of famous dairy animals, charts showing results of record keeping, etc. Adjoining were skeleton milk or dairy houses, with the sides only partially finished, to show the construction; also a model of a dairy barn and of a silo. In the milk houses was dairy equipment, and a man in charge answered questions on dairying and explained the construction of these and all other kinds of dairy buildings.

At regular periods demonstrations in the sterilization of milk utensils were given with the inexpensive farm sterilizer described in farmers' bulletin 748. These demonstrations were well attended. There was also keen interest in every part of the demonstrations, as may be judged from the fact that about 5,000 people listened to lectures and fully 15,000 viewed the exhibits.

More People Succumb to worry than to the troubles they worry about. A life insurance policy helps one to avoid worry. National Life Ins. Co. of Vt. (Mutual), S. S. Ballard, general agent, Rialto building, Montpelier, Vt.

Come Down. He—I could love that girl in green. She—Oh, don't be so boastful—Jack-o'-lantern.

Why Suffer From Migraine or Sick Headache?

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are cautioned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures during the attack are all that it is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two anti-kamnia tablets when the first symptoms appear, and one anti-kamnia tablet every two hours during the attack shortens it, eases the pain and brings rest and quiet. Anti-kamnia tablets may be obtained at all druggists. Ask for A-K Tablets. They quickly relieve all pain.

BELLANS Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

10,000,000,000 Tons of Coal.

The Nennana coal field, Alaska, is tributary to the government railroad now under construction from Seward to Fairbanks. Though the coal of this field is lignite and hence of low grade, yet it has great value as a source of fuel and power for Fairbanks and other Yukon placer camps. The field is about 60 miles south of Fairbanks. It is estimated by the United States geological survey, department of the interior, that the Nennana field contains some 10,000,000,000 tons of lignite. The Nennana coal field lies in what is known as the Bonfield region, which also contains some gold placers that have been mined in a small way for the last 10 years. This district is described in a report entitled "The Bonfield Region, Alaska" (bulletin 301), which can be obtained on application to the director of the geological survey, Washington, D. C.
