

NEWBRO'S HERPICIDE

To Have Beautiful Hair Use NEWBRO'S HERPICIDE

No woman can afford to be indifferent to the appearance of her hair. A mass of nice snappy hair, becomingly dressed, will add more in genuine looks than a pretty face, or an expensive gown. Don't allow the scalp to become clogged with dirt and dandruff. Don't allow dandruff to destroy your hair. If your hair is uneven, dead, dull and brittle and comes out by the handful every time you draw a comb through it, dandruff is the cause. To rid your scalp of the dandruff and check the loss of hair should be your first anxiety. NEWBRO'S HERPICIDE will do this and at the same time put the hair and scalp in a sanitary condition. HERPICIDE appeals to those of greatest refinement on account of its exquisite odor, its purity and cleanliness. It contains no grease and does not stain or dye. There is nothing more dependable than this remarkable scalp prophylactic. The hair responds readily to a regular and intelligent use of NEWBRO'S HERPICIDE.

Try it and see. Send 10 cents today to THE HERPICIDE CO., Dept. S, Detroit, Mich., for a sample bottle and a booklet telling all about the hair.

For sale everywhere in 50c and \$1.00 sizes. Guaranteed by The Herpicide Company.

Applications at the better Barber Shops and Hair Dressing Parlors.

BUSINESS GIRLS LIKE CUTICURA

Because it keeps the hands soft and white, the complexion fresh and clear and the hair live and glossy. CUTICURA SOAP cleanses, purifies and beautifies, the Ointment soothes and heals. Sun, wind and dust all do their best to ruin the complexions of those subjected to them. Business girls who must face all kinds of weather find that Cuticura does much to protect their skins and keep them looking their best. Sample each free. Address post-card: "Cuticura," Dept. 13F, Boston. Sold everywhere.

DEATH PENALTY TO ALL SPIES

War Conditions to Govern in the Case of Convictions

GREAT MASS OF EVIDENCE

Officials Fear to Give the Facts of the Case to the Public

Washington, April 14.—Secret service men of the United States who have been doing extremely efficient work for months have secured a mass of evidence as to almost unbelievable plots, machinations and intrigues by Germans against the peace of the United States. Comparatively few arrests have been made, but many more are coming. The extreme penalty of death may be invoked against such offenders under war conditions. So condemning is some of the evidence that officials at Washington fear to give it out. Innocent German-Americans should be made to suffer from anti-German demonstrations. Some of the plots have borne fruit in munition explosions, incendiary fires and attempts to destroy bridges. There have been numerous attacks on sentries guarding railroads, waterworks and places of military value—a part of the general spy plotting scheme which has been in operation in the United States long before the European war began.

It is an open secret that the department of justice is in possession of almost unbelievable facts showing that German agents have been trying to stir up dissension in the United States. Some arrests have been made, but persons taken into custody comprise only a small proportion of the spies who have been active for months. Other arrests are anticipated momentarily. If convicted, death will be their penalty, now the country is at war.

"NORMAL" ON ITALIAN FRONT. Enemy Temporarily Entered Trenches, But Was Soon Ejected.

Rome, April 14.—The following official statement was issued Thursday by the Italian army headquarters: "Artillery action has been normal along the whole front. Last night after violent artillery and trench mortar preparations the enemy succeeded momentarily in entering one of our advanced trenches east of Vertoba, but was immediately driven off on the arrival of our supports. The enemy left in our hands a few prisoners and some materials."

WANT LABOR LAWS SUSPENDED.

Secretary Baker Makes Request That Power Be Given Governor.

Hartford, Conn., April 14.—By letter, which Gov. Holcomb sent to the general assembly yesterday, Secretary of War Newton D. Baker, for the council of national defense, has requested the general assembly to delegate to the state's executive the power to suspend or modify restrictions contained in labor laws in the interest of the public defense for the period of the war. Secretary Baker in his letter says the request is made in accordance with resolutions adopted at a recent meeting of the council of national defense.

Goethals Will Consent.

Washington, April 14.—Major-General George W. Goethals will accede to President Wilson's request that he take general charge of the construction of wooden ships planned by the shipping board to carry supplies to the entente allies. While no formal reply from General Goethals has been received, officials have information that he will undertake the work.

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE
35 St. Rose St., Montreal, April 4th.

"For over two years I was sick and miserable. I suffered from constant headaches, and had palpitation of the heart so badly that I feared I would die. There seemed to be a lump in my stomach and the constipation was dreadful. I suffered from Pain in the Back and Kidney Disease.

I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no headaches, no palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health."

MADAM ARTHUR LAPLANTE.

BETHEL

Funeral of F. B. Gilman Was Held Friday Afternoon.

The funeral of F. B. Gilman was held yesterday afternoon at his late home, Rev. J. Wesley Miller officiating, and the burial was at Cherry Hill cemetery. The bearers were A. C. Batcheller, D. A. Everett, T. E. Mead and F. C. Putnam. There were many floral offerings. From outside of Bethel and Royalton there were present a brother, Arthur A. Gilman and Mrs. Gilman, Mr. and Mrs. Monroe Lamb and Cyrus Parker of Randolph Center, Mr. and Mrs. Truman E. Mead of Brattleboro, Fred S. Bowen and G. R. Walker of Stockbridge. A brother and sister unable to be present were Rev. Burton Gilman of Gardner, Mass., and Miss Alice D. Gilman of Randolph Center.

Dr. F. A. Edmunds has sold his home place on Church street to J. F. Demers, who will occupy it in the near future.

Mrs. George H. Wight has learned of the death of her brother, George Turner, aged 67 years, Thursday at South Royalton. He moved to that village two years ago after selling the farm in Tunbridge which had been his home from birth. Other sisters surviving are Mrs. Polly Gifford of South Randolph and Mrs. Belle Rowell of South Royalton. The funeral was held this afternoon at the Methodist church in South Royalton. Miss Mary Stevens, who has spent the winter in Randolph, was here this week making arrangements to reopen her house on Church street about May 1.

AMUSEMENT NOTES

"Gypsy Love" Musical Feast.

Barre is promised the musical treat of the season when melodies, romantic operetta "Gypsy Love," regarded as Franz Lehár's most sensational success since he gave the world "The Merry Widow," comes here to play an engagement Monday night, April 16.

Fery in atmosphere and of unusual color, picturesque and intensely romantic in its whole appeal, "Gypsy Love" is a true lyric opera. Its story is that of Zorka, daughter of a rich noble whose romantic nature rebels at the marriage arranged for her, and who is fascinated by the wild melody and still wilder words of a gypsy violinist. So wrought up is she by this Jozsi that, on her wedding day, while the guests are assembled, she promises to run away with the gypsy at dawn. In pursuance of an ancient Hungarian superstition she drinks the water of the River Caerna, and her future is revealed to her in a dream. This dream comprises the whole second act. In it she sees herself married to Jozsi by the simple gypsy rite of taking hold of the opposite end of a handkerchief. She travels with him, sing and dancing their way through the country. She loves him but is filled with shame at her position. She seeks a proper marriage with Jozsi, but he refuses and flirts with another girl. In her rage she attempts to kill her rival.

In the opening of the third act Zorka is just awakening from her dream, and at that moment Jozsi comes to her and reminds her of her promise to elope with him. Warned by her dream she refuses, and carries out the wedding for which the guests are assembled.—adv.

GRAIN PRICES GO UP.

May Wheat Sells at \$2.25 a Bushel in Chicago and May Corn Reaches \$1.38 1/2.

Chicago, April 14.—After a weak opening, wheat took an upturn, advancing 5 1/2 cents a bushel from Thursday's high figure, to \$2.25. May corn also went 2 1/2 cents above Thursday's high and sold at \$1.38 1/2.

The quartet will sing "The Roseate Hues of Early Dawn" (Kingsley) and "I'm a Pilgrim" (Marston). Offertory solo, "The Lord is My Shepherd" (Vanderwater); Miss Inglis.

FLOUR \$14.50 IN BOSTON.

Food Prices Take Another Jump—Butter 52 Cents.

Boston, April 14.—Prices in food in Boston took another jump yesterday. Flour went from \$13.75 to \$13.50, which was the price quoted Thursday, to \$14.50.

Wheat and corn in the markets surged higher. On the exchanges yesterday, wheat sold at \$2.20 1/2 and corn at \$1.35 1/2. A steady advance is predicted in the wheat market.

Butter took a sudden jump of three cents a pound. The best quality is selling to-day at 52 cents, that Thursday brought only 49.

Potatoes remain at 90 cents a peck and sugar is still at nine cents a pound. Onions of the common variety are bringing 15 cents a pound, while Bermuda sell at 27 cents a pound.

Hard hit by the fishermen's strike and the storm early in the week, the fish markets made a general advance.

General Sporting Notes.

The fans around the major league circuit will miss the graceful Lajoie, and all wish him success in his new line of work, that of managing a minor league team.

Those world's champion Red Sox are beginning where they left off last fall and going strong.

The Giants have what appears to be the greatest list of kickers in the game to-day. The infield with Herzog, Fletcher and Zimmerman are some trier, and there is some hot temper in the outer garden.

Buck Herzog started the season by kicking over an umpire's decision right off the reel. He protested vigorously when Umpire Byron called a ball on Rabbit Maraziti that Buck claimed the Rabbit struck at.

GROTON

A BAD WRECK—of the constitution may follow in the track of a disordered system, due to impure blood or inactive liver. Don't run the risk! Doctor Pierce's Golden Medical Discovery cures all disorders and affections due to impure blood or inactive liver. The germs of disease circulate through the blood; the liver is the filter which permits the germs to enter or not. The liver active, and the blood pure, and you escape disease.

When you're debilitated, and your weight below a healthy standard, you regain health and strength, by using the "Discovery." It builds up the body.

Sold in Tablet or Liquid form. If your dealer does not have it, send 50 cts. for the Tablets, Dr. V. M. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

To Prevent Old Age Coming Too Soon!

(BY L. H. SMITH, M. D.)

Toxic poisons in the blood are thrown out by the kidneys. The kidneys act as filters for such poisons. If we wish to prevent old age coming too soon and increase our chances for a long life, we should drink plenty of pure water and take a little Anuric.

When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired worn-out feeling, the simple way to overcome these disorders is merely to obtain a little Anuric from your nearest druggist and you will quickly notice the grand results. You will find it many times more potent than lithia, and that it dissolves uric acid as hot water does sugar.

SOUTH BARRE

South Barre grange held its regular meeting April 12. The program was in charge of the gentlemen and was enjoyed by 62 members, which was a good number considering the night. The program was as follows: Recitation, "The Burial of Sir John Moore," James J. Hill, who responded to an encore; discussion, "Which is the most profitable, diversified farming or dairy farming?" Richard Lawless and George Adams; reading by Del Custer; current events, Guy C. Howard; discussion, "What can the members of the grange do to improve our village?" John Nichols made several good suggestions, among them improving our sidewalks, suggesting the people turn out some afternoon, those having teams to use them, and everybody help; recitation, "Poem on the Death of J. Whitcomb Riley," Walter Carr, followed by encore, "As the Flag Goes By." Eugene Bourice greatly entertained and mystified his audience with sleight of hand performing. Next was a discussion, "Which is the most profitable, selling milk at five cents a quart or separating and selling cream and feeding the skimmed milk to the hogs and calves?" E. E. Bancroft and M. L. Towne; reading, William Dudley, who responded to an encore; song, "On the 5:15," Cassius Camp and Stanley Marsh, accompanied by Robert Foster, elicited much laughter from the audience and they were called back again and again. Mr. Seeger gave an interesting talk on "Preparedness Plan for Food in Vermont." "America," sung by all, concluded the entertainment. The next program will be in charge of the ladies. Now who is going to get that supper?

PATRIOTISM BEGINS AT HOME.

Corn and Hogs and an Army Considered by Expert.

In emergencies it may be necessary for some patriots to unyoke the oxen and leave the plow standing in the furrows, but the last support of the nation requires efficient patriots to keep the plows going. The soil supports the corn; corn supports animals; corn and animals support an army; and "armies fight on their bellies." Let us properly care for the goose that lays the golden egg.

Whether corn prices are high or low, the farmer's profit depends on obtaining large acre yields. Large acre yields reduce the expense of both labor and land. It is remarkable that acre yields are increasing most rapidly in the states southeast and the states north and west of the corn belt states. These increased acre yields are largely due to earlier and thicker planting of better seed corn. Unnecessary losses from planting poor seed corn are diminishing as it is becoming better realized that neither frosts nor droughts can exterminate good acclimated varieties if sufficient seed be saved from good crops to last until another crop is obtained. Good seed corn will retain its powers of germination and production for four or five years.

Assurance of a Good Corn Crop.

In the northern third of the United States, corn yields are reduced by lack of heat more than by all other causes combined. The soil freezes to such great depths that the corn crop is slow in starting in the spring, unless assisted by deep spring plowing and frequent early cultivation. The object to be kept in mind in preparing the land is to cause it to warm up rapidly in the spring. Methods that permit air to enter the soil freely will assist the soil in becoming warm. The surface should be kept open and as dry as possible.

Planting.

With due care in preparing land and

Mrs. J. T. Darling has been on the sick list for the past week with a rheumatic trouble.

A spark from the chimney set fire to the roof of F. M. Page's house Wednesday noon. The fire was soon discovered and extinguished with hand chemicals before much damage was done.

Miss June Collins, who teaches in Plainfield, visited Miss Pearl Keenan Wednesday and Thursday.

A large flock of wild geese passed over this village yesterday morning, going northwest. The flock was an unusually large one, and were flying so low that their color was distinctly visible.

Mrs. H. P. Ricker, teacher in the grammar room of the village school, was ill the first of the week, and her place was supplied Monday, Tuesday and Wednesday forenoon by George H. Miles, school director.

Frank and William Foley were called to Warren Monday afternoon by the critical illness of their mother, William returned Thursday night, leaving his mother, who is ill with pneumonia, slightly improved.

Mrs. A. G. Welch and daughter, Norma, of Melndoes are visiting Mr. and Mrs. S. D. Ralston.

Miss Louise Lewis was a visitor in St. Johnsbury Thursday and Friday.

At the Baptist church Sunday morning the topic of the sermon will be "Some Things That Follow from the Faith That Saves." At the evening service, "How to Grow in Grace."

At the Methodist church the subjects will be, "The Eleventh Hour Duty" and "The Propriety of Wanting Something Better." This will be the last service before conference.

Keeping Yourself Well

That Lingering Cold

is a steady drain on your physical stamina. It impoverishes the blood, distresses the digestion, and exhausts your vigor. It affords a fertile field for serious infection and is likely to become chronic.

You Needn't Suffer

from it if you will take Peruna and use prudence in avoiding exposure. Peruna clears up catarrhal conditions. Thousands have proved this to any fair person. Get a box of the tablets today—prove it yourself. Many prefer the liquid form. Both are good.

At your druggists.

THE PERUNA COMPANY
Columbus, Ohio

with proper seed corn, planting should be made several weeks earlier than is usually practiced in the northern states. Enormous losses due to failure of the corn crop to mature can be largely prevented by earlier planting. It has become customary to delay corn planting until the soil is warm, because poor seed will rot in cold soil. The proper kind of seed corn can be planted before danger from frosts is past. Spring frosts do not seriously damage very early planted corn. One fall frost is worse than spring frosts. The earliest plantings mature earliest and usually produce the largest and best crops. While it may not always be advisable to plant "one for the blackbird, one for the crow, one for the outworn, and three for a grower," it is advisable even with the best of seed to plant two or three kernels for every stalk desired. Some of the young plants will be destroyed. It is very much better and more profitable to pull out the weaker and superfluous plants than to attempt to get good results by replanting. Replanting very seldom gives good results. Thicker planting and pulling out the weaker stalks increases the chances of obtaining good yields.

C. P. Hartley,

In charge of corn investigation, U. S. department of agriculture.

Coal Problem Taken Up.

Boston, April 14.—The Boston school committee has taken steps to forestall a possible shortage of coal next winter. The committee has asked the schoolhouse commission to obtain estimates of the cost of installing oil-burning devices in the boiler plants of the normal, high and Latin schools, together with storage tanks for fuel oil.

Burns and Kauff got three bingles apiece in the opening matinee between the Giants and Braves. A pretty good start for these two youngsters who are looking for 200 per cent or better this season. Kauff seems to be in better form than he was last year.

BETHEL

Mary Baker Eddy Memorial Was Cut From Bethel Granite.

The memorial to Mary Baker Eddy, erected in Mount Auburn cemetery at Cambridge, Mass., was recently turned over to the Christian Science board of directors by the Elizabeth S. Barlow of New York, who had charge of its construction. Over a year and a half was required to complete it. Christian Scientists throughout the world have contributed, as expressions of sentiment, the entire cost of over \$150,000. The memorial is of Bethel white granite and consists of an open circular colonnade of eight columns 15 feet in height surmounted by a cornice and cresting. The space inside the colonnade is to be filled with growing flowers. The columns rest on a stylobate of three steps, which also rest, at one side, on a broad platform of Pompeian pink granite and, at the other, which is about five feet lower, on a double flight of circular steps. These are flanked on each side by a large pylon. The pylons were exhibited a short time ago at the American Institute of Architecture in New York, and were pronounced to be the finest pieces of carved granite ever executed. The detail is elaborated to an extent never before attempted in granite; some of the stems and leaves are practically free-standing, so great is the relief.
