Mr. Sawyer was a member of the Northfield company when the 1st Vermont regiment was ordered to the border last year and spent several months with the state troops in Texas. Sometime yesterday Mrs. Tranquilla Dernjevic, who was sentenced to pay a fine of \$400 and costs in municipal court after pleading guilty to a violation of the liquor law, experienced a change of heart and decided that she might not choose the alternative penalty of a term in the house of correction. The respondent passed the day in the police station, but toward night bail of \$500 was furnished as surety for her appearance and she was released, with the understanding that the fine and costs be paid. The authorities said that the woman's account with the court probably would be closed by this evening.

Tons of Barre granite, sliding along the deck of a mail, threatened the life of John McDonald, a brakeman, in the yard of the M. & W. R. railroad north of Granite street late yesterday afternoon. When the Barre & Chelsea yard shifter shunted into the car on which the brakeman was standing, the load of granite, unprotected, it is said, by guard poles, began to slide. McDonald was standing at the end of the car and the pushing granite brought a block up against his right foot, pinning it to a perpendicular brake shaft. Other trainmen heard his cries for assistance and rushed to his aid with crowbars. Several minutes elapsed before the granite block could be removed sufficiently to permit McDonald to release his foot. He was taken to the office of Dr. J. A. Wark, who bandaged a badly bruised foot. In the opinion of the physician none of the bones in the limb was fractured, although he preferred to make another examination before confirming the diagnosis to the railroad officials, who had commenced an investigation. The accident occurred on the C. V. transfer track, so called. McDonald was removed to his home in Montpelier after the visit to the doctor's office.

Patrons of a local movie theatre were somewhat abashed one evening this week when an orchestration of "The Star Spangled Banner" and the presence on the screen of Old Glory brought the audience to its toes, but did not include a professional man of this town. An inquiry started in the vicinity of where the man chose to remain seated threatened serious eventualities until the seated one explained that he was recovering from a bad accident and couldn't summon enough patriotism to join in the demonstration. Someone asked him if he had been carried into the theatre, but the interrogation fell short of his hearing and the show went on.

Daylight saving will be earnestly discussed at a special meeting of the Barre Granite Manufacturers' association this evening and while it is probable that the members will not legislate hastily in support of or against the set-the-clock-ahead program, some interesting data concerning the idea is to be presented. No attempt has been made to canvass sentiment among the manufacturers, but it is known that several of their number have developed a good deal of enthusiasm in agitating the plan and if uniformity could be guaranteed there are those who will not be surprised to hear stonewashed whistles tooting at 6 a. m. and 3 p. m. during the summer months. The meeting is called for 7:30 o'clock.
