TELLS OF FRENCH GRATITUDE

Gen. Pershing Comments in Reception of Americans at Paris.

Paris, July 9.—"The sincerity and depth of French gratitude to America was evident everywhere," said Major-Gen. Pershing, the American commander, in speaking at Paris Saturday of the reception given to the American troops which paraded in Paris on the Fourth of July.

The general was reluctant at first to make a statement. But the French demonstration impressed him as so extraordinary that he wished to make it clear that the American troops in France understood the spirit in which the French received them and appreciated it.

PORK

The Principal Meat of the Army, City and Farm.

The quickest and surest way of augmenting the meat supply next to the raising of poultry is by raising hogs. The United States department of agriculture points out. The hog is the most important animal to raise for meat and money.

Pork finds ready sale because packers have discovered many ways of placing pork on the market in attractive and highly palatable form combined with most excellent keeping qualities.

More dairy farmers should raise hogs for they fit in especially well upon dairy farms where skim milk, buttermilk, or whey is fed upon the farm. A man who has skim milk in a better position to raise pigs than a man who has none.

SENATE PUTS BAN ON WHISKEY

President to Take Over All Spirits in Bond—Beer Free

HOUSE EXPECTED TO ACCEPT CHANGE

Prohibition of Making and Importing Distilled Liquor Sure

Washington, July 9.—The Senate went on record Saturday in favor of "bona fide" national prohibition during the war so far as whiskey and other distilled beverages are concerned. Liquor legislation was written into the food control bill in one of the Senate's bitterest contests, which would strike at consumption of distilled intoxicants by commandeering stocks in bond in addition to absolutely prohibiting their manufacture or importation.

While the final prohibition legislation will be evolved in conference between the two Houses, it is generally regarded as probable that the House will accept the Senate's change after a fight in behalf of the original section.

What New Provision Means.

The Senate provision would limit consumption to stocks in retailers' hands or withdrawn before the law goes into effect. Stocks of distilled beverages in bond were estimated Saturday night at between 200,000,000 and 300,000,000 gallons and the annual normal consumption at 120,000,000 gallons.

German Politics Said to Have Reached Boiling Point.

Berlin, via London, July 9.—Unless indications fail in the next few days, the German empire is on the eve of a momentous parliamentary upheaval. Developments point squarely to a significant realignment of various factions in the Reichstag in favor of sweeping electoral and parliamentary reforms.

Monday will mark the insurrection of what promises to be one of the most memorable parliamentary sessions in the history of the empire.

The chancellor was present yesterday when the committee convened at 9 o'clock. All the Reichstag factions remained in session in individual groups until late last night.

The Zeitung Am Mittag says a deputation from the Social Democratic party in the Reichstag called on the chancellor Friday to impress the gravity of the situation on him. The delegates insisted that he make an unequivocal declaration that the government was prepared at any time to enter into peace negotiations on the basis of the status quo.

Representatives of the Progressive People's party and of the national liberals also were in conference with the chancellor.

German Chancellor's Announcement to Be of Exceptional Importance.

London, July 9.—The report that political developments of exceptional importance are being awaited in Berlin in connection with the session of the Reichstag now in progress, is reiterated in a Berlin dispatch to Amsterdam, as forwarded by the London Exchange Telegraph. The dispatch says that Chancellor Von Bethmann-Hollweg will deliver his speech in the Reichstag to-day, and that addresses will be delivered on the same day by Foreign Secretary Zimmermann, Vice-Chancellor Helfrich and Vice-Admiral Von Capelle, minister of the navy. The vote of credit will then be taken.

Y. M. C. A. AT FORT DEDICATED.

New Building Is Provided for the 18th Cavalry.

Burlington, July 9.—The new Y. M. C. A. building at Fort Ethan Allen for the 18th Cavalry was dedicated and opened yesterday afternoon.

Several excellent speakers were provided by the committee, the first one called upon by W. J. Van Patten, who presided, being Brig.-Gen. J. T. Dickman.

He gave the greeting and spoke of the good work being accomplished by the Y. M. C. A. and similar organizations at the several training camps throughout the country. He said that the keeping of the men in good moral condition was as important as having a good physique, and that the Y. M. C. A. helped materially in this respect.

The next speaker was E. W. Hearne, secretary of the war work council of the northeastern department. The main thing he had to say was that a friend of his had offered to defray the expense of the new building, but the donor wished his name withheld for fear of being called upon to speak. His gift was greatly appreciated, as shown by the applause that followed the announcement by Mr. Hearne. The offer was accepted unanimously by the committee. Frank W. Ober, editor of Association Men, spoke next. He talked feelingly of the necessity of having good moral environment for the boy, both here and after he had gone across the Atlantic. He told several stories and anecdotes of camp life.

Secretary Hinds, who is at the post, then introduced the several secretaries who were in charge of the different buildings for the several regiments. These men are: Messrs. Snow, Hamp, Bolger, Grospect, Parker, and Fowler. Mr. Grospect has charge of the physical work, Mr. Parker will direct the musical work, and Mr. Fowler will be in the chaplain's tent. The last man called upon was Dr. George W. Vincent, who was the principal speaker of the day.

Mr. Vincent was formerly president of the University of Minnesota and now is at the head of the Rockefeller Foundation in New York. His address was on the "Sportsman and the Sport." He distinguished between them and pointed out the good points of the former, and the poor qualities of the latter. He spoke of the necessity of playing a clean game in every phase of life and especially in the case of the soldier. He said: "Whatever the game may be, it should be played in a clean manner and like a true sportsman." His speech lasted only a few minutes but was to the point.

NEW CONDITIONS FACE PUBLISHERS

National Editorial Association Is to Discuss Cost of Publishing Country Newspapers at Convention in Minneapolis.

Minneapolis, Minn., July 9.—New conditions which the publisher has been compelled to meet because of the war will form one of the chief topics of discussion at the four-day convention of the National Editorial Association which opens here to-day. Several hundred delegates, most of whom are editors of weekly or small daily newspapers, will represent various sections of the United States at the meeting.

Plans for an excursion into western Canada for the purpose of effecting closer co-operation with Canadian publishers have been abandoned in consideration of the joint policy of the government and railroads in discouraging unnecessary demands on railroad equipment.

The question of solidifying the press and other forces in a campaign for a lasting worldwide peace after the conclusion of the war will be taken up at the convention.

"Men will be selected to attend a worldwide gathering of newspaper men who will in turn impress upon their brethren throughout the world the obligations of civilization in bringing about the triumph of democracy," declared H. C. Hotelling, vice-president, in announcing the proposal.

Increased cost of publishing the country newspaper will be discussed from all angles, and an effort will be made to place the convention on record as opposed to small papers giving free political advertising.

The annual address by Pres. E. H. Tomlinson, Morrilton, N. J., will be followed by an address by Walter Williams, dean of the school of journalism, University of Missouri.

The program for the second day includes addresses by S. C. Godthwaite, president of the Iowa Press association; N. A. Huse, vice-president of the American Press association, New York, who will take as his subject, "Getting General Advertising"; J. Roy Williams of McAlester, Okla., W. W. Atkins of Franklin, Ind., and Joe Mitchell Chapple of Boston, Mass.

The sessions of Wednesday will be devoted principally to reading of reports, general discussions and addresses, the speakers including J. O. Brimblecom of Newton, Mass., Jason Rogers, publisher, New York Globe; Prof. W. P. Kirkwood of the University of Minnesota, and Frank J. White, Chicago.

The annual election of officers Thursday morning will conclude the business of the convention and the following two days will be devoted to visiting state institutions and an excursion up the Minnesota river. Hot Springs, Ark., and Miami, Fla., already have begun lively campaigns for the next annual meeting. The governor of Arkansas and the mayors of Little Rock and Hot Springs will head a delegation to the convention of 50 Arkansas editors.

CONSCRIPTS TOLD TO BE PREPARED

Provost Marshal Crowder Issues Statement Telling Millions of Men to Be Ready to Go Before Exemption Boards.

Washington, D. C., July 9.—Another step in building up the selective conscription army was taken yesterday with the distribution of a circular by Provost Marshal General Crowder notifying the registered men to hold themselves in readiness for appearance before the boards which will conduct examinations and consider exemptions.

How or when the government will select the men to be examined is not detailed in the circular but it is revealed that registration cards in each county or city jurisdiction are to be numbered with red ink and that "as soon as the drawing is complete lists showing the order in which these red ink numbers are drawn will be published in the press and will be posted at the office of each local board."

It has been already announced that the selection will take place in Washington and the general presumption has been that some device similar to a jury wheel will be employed.

Exemptions are to be determined by the local boards, the circular shows, only for the previously announced specified causes, such as responsibility for the support of relatives and not for agricultural or industrial reasons. Seven days after designations are posted will be allowed for filing proofs and the board must decide within three days after the proof is filed.

When the case of any registrant has been disposed of so far as the local board is concerned the names of those not exempted or discharged will be posted. Claims for exemption for agricultural or industrial work must be made within five days after such posting and must go directly to the higher board for the judicial district. Appeals from the rulings of local boards must be made to the higher boards within ten days.

The circular does not cover the summoning of the men for actual services, pointing out that selection and acceptance does not mean an immediate summons. Even the time of the drawing is not specified, but issuance of the circular is taken to mean that the work of selection may be in progress within a few days. September 1 has been tentatively considered as the date for assembling the first training.

The steps a registered person should take are set forth in great detail in the circular. First of all the registrant is advised to find out the location of the office of his county or city board and then ascertain if he intends to claim exemption for agricultural or industrial reasons, to what district board he must apply.

"Every board has numbered the cards in its jurisdiction with red ink in a series running from one to the number representing the total number of cards in its jurisdiction," continues the circular. "Lists showing the names of persons in its jurisdiction," continues the circular, "red ink number of each card are open to inspection at the office of each board. Inspect the list and inform yourself of your red ink serial number."

"These red ink numbers are to be drawn by lot to determine the order in which registered persons are to be called by the various local boards. As soon as the drawing is complete, lists showing the order in which these red ink numbers are drawn will be published in the press and will be posted at the office of each local board. Go to your local board and find out the order in which you stand for call."

"As soon as quotas are assigned to each state and each board, each board will call upon persons whose cards are in its jurisdiction, instructing them to present themselves for examination. This call will be posted at the local board and the papers will be requested to print it. A notice will also be mailed you, but the posting at the office of the board will be deemed sufficient notice to charge you with the duty of presenting yourself. Watch the lists at the office of your board and see when you are called for examination."

"You must report for physical examination on the day named in your call. If you are found physically disqualified the board will give you a certificate which will explain to you what your further duties are. If you are found physically qualified and file a claim for exemption within seven days after your call you will be given ten days after filing your claim of exemption to file proof in support of your claim of exemption. If you are found physically qualified and file no claim for exemption, or if you do not appear for physical examination, your name will be posted to the district board as one who was called for military service and was not exempted or discharged. On the eighth day after call, or within two days thereafter, copies of the list of persons so posted to the district boards will be given to the press with a request for publication, will be posted in a place at the office of the local board accessible to the public."

LANSING ON VACATION.

Secretary Will Keep in Touch with International Affairs.

Watertown, N. Y., July 9.—The cottage of Secretary of State Robert Lansing at Henderson harbor on Lake Ontario, has been transformed into an office, with special telephone and message service. Mr. Lansing arrived at Watertown Saturday and left in the afternoon for the summer home, where he is to pass his vacation. Although he has laid aside diplomatic cares as far as possible, he will keep in touch with the international situation and for this reason his stay is indefinite. He said Saturday that he might be at the harbor for three days or for three weeks. He had no comment to make on his interview with Ambassador Henry Fletcher, who accompanied him as far as New York and who discussed the Mexican situation.
