**NEARING'S ADDRESS WAS SEDITIOUS**  
Ex-Professor Arrested as He Loudly Demanded "Immediate Peace."

Duluth, Minn., Nov. 14.—Prof. Scott Nearing of Toledo, O., who recently resigned as professor of political science at the University of Pennsylvania, and who now terms himself "president and chairman of the executive committee of the People's Council of America," arrested here Monday night with four others, was held yesterday on a charge of making utterances tending to hinder the progress of the war.

Nearing was arrested while making an impassioned speech in Woodmen's hall. He had reached a point where, the police say, he demanded "immediate peace" when a policeman, one of 50 who quietly had entered the hall, laid a hand on his shoulder.

Some excitement followed, the crowd hooting the police. The auditors had been admitted to the hall by cards sent out by Nearing's companions, according to the police.

Search of the prisoners at the city jail revealed a literature and cards showing that they had paid dues in the organization for the suppression of the war. According to the police, also, Nearing had a card showing payments on a "special anti-militarism assessment."

Agitator Held for Urging Steel Workers to Fight the War.

Baltimore, Nov. 14.—A concerted drive by I. W. W. workers on employees of various nationalities at the Bethlehem Steel company's plant at Sparrows Point, to influence them to make a determined stand for peace has been halted by agents of the department of justice.

One man, Harry Winston, 28 years old, has been arrested. His case will be considered by Attorney General Gregory. An I. W. W. circuit has been posted conspicuously around the plant. It is headed by the word "sabotage." More arrests are expected.

**PLACES FOR PLATTSBURGERS.**  
Baker Expected to Assign to Active Duty All Commissioned.

Washington, Nov. 14.—Adjutant General Henry P. McCann yesterday confirmed reports current at the war department that Secretary of War Baker is still considering the subject of commissioning the more than 10,000 men at the second series of training camps. His previous ruling would assign to active service only a sufficient number of men to fill existing vacancies and would place 6,000 or more commissioned students on inactive lists without pay. Officers believe that the rule is likely to be so amended that all of the men receiving commissions will be assigned to active duty of some kind, shortly after the camps close Nov. 27.

**NEW BANK PRESIDENT.**  
Harry P. Webster Succeeds Charles H. Pratt at Brattleboro.

Brattleboro, Nov. 14.—Harry P. Webster was elected president of the Vermont Savings bank to fill out the unexpired term of the late Charles H. Pratt at a meeting of the trustees of the institution yesterday. Mr. Webster has been connected with the bank since 1893, with the exception of two years, and was the logical man for the position made vacant by Mr. Pratt's death.

Since June, 1909, he has been treasurer, and for a number of years previous had held the position of assistant treasurer. No action was taken by the trustees in the matter of choosing a treasurer to take Mr. Webster's place.

Mr. Webster is a son of the late Dr. Dan P. Webster. He is a native of Putney, but has been a resident of Brattleboro most of his life.

**Gift of \$1,000 to Methodist Fund.**  
The endowment fund campaign of the Vermont conference for retired Methodist ministers was given a great impetus this week by the generous gift of \$1,000 from Mrs. Mary J. Viall of South Royalton. This is the largest single gift received in the present campaign. Many churches have given an amount equivalent to two years' pastor's salary and house rent, which is the standard for each church throughout the conference. The canvass is being pushed in all the districts of the conference, and about \$20,000 has been secured within the past few weeks. Sunday, Nov. 25, will be observed in all churches of the Vermont conference as "follow-up day," when every pastor will present the cause and receive subscriptions.

**THREE DRAFTS WITHIN YEAR**

Army Officers Expect Two More Levies Before Next Fall

TO DRAFT MILLION MORE MEN

This Many to Be Added to 687,000 Already Called, Says Report

Washington, Nov. 14.—One million Nationals, in addition to the 687,000 already drafted, will be in the military service before next fall, if a report current in Washington yesterday is accurate. The report, which is voiced by army officers, is to the effect that the men called out by the second draft will be used "to fill holes in the first draft" and that the second draft will be followed within a short time by a third draft. Actual confirmation of the report can come only from President Wilson himself, but with army officers themselves discussing the subject it is believed the report has some basis of fact, unless they are outlining what they would do if they were in command of the armies of America.

It can be said authoritatively, however, that larger "holes" will be found in the first national army when all of the 687,000 have been assembled. The reason for this is that scores of thousands of Nationals in addition to the 187,000 drafted men called out to fill vacancies in the National Guard and regular army have been used or will be used to organize technical and staff companies. The voluntary censorship rules forbid the publication of actual figures, but it is permissible to say that the line of the national army will be much smaller than the general public believe. "When all of the special units have been formed the first national army will be considerably under 500,000 men," said one high officer yesterday.

The best guess of military officers is that the president will issue the third call in time to send some of the men to the cantonments between March 1 and April 1. Other officers say that the call may come much earlier than this and that men will be sent to the cantonments in increments of fifty thousand. These men, they say, will be used to fill the holes in the first draft army.

It would appear to be impossible, however, to send additional drafted men to the cantonments before early next year. There are many thousand men in the first draft who have not been assembled as yet. It will be impossible for a few months to assemble second-draft men. However, by the time spring arrives it will be very easy to take care of hundreds of thousands of additional men. Then the first draft men will be going to France, opening quarters for newly drafted men at the cantonments they vacate.

Staff officers realize that the men at the northern cantonments, Camp Devens for example, will face hardships this winter. Indeed, it is understood here that General Hodges has urged the immediate sending of rifles and ammunition to Camp Devens, contending that the men will get little, if any, rifle practice unless increased supplies of rifles and ammunition are rushed to Ayer. Conditions are practically the same at all of the northern cantonments. High officers declare a mistake was made in building cantonments in the north. If transports were available, some of these officers would recommend the immediate sending of drafted men at northern cantonments to France. As it is, it is possible that this will be done to a limited extent.

**100,000,000 BUSHELS IS POTATO SURPLUS**

Armour Company Urges Reduction in Price from \$1.40 to 50 Cents.

Chicago, Nov. 14.—The Armour Grain company, in a statement yesterday, said that only the reduction of potatoes from \$1.40 to 50 cents a bushel will prevent fully 100,000,000 bushels of the new crop from rotting or being fed to livestock. "If consumers could buy them at 50 cents a bushel, nearly all of the immense crop would be consumed, making a great saving in wheat and other foods, on which the government is economizing," the statement read. "The government estimates the potato crop on farms at 134,000,000 bushels more than last year's supply." The food administration has announced the appointment of Samuel Livingston of Wisconsin as "potato censor" for this section. He will inspect every ear that is unloaded to determine whether any potatoes fit for consumption are left in it.
