T. & P. Co. a new franchise, thereby affirming the action taken by their city council. The Barre officials did not remain until the meeting adjourned, balloting was still in progress when they boarded the last electric car for this city. Upon their arrival here they learned that the new franchise had carried by the vote of 216 to 163. Much of the argumentation in the meeting was left to attorneys for or against the franchise.

The quietude of Jockey Hollow was broken for a few minutes around seven o'clock this morning, when residents along that section of the city were aroused by what appeared to be the flight of a prancing steed, who seemed eager to display his mettle. Traced to the source of its mad flight, the steed had its start, when two Graniteville lads, who are students at Spaulding high school, had the misfortune to meet another team, while on their way to school. As a result of the meeting the team conveying the Graniteville lads came off second best, both young men being thrown from the wagon, while the steed proceeded on its own accord to the city. Neither of the students suffered any injury greater than several bruises, but the team was greatly damaged.
The Greeks constituted the most numerous Christian church, at the beginning of the Armenian troubles they were spared the horrors of deportation, although commandeered and crushed by military measures. Recently, however, the Greeks in large numbers have been deported from their homes along the Black sea coast, suffering, and many of them dying, from hunger, exposure, hardship and resultant diseases. Many thousands of them have escaped to Trebizond, within the Russian lines, where they are now ministered to by our relief agents; it is estimated that a quarter of a million of Greek refugees from Asia Minor are now in Thrace, Macedonia and Greece proper, where they are practically homeless and in urgent need of food and clothing. Scores are dying daily of insufficient food and resultant diseases. Others of the Greeks, with the remnants of the Armenians and Syrians, are being cared for by our agents in Asia Minor.

Slender, Youthful Coats and Suits

That is what fashion calls for and what the best trade demands. That is what is expressed to the utmost in our new coats and suits. Here are dozens of charming models, slender, youthful, and with special tailoring, features that mean real thrift.

The new spring dresses are models along the same youthful lines that appeal to the good taste of every well dressed lady.

Silks have not advanced in price as much as wools. The government asks us to use silks and save cotton and wool. We want you to see our unusual large line of such dress models.

A Few Easter Suggestions

This is the week when every lady must prepare for EASTER. She will want many little accessories to complete her wardrobe. You will want a new pair of Gloves to go with your new suit or to dress up your old one. Our line is now complete, both in the Kids and Silks.

Here you will find a large and complete display of the new Collars. These are shown in White and Colors, in a large variety of the new shapes and designs—shapes to fit any suit or dress. There is no small article of dress that adds so much to your coat or dress as a new Collar. We want you to see this line.

Easter Hosiery will be in demand this week, and we are showing a strong line of the season's best and most popular colors. You will want a pair of Silk Hose to match your suit or shoes. Why not make your selection while the line is complete?

Our large showing of Silk and Muslin Underwear will be of interest to many. This is a line that for quality and price has no equal. The workmanship and finish are the best. Here are the qualities and styles for all.

Ladies' Tailored Suits and Coats

You will want your new Suit for Easter Sunday. Why not come in the first of the week and make your selection from our large line of the season's best and most up-to-date models?

As to standard of quality and finish and quality, we would refer you to the Printzess and Wooltex makes. You will hear people say this suit or this coat is just as good as the Printzess. Did you ever stop to think what they mean by this expression? It means that the Printzess and Wooltex are the standard of perfection in style and quality. We want you to see our large showing of the new Suits and Coats. Come in as early in the week as you can, so as to give us plenty of time to make the alterations necessary before Saturday. Remember, this will be a busy week in our Alteration Department.

Our Millinery Department

This department demands your attention this week. Every lady will want to look over the new models and get acquainted with the new Spring Hat shapes. Every day this week will bring new Ready-Made Hat Models into our department. We had one of the busiest Saturdays last week that we ever had so early in the season.

We have a large quantity of new models coming into the department the first of the week. We want you to see this, the largest line of popular Ready-Made Millinery in the city.

In the Children's Department, we can give you a line of fifty dozen to select from. See the line and be convinced.

VARIED EXPERIENCES.

2d Lieut. H. C. Glynn Writes to Mrs. James Grogan of Barre.
Mrs. James Grogan of 70 Brook street has received the two following letters from her nephew, 2d Lieut. H. C. Glynn, quartermaster's United States reserves in France, formerly of Montpelier: U. S. Army P. O. 708, France, March 1, 1918.
Dear Aunt Kate: Just finished a letter to Tom and also one to Lottie McClelland, who has written to me. Received Gladys' letter this morning and was mighty pleased to hear from her. Well, aunt, since my last letter to you I have been through hell and all that goes with it. First, the revolution in Dublin, air raids over England, mostly in London, and now I am right in the mess where we eat smoke three times a

day. Not wishing to create any wrong impression, I am in a safe port of France and really in no danger, but when one hears so much about the war he usually thinks and lives as I have written above.
I am in charge of motor tire tubes and tire accessories at the main supply depot, motor transportation, and have been very successful in my work so far. I am living in hopes of going higher up the ladder and would like to return to America with a higher rank.
Sorry that I was unable to visit Ireland once more before grandmother died, but I am real proud and pleased to think I have had an opportunity of visiting her twice before she died. I hold the honor of being the only American grandchild of hers that ever saw her, and that's some honor if you look at it as I do.
I hear from Tom quite often and we keep up a pretty good correspondence. My last letter from him was dated Feb. 3, 1918. Have not received your letter or box of Jan. 29, but Gladys' letter of Feb. 6, seems to have come through with considerable more speed. However, I expect it will roll in one day. Vernon sent a Christmas box Nov. 26, which did not arrive until Feb. 28, so let us live in hopes.
Under separate cover I am sending one of my photos and you will see for yourself that in spite of being only 5 ft. 7 in. in height, I can carry around 153 pounds of weight and not notice it. I am in the best of health and under the present conditions in very good spirits. With love and best wishes to all.
Harold
March 6, 1918.
Dear Aunt Kate: Your wonderful box of candy, chewing gum and cake arrived O. K. yesterday and between three of us we soon made it disappear. Gee, the cake sure did taste good. We just cleaned up the last of it to-night before finishing supper. I want to thank you and Gladys many times and only wish you could have seen us eating the good things. One look would have been sufficient proof that I am very grateful and sincerely appreciate your kindness.
Had a letter from Westfield yesterday. All report in good health and spirits. Harold Riley is anxious to get in

the engineers' corps and I hope he will be able to do so, great work and wonderful experience.
Had a long letter from Vernon, more or less about business and his baby Betty. She must be some kid, as all the letters from his folks are about the baby. I hope I can see her while she is at her best.
Yes, Aunt Kate, I surely will have some interesting tales to tell when we meet again. I hope that luck will be with me and that I come through O. K. We are all looking forward to the day we can return to God's country and to those we hold dear. Perhaps I don't miss the home ties like my comrades, as I am hardened to travel and the knocking about that the world gives to those who have no home, but knocks don't kill the love for those who have been good and kind, and I sincerely hope it will not be long before I can sit at your table and tell you about my trips to Ireland and of the things that struck me as funny and rather odd.
Providing that my present luck continues and that I shall return safe and sound, it is my intention to spend at least three months in America and then return to London to take up my old position with the United States Rubber Export Co. My salary was very good and chances for advancement were excellent. I liked my work and surroundings and would like to have at least three more years' experience in Europe before returning to America to retire. I also want to see more of Ireland and its people.
My friends in England have been very good to me. I receive a great number of letters and little packages and really it does seem good to know my stay in England developed into real friendship with several.

Now don't stop writing to me, as it is very dull and not one bit interesting in these parts. Our only amusement is to read letters from home, so keep up the good work and consider yourself doing your bit by trying to cheer us up. Best of luck and love to all.
Harold.
