Massachusetts Probation Official Addressed Audience Last Evening

RED CROSS HELD STATE CONFERENCE

Plans for Coming Vermont Campaign Were Discussed

Before about 30 persons gathered at the State House in Montpelier Wednesday evening, Herbert C. Parson of Brookline, Mass., secretary of the Massachusetts commission on probation, gave an address.

Mr. Parson discussed the probation law since it became effective in Massachusetts nine years ago, the first year 13,000 having been placed on probation, while last year 30,000 were given that opportunity.

He stated that the expense last year was \$237,000, while the appropriation in Vermont for the same work this year is \$10,000. His address was given largely from the point of investigation of such every criminal and his crime before sentence is imposed, which is different from that of the Vermont procedure and showed the improvement in the conditions.

He stated that 200,000 cases are investigated by the probation officers in Massachusetts each year; the two homes in that state for feeble-minded have 3,500 inmates, and he has found that 25 per cent of the crime committed is by feeble-minded and that it is a mistake to send these to the penal institutions.

The meeting held Wednesday afternoon in the executive chambers at the State House by the executive committee of the Red Cross and the county chairman of the war fund campaign was attended by about 20 persons.

RELIABLE PRESCRIPTION FOR THE KIDNEYS

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder to do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Barre Daily Times.—Adv.

HUMORS IN SPRING

Such as Pimples, Boils, Eruptions—and Weakness, Languor, Debility afflict thousands of people and seem to demand the use of a spring course of treatment without delay.

The very best medicine to take now is Hood's Sarsaparilla, which thoroughly cleanses the blood and effects radical and permanent relief by perfecting the processes of absorption and elimination.

giving healthy activity to the stomach, liver, kidneys, bowels and skin. This good medicine purifies, enriches and revitalizes the blood in its own peculiar and unequalled way. It promptly relieves rheumatism, scrofulous troubles and eczema, regulates the kidneys and liver. It originated in a Boston physician's successful prescription, and enjoys high reputation as a satisfactory all-around family medicine.

Who is a manufacturer, is the question which the employes of the state fuel administrator's office are trying to decide and upon which they have been working for some time.
