

SCHOOL-DAY STRAIN

A parent troubled over a child or a fast-growing youth, could do no better than to utilize the definite help that

SCOTT'S EMULSION

affords as a strengthening and nourishing factor. A very little of Scott's every day, during a time of stress, furnishes elements of nourishment essential to the blood and tends to confirm a growing child in robustness. For your boy or girl, you will not be satisfied with anything short of Scott's.

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty in a Few Moments—Try This!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is lustrous and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its luster, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fash, loosen and die; then the hair falls out fast.

THIN BLOOD THE CAUSE OF MUCH MISERY

Correct the Anemic Condition and You Will Have New Strength and Vitality.

Anemia means lack of blood. It is a disease in which the blood is deficient in quality or quantity. An anemic condition is one in which the blood is thin. It may be caused by a severe illness, by lack of proper food or it may result from overwork, overstudy, worry, or from almost any form of excess.

When the blood is deficient the person not only becomes pale but the body is undernourished, the weight is usually reduced and as the nerves share in the general starvation some form of nervousness follows. When the blood is improved in quality the tissues are better nourished and all the functions of the body are better performed.

"I was tired and all run down," says Mrs. Mary Barlow of No. 78 Watson street, Central Falls, R. I. "My blood was thin and poor, and I was colorless. I could hardly walk around as my limbs seemed to give out. I had severe headaches and at times experienced dizzy spells. My appetite was gone. The sight of food was distasteful to me.

"My mother had used Dr. Williams' Pink Pills with benefit and recommended them to me. I noticed an improvement from the first box. My appetite picked up and I grew stronger. I continued and I think I took ten boxes before I was real well. I have recommended Dr. Williams' Pink Pills to others as I know their worth in anemic conditions."

Dr. Williams' Pink Pills build up the blood and send renewed health and strength to every part of the body. The appetite is improved, the digestion is toned up, there is new color in the cheeks and lips; you worry less, become good natured where before you were irritable and you find new joy in living.

This tonic treatment is useful in dyspepsia, rheumatism, anemia, and nervous disorders. In many cases it is all the medical treatment that is required. As a tonic for growing girls, Dr. Williams' Pink Pills meet every requirement of the most careful mother.

Your own druggist can supply you with Dr. Williams' Pink Pills or you can order direct from Dr. Williams Medicine Co., Schenectady, N. Y., enclosing fifty cents for one box or \$2.50 for six boxes. Write to-day for a free copy of the booklet, "Building Up the Blood."

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You—Drink Lots of Water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the urea acid in meat excites the kidneys, they become overworked, get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to moral activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.
