NEARLY 7,000 ON WAY HOME

Americans Are Expected to Reach New York the Last of Week

ARE BEING BROUGHT IN BRITISH SHIPS

Men Are Chiefly Members of the Air Service—They Left Liverpool Last Week

Washington, D. C., Nov. 26.—Nearly seven thousand American troops are expected to arrive in New York before the end of this week, constituting the first units of the expeditionary forces to be returned home.

The troops, consisting of 382 officers and 6,614 men of the air service and other training detachments, left Liverpool last Friday and Saturday. The units, all of which have been in training in England, are being brought home on three British liners, the Minnekahda, Lapland and Orca.

Details of the plans for demobilizing these units have not been announced. So far as possible it is presumed, the units expected to arrive this week will be sent to camps near the homes of the men and the demobilization will take place at the camps.

The seven thousand now en route home will be followed soon by other units of the twenty thousand American troops in training in England. Secretary Baker said yesterday that the homeward troop movement will be limited only by transportation facilities. Use of former German ships seized in this country, Dutch vessels taken over by the United States government, American ships and probably British transports, Secretary Baker indicated, will permit a rapid return to this country of the troops abroad.

Wheat Saved in Utah.

Community co-operation, initiated by the county agent in Iron county, Utah, saved 400 acres of wheat through irrigation. A large acreage had been sown on high lands, dependent entirely upon flood waters for irrigation. The high waters did not come. The county agent called a mass meeting of all the farmers of the community and explained the situation. In a second meeting the owners of the primary waters agreed to release them to irrigate the high land. The water was thrown out of the usual channel for four days and 400 acres were thoroughly watered.

IS BARRE SATISFIED?

The Evidence Is Convincing—The Testimony Open to Investigation.

Before a statement can be accepted here, it must be supported by local testimony—by the evidence of someone residing in Barre. Statements from unknown people in remote places may be true, but we cannot prove them. Here is a statement by a Barre resident:

A. J. Stewart, carriage maker, 24-26 Prospect street, says: "Some years ago, I suffered an accident to my back, which left my kidneys weak. I was troubled more or less after that with the secretions; they were off color and generally contained sediment. My back was quite painful at times. I have always used Doan's Kidney Pills at such times, and they have always given satisfactory relief."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Stewart had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

Arms Covered With Small Red Pimples Cuticura Healed

"A slight itching began on my arms at first, and it increased rapidly, being worse at night. My arms were simply covered with small red pimples which itched terribly. I could not sleep nights, and my clothing irritated the eruption, and caused it to become very painful. My arms got so bad I could hardly move them. Later the pimples scattered on my body, except my limbs."

"Finally I sent for a free sample of Cuticura Soap and Ointment. I purchased two cakes of Cuticura Soap and two boxes of Cuticura Ointment which healed me." (Signed) Mrs. H. M. Clark, 113 Seaside Ave., Guilford, Conn., August 6, 1917.

CARE FOR WOUNDED AMERICANS.

Those in Germany Will Be Under Supervision of a Swiss.

Washington, D. C., Nov. 26.—Sick and wounded American soldiers, who were held prisoner by the Germans and who are not strong enough to be moved at the present time, will be cared for by the American Red Cross through Alfred Ney, a Swiss neutral delegate with large German experience and acquaintance with the cablegram received today at Red Cross headquarters here from Paris, said it is planned to place all those Americans in a central hospital and, if possible, provide American medical attendance for them.

Co-operative Marketing Saves Money.

Approximately \$2,154, or an average of 11.3 cents a pound on a carload of wool, was saved by the farmers of Wayne county, N. Y., through a co-operative arrangement started by the Wayne County Farm Bureau. When the co-operative enterprise was undertaken last spring the farmers were paid 67 1/2 cents a pound. An additional dividend of \$1,525.61 has just been received from the buyers, which brings the average price of the wool a pound up to 73 1/2 cents. When the interest is received the farmers will have been paid 73 1/2 cents a pound. The farmers of the county seem to think the farm bureau is responsible for a very successful undertaking.

OLD FASHIONED FAMILY REMEDY

For Colds, Grip, Pneumonia And Body Building

Father John's Medicine Builds New Strength During the Getting-Well Stage After Any Illness.

Heals Throat and Lungs. A Doctor's Prescription. Free from Alcohol and Dangerous Drugs—60 Years in Use.

The getting-well stage of grip is the most dangerous of all, because the body, weakened by the grip, is wide open to attacks of other lurking disease germs. That is why all the organs of the body must be kept in their best working order, not only to drive out the poison left by the grip germ, but that the patient shall regain strength as soon as possible to avoid further attacks resulting from the poisons in the system.

As a means toward good health after the grip, Father John's Medicine builds up the body, because it is all pure, wholesome nourishment and free from opium, morphine, chloroform or other poisonous drugs or alcohol. Father John's Medicine has had sixty years' success for colds and throat troubles, coughs and sore throats, and as a tonic and body builder.

Don't wait until a cold and the grip have a firm hold. Take Lane's cold and grip Tablets as soon as you feel a cold coming on. Neglect is dangerous and often spells Pneumonia. Keep a package handy for emergency. Results are guaranteed. Sold by druggists everywhere.

Forget Underwear Discomforts

You'll be needing your winter weight underwear any day now. Better look over your supply and see that you are well supplied.

You may have memories of a chafing, itching time when you first put on the heavy undergarments.

The way to avoid that is to let us show you the good brands that we have here—made to make you forget discomforts.

ALL STUDENTS MARCHED OUT

When Berkshire Preparatory School Was Burned.

Great Barrington, Mass., Nov. 25.—Fire this morning totally destroyed the Berkshire preparatory school main building in Sheffield with a loss of \$50,000. School was in session when the fire was discovered, but the 65 students marched from the building and no one was injured. Assistance to fight the fire was summoned from Great Barrington, and adjoining buildings were saved. A defective chimney is believed to have caused the fire. Sessions of the school will be resumed immediately in other buildings. Berkshire school was a three-story wooden structure and will be rebuilt.

FIVE SONS IN SERVICE.

Mr. and Mrs. Edward Carey Have Given Three to Army, Two to Navy.

Hardwick, Nov. 26.—An enviable distinction has come to this town through the service of five young men of one family in the sea and land forces of the United States. Their proud parents are Mr. and Mrs. Edward Carey, who thus have given all their sons to their country. Two are in the navy and three in the army.

The oldest son is Private Thomas F. Carey, aged 28, of Co. H, 168th infantry, now in France, and who enlisted from Detroit Sept. 22, 1917.

Eugene A. Carey, the next oldest, is 26. He is a gunner's mate, third class, on the U. S. S. South Carolina. He enlisted April 28, 1917.

Private Edward G. Carey, aged 24, is with the 88th squadron. He enlisted June 15, 1918, for overseas training.

Private John Carey, aged 22, is in the quartermaster's corps, guard and fire company, Fort Newark, N. J., having enlisted Nov. 21, 1917.

The youngest son, Bernard P. Carey, is 20 years old and is a machinist's mate on the U. S. S. Vixen. He enlisted May 9, 1917.

Since Victory Is Assured. We now face a time of the greatest peril. The tension of desperate struggle, with the outcome in suspense, is suddenly relaxed. Our foes are, to all appearances, going to pieces. Victory is now in our grasp. We can make and keep our own one condition. What is it? If we ourselves make right use of victory assured but full of peril. Should we relax war-winning spirit and effort too soon, German might and cunning will fill our gains and fight on. Napoleon did so, after the battle of Leipzig, which broke his power. Read the story of what happened between the "battle of the nations" there and his humiliating struggle at Waterloo. Here is the present situation in a nutshell—the war may go on if we don't.

We stood fast and worked with all our might when our foes were unconquer-
