MRS. LEWIS OF BROOKLYN

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N. Y.—"For one year I was miserably from a displacement, which caused a general run-down condition with headaches and pains in my side. My sister induced me to try Lydia E. Pinkham's Vegetable Compound. I found it helped me very much and such a splendid tonic that I am recommending it to any woman who has similar troubles."

Mrs. ELSIE G. LEWIS, 30 Vernon Ave., Brooklyn, N. Y.

Such conditions as Mrs. Lewis suffered from may be caused by a fall or a general weakened run-down condition of the system, and the most successful remedy to restore strength to muscles and tissue and bring about a normal healthy condition—has proved to be this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

If you have disturbing symptoms you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

Wounded, lying in No Man's Land—feverish from thirst—a stick of gum to him might have been a matter of life and death

For him and 2,000,000 others in France 155,945,000 sticks of the Adams brands of chewing gum have been sent overseas.

Please remember this the next time you can't get your favorite brand of Adams gum. If Adams Black Jack is missing from the counter, try Adams California Fruit, Adams Pepsin or Adams Yucatan. To a boy in No Man's Land one stick might have been worth the price of an empire.

TOBACCO GROWERS GET RICH.

Kentucky Farmers Get About Three Times Their 1915 Price.

Louisville, Ky., Dec. 9.—Kentucky farmers who produce about 30 per cent of the country's tobacco have experienced unprecedented prosperity since 1915 and this autumn were able to get nearly three times the price with which they would have been content at the beginning of the war.

Eighty per cent of the 250,000,000 pounds of burley tobacco used in the United States comes from Kentucky. In 1914 prices for all qualities of leaf, hogs and trash averaged between 10 and 12 cents a pound, while the price for the heavy, dark export type of tobacco grown in the "black patch" of western Kentucky climbed from six cents to 16 cents.

When the war began tobacco production in European countries was virtually halted and there was a tremendous drain on the big stocks of American tobacco in European warehouses. It was the demand made upon these reserve stocks that sent prices upward, rather than the overseas shipments, which were in reality smaller than those in times of peace, dealers say.

The amount now held for export, however, is not sufficient, in the opinion of big dealers, to replenish foreign stocks. They say that this condition, coupled with the desire of domestic manufacturers to increase their stocks, will make competition keen for a year.

WORRIED OVER EXPENSES.

German Press, Particularly the Bavarian, Is Alarmed.

Munich, Dec. 9 (By the Associated Press).—Anxiety is being shown by the German, especially the Bavarian, press, over the financial stability, and even the honesty, of many of the hundreds of workmen's and soldiers' councils now conducting affairs in this country. Reliable reports say the disbursements of these councils for the past two weeks have totalled 800,000,000 marks.

If this rate of expense continues to be the usual cost of operating the government, it will exceed the total German budget, with its enormous outlay for military upkeep, by several times.

The Bavarian Gazette says the money difficulties of the councils constantly are growing more acute. The financial problem was simple in the beginning because, it is said, the soldiers occupied state buildings which were heated and lighted

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; to sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of Limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge, which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and, above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.—Adv.

An International Tribunal. A trial of Herr Hohenzollern before an international court of justice would have the excellent effect of demonstrating that such a court could be established and made to work. It would be an object lesson in the possibilities of international jurisprudence which very many are not disposed to admit in connection with a league of nations.

Stung.

A young bridegroom, after the wedding was over and the bride's father had gone to his club, began to search excitedly among the wedding gifts.

"What are you looking for, dear?" asked the bride. "That \$5,000 check of your father's," he replied anxiously. "I didn't see it anywhere."

"Poor papa is so absent-minded," said the bride. "He lit his cigar with it."
