The young man was stricken with influenza at St. Johnsbury, where he had employment, but was able to make the journey home, when his condition became serious and pneumonia developed. Throughout his painful illness he bore his sufferings with patience and the cheerful disposition of the young man was shown until his life passed out.

Being of honest, noble character, the home and community in which he lived has a keen loss and those who knew him best can but feel that his short life on earth was a ray of sunshine filled with the smiles that always lightened his face.

PURE BLOOD CLEARS SKIN

North Adams Resident Uses Blood Purifier and Obtains Almost Immediate Relief.

Several months must pass before the civilian man power of the country is back to normal. In the meantime many men will be called upon to bear the burdens of two men, and unless they take special precautions to keep their bodies in condition they will fall victims to disease. Overworked men and women with under-nourished blood and nerves are among the first to succumb to Spanish influenza and the death toll from that scourge is to-day a warning to those having weak blood. Keep the blood healthy and other parts of the body will be strong.

J. H. Parks of No. 12 Riverview avenue, North Adams, Mass., learned, after a long period of illness, that pain and suffering can be overcome by intelligent use of treatment. He, like many men and women of to-day, was forced to work day and night. As his vitality was sapped, he began to worry, and a general breakdown was a natural consequence. Mr. Parks says:

"Worry and hard work, day and night, left me almost a nervous wreck. I had a general breakdown and seemed without life or energy. I lost weight and was worried over a heart fluttering. It seemed as if my heart would skip a beat, and I could not sleep on my left side without feeling a sensation of smothering."

"My druggist suggested that Dr. Williams' Pink Pills might give me relief. After taking one box I began to feel better and continued the treatment until I had taken three boxes."

"To-day the terrible weak feeling has disappeared. I have gained in weight, my heart no longer skips a beat, and I get up feeling rested after a night's sleep. During the early part of my illness I developed what the doctor called eczema, and my face and neck were covered with sores. Almost immediately after taking Dr. Williams' Pink Pills my skin began to clear and to-day the eczema has entirely disappeared. I have recommended the treatment to others, and I know that they will also find relief."

To build up the blood there is one remedy that has been a household word for a generation. Dr. Williams' Pink Pills for Pale People. They tone up the entire system, make the blood rich and red, strengthen the nerves, increase the appetite, put color in the cheeks and lips and drive away that unnatural tired feeling. Plenty of sunlight, good wholesome food and fresh air will do the rest.

The pamphlet, "Building Up the Blood," contains just the information that every mother of a growing girl needs. It will be sent you at no address free on request.

Four own druggists sell Dr. Williams' Pink Pills, or they will be sent by mail postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.—Adv.

Fire at John B. Thompson's Considerably Damaged House.

The inhabitants of our village were startled about 6 o'clock Sunday morning by a fire alarm. It proved to be John B. Thompson's house that was on fire. A crowd of helpers soon arrived and the quick work of the family and the first arrivals soon got the fire under control, but not until there was a big hole in the roof, the side of the house and the chamber floor. Help turned out and the house was in very good repair before dark. It was very fortunate that the fire was discovered as soon as it was, as in a few minutes' more it would probably have been beyond control.

THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound that I bought a bottle and I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTLINE, 2842 North Taylor St., Philadelphia, Pa.

now suffering from quinsy sores. Private Newton expects to return home as soon as he is able.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it does Mrs. Wortline.

The Williamstown local of the New hold a meeting at the town hall in Williamstown on Saturday, Jan. 18, at 8 o'clock p. m., for the purpose of electing officers for the year, also to elect delegates to the county local. All members and milk producers are asked to be present. C. A. Briggs, president, C. L. Hayward, secretary.

Save Wednesday evening, Jan. 22, for the comendrum supper, to be given at the Congregational church parlors. Watch for the menu.

Relief comes instantly. A dose taken every two hours until three doses are taken will end gripe misery and break up a severe cold, either in the head, chest, body or limbs. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.—Adv.

A Working Girl's Life. Day in and day out, month after month, she toils. Often she is the breadwinner of the family and must work that others may live. Rain or shine, warm or cold, she must be at her place of employment on time. A great majority of such girls are on their feet from morning until night, and symptoms of female troubles are early manifested by weak and aching backs, dragging-down pains, headaches and nervousness. Such girls are asked to try that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been giving girls strength to do their work.
