HIGHEST WAGES EVER PAID. Were Distributed in Westmoreland County, Pa., Mine Region.

Greensburg, Pa., Feb. 26.—The highest scale of wages ever paid in Westmoreland county was in force in 1918, the miner's average daily pay being about \$6, an increase of nearly \$2 over 1917. The average yearly earnings of miners for 1918 was \$1,800, in some instances this sum reaching \$3,000. While \$150 was the monthly average, many miners drew as high as \$400.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back is Aching or Bladder Bothers, Drink Lots of Water and Eat Less Meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

CAMPBELL SEEKS SPEAKERSHIP. His Entry Into Race Complicates Matters for Gillette.

Washington, Feb. 26.—It is understood that support for Mr. Campbell as a candidate for speaker has been promised by a number of western members. The announcement that he will enter the race complicates what had been expected to be a two-sided fight between Representative Mann of Illinois and Representative Gillette of Massachusetts.

Bavaria—The Awful Example.

If Germany is to have an outbreak of flagrant bolshevism, the remainder of the country will be glad to have it in Bavaria, for there it must illustrate its enormities and run its course to its end with the full southern impetuosity—the essentially conservative sentiment of that Catholic country being sure to prevail in the end. No one could really have been less representative of Bavaria than Kurt Eisner and his government.

THOMPSON NAMED FOR CHICAGO MAYOR

Women Cast 58 Per Cent of Their Registered Vote and the Men Cast 56 Per Cent.

Chicago, Feb. 26.—Complete unofficial returns to-day showed that the percentage of registered women voting in yesterday's city primary was 58, while the percentage of registered men voting was only 56. William Hale Thompson, incumbent, won the Republican nomination for mayor by a plurality of 39,246 over Harry Olson, chief justice of the municipal court, and Charles E. Merriam, president of the University of Chicago, Robert M. Sweitzer, county clerk, was the victor for the mayoralty nominating Thomas Carey, wealthy manufacturer on the Democratic ticket, defeated by a majority of 60,983.

Excepting aldermanic candidates in four wards, the socialists placed a complete ticket in the field, headed by John M. Collins as the mayoralty candidate. There being no contest the ticket will appear on the ballot with that of the Republicans and Democrats at the election in April.

Laboring men were advised by leaders to remain away from the primaries in order to sign the petition by which it is planned to place a full labor ticket on the ballot at the April election. This ticket is headed by John Fitzpatrick for mayor. He is president of the Chicago Federation of Labor.

THREE MEN SHOT AT UNION MEETING

Police Are Looking for "Moss" Enright, Active in Labor Troubles and Once Convicted of Killing a Fellow Labor Agent.

Chicago, Feb. 26.—Two men were shot and perhaps fatally wounded and a third was slightly hurt last night at a meeting of a plumbers' union. All three are members of the union.

The police announced to-day that Maurice ("Moss") Enright, active in labor troubles and once convicted of killing a fellow labor agent, was being sought on suspicion of being concerned in the shooting.

PREPARING FOR BOOM. American Business Men Are Getting Ready in Mexico.

Laredo, Tex., Feb. 26.—American business men have been preparing for a boom in Mexican business since regulations governing exportation of food and general supplies to Mexico have been modified. Representatives of scores of nationally known concerns have passed through this border city recently to arrange for establishing branch houses or distributing warehouses in Mexico.

Business interests here believe that within the next three months all special export restrictions will be removed and goods will pass into Mexico as freely as before the Mexican disturbances began. Recent modifications have been so extensive that the embargo now covers only a few commodities.

WAR WORKER HONORED. Martin V. Merle Entitled to Wear Squadron Insignia.

Paris, Feb. 26.—One of the first workers of a war service organization to be officially recognized as a member of a fighting unit is Martin V. Merle of San Francisco, a playwright and a Knight of Columbus secretary, who was attached to the 27th aero squadron for four months during the fighting at Chateau Thierry, St. Mihiel and the Meuse-Argonne district.

Mr. Merle has received an official communication from the officers and men of the 27th aero squadron as notification that he has been given the right to wear the squadron insignia. He originated the scheme of dropping Knights of Columbus cigarettes from airplanes over the first line trenches, which was adopted with much success.

MEXICAN TROOPS GUARD MINES

To Prevent Villa from Carrying Out a Threat to Destroy American Property

AMMUNITION SENT FROM UNITED STATES

Villa Demanded Surrender of a Million Dollars by March 1

Juarez, Mex., Feb. 26.—Mexican federal troops have been ordered to guard American mining properties in northern Mexico, it was announced to-day, and two hundred troops have been stationed at Santa Eulalia Chihuahua and Madera. This was done to prevent Francisco Villa from carrying out his threat to destroy American properties and kill American employees unless \$1,000,000 were paid him by March 1.

Additional supplies of ammunition have been sent from the United States to these points under a special permit.

BIG LIBRARY FOR SOLDIERS. Fifty Thousand Books for the American Army of Occupation.

With the American Army of Occupation, Feb. 26 (Correspondence of the Associated Press).—Fifty thousand books, consisting of works of history, science, reference, fiction and others, have been brought into the occupation zone recently for the American soldiers holding the Coblenz bridgehead and the area on the left bank of the Rhine.

Two distributing stations have been opened in Trier and Coblenz, where soldiers may borrow books by merely signing their name, company and regiment. In addition books are distributed to the troops in the smaller towns and the hospitals through the several welfare organizations.

Distribution of books is in charge of Judson T. Jennings, of Seattle, Wash., for the library war service of the American Library association. In the first four days the library was opened in Coblenz more than two thousand books were taken out by soldiers doing garrison duty in the city and vicinity.

WOULD BE DETRIMENTAL. Extension of American Seamen's Act to Other Nations.

London, Feb. 25.—The committee of the International Seafarers' union, appointed yesterday to consider the American seamen's act, to-day submitted its resolution to the conference and declared that in the opinion of the committee the extension of the act to all countries would be detrimental to the seamen of such countries. It suggested that the extension of the principles of the act should be left to the judgment and efforts of the seamen of each respective country. The resolution said the committee recognized that the act worked beneficially to the American seamen and recommended that every effort should be put forth to maintain the act in its present scope in the ports of the United States.

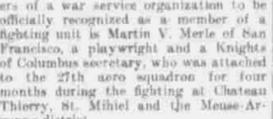

The conference postponed discussion of the resolution until Wednesday.

MANNHEIM AGAIN BOILS UP. Spartan Forces Occupied Postoffice and Other Public Buildings.

Copenhagen, Tuesday, Feb. 25.—A fresh revolt broke out at Mannheim to-day. Spartan forces occupied the post-office, the telegraph offices and the railway station, and communication with the city is interrupted.

Touch Toes Fifty Times

Fine exercise! Keeps skin clear and complexion rosy by forcing the delayed food, poisons and waste from the stomach, liver and bowels. Splendid!

But most people take their exercise in an easy chair. They become headachy, bilious, sallow, dyspeptic, constipated. Such folks must take Cascarets occasionally. No other cathartic or laxative "works" like harmless Cascarets. They act on the bile-clogged liver and constipated bowels gently—no inconvenience! Cascarets cost only 10 cents a box.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR, DOUBLE ITS BEAUTY

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful at Once.

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes! but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents.—Adv.

DON'T FEAR U. S. COMPETITION. Because of Belief That High Cost of Iron and Steel Will Prevent.

London, Feb. 26 (Correspondence of the Associated Press).—Belief that because of the high cost of production of iron and steel in America, the United States will not be able successfully to compete with Great Britain in neutral markets, is expressed in trade circles here, says a statement made by the American Chamber of Commerce in London.

The United Kingdom, it was asserted, will maintain first place in these industries if it gets assistance from the state and has no trouble from labor. Great activity is to be seen among manufacturers who are converting their machinery to a peace basis. To meet the demands of steel makers the government is seeking to secure 1,000,000 tons of pig-iron from the United States for delivery this year.

Germany, the chief pre-war competitor of Great Britain, has temporarily, at least, been removed from the field. Twenty years ago Great Britain exported four times as much steel as Germany, but in the last year before the war, it is said, Germany exported a million tons more than Great Britain.

CALLS LEAGUE COVENANT "WISE, SOUND, AND JUST"

Senator Owen of Oklahoma Says Peace of World Is Too Important to Let This Safeguard Go By.

Washington, D. C., Feb. 26.—Senator Owen of Oklahoma, Democrat, speaking to-day in the Senate, declared that while not perfect, the proposed constitution of the league of nations is "wise, sound, and just" in its fundamental principles. The senator, who has just returned from France, urged the Senate to consider the league plan constructively rather than "exciting vague suspicions and arousing the hostility of our people on the theory that his instrument is full of pitfalls and dangers."

"The peace of the world," declared Senator Owen, "is too important, the future happiness and security of our people is too important, that we should fail at this wonderfully auspicious time to adopt a plan which will safeguard the future of the world."

"No thoughtful man, certainly no thoughtful statesman acquainted with the fallibility of himself and the fallibility of other representatives, would expect that this first formulation of a draft would be perfect. It is not perfect, but it is a beginning and contains many things of value. And it can be perfected so as to completely safeguard the world against war and at the same time completely safeguard the sovereignty and absolute independence of each one of the member nations."

Replying to critics who asserted that article one of the proposed constitution would authorize the supreme council of the league to invade the sovereignty of the United States, Senator Owen declared he was sure Great Britain, France, Italy and Japan did not contemplate granting this right to the league, and added:

"It is not necessary for the league to interfere with the internal affairs of any member nation."

So that there will be no misinterpretation of the powers of the league in this matter, Senator Owen recommended that the proposed constitution be amended to provide that nothing contained in the instrument itself should be construed as granting any rights to the league over the internal affairs of member nations, but that every member nation should be recognized by having complete right over its emigration and immigration, its imports and exports and all domestic affairs without any interference whatever by the league."

"I am altogether in accord with the principles expressed in the farewell address of Washington," Senator Owen continued. "But the day of American isolation has long since ended. Our interests are bound up in the welfare and happiness of mankind. We are no longer isolated. We are face to face with the duty and the task of using the influence of this great nation to bring about security and peace of the world."

"We cannot afford to have another world war. The interests of the American people demand peace, security and stability in order that they may enjoy the rights gained by our constitution of life, liberty and the pursuit of happiness. The world wants peace, justice and has shown itself willing to die for this cause. Do not underestimate this demand. Do not deny or ignore this profound aspiration of the human heart."
