

RANDOLPH Slight Fire Caused Death of Parrot and Canaries Yesterday.

A call for fire was sounded about 4 o'clock on Friday morning, and the fire company was called out. It was found that the trouble was in the tenement occupied by H. F. Woods and family on South Main street, in the tenement over the garage supply room. The damage was not extensive, but the smoke caused the death of the parrot owned by Mrs. Woods, and also her canary birds. The fire was soon in hand, and the damage not extensive.

QUICK RELIEF FROM CONSTIPATION Get Dr. Edwards' Olive Tablets

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for salomol.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—a torpid liver and are constipated, you'll find quick, sure and only pleasant relief from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

HEALTHY BOWELS

Nine-tenths of human sickness, from infancy to old age, comes from stomach or bowels being out of order.

Headaches, tired feeling, nervous depression, weakness, spots before the eyes, bad breath, sleeplessness, irritability, dizziness and many other signs of sickness stop, if you treat the stomach and bowels right and get them into working order.

The prescription, known as Dr. True's Elixir, has done wonders for sick people, men, women and children, because it is the one remedy that you can rely on to set things right in the stomach and bowels.

Sold by all druggists, big or little, everywhere. Druggists, as a rule, are very honest. They do not try to substitute something else for Dr. True's Elixir, because they know its value. Many druggists use it in their own families.—Adv.

A TEACHER OF "NEW THOUGHT"

Believes "FRUIT-A-TIVES" Highest Result of "New Thought" in Medicine.

MR. A. A. YOUNG

"I am not in the habit of praising any material medicine as I am an advocate of New Thought, but some time ago, I had such a bad attack of Liver and Stomach Trouble that I gave up thinking I did not have it, and took a natural medicine, 'Fruit-a-tives' or Fruit Liver Tablets.

Most gratifying was the result. It relieved my liver and stomach trouble, cleaned up my yellowish complexion and put new blood in my body.

While I am no backslider from 'New Thought', I feel there may be times when a help to nature may be necessary; and if so, I believe that 'Fruit-a-tives' is the highest result of New Thought in medicine."

BEST TOURIST SEASON

Vermont Ever Had Is Expected by Vermont Secretary of State.

"We are looking for the best tourist season that Vermont has ever seen," says Secretary of State Harry A. Black of Montpelier.

"We have had an unusually large number of inquiries regarding routes and hotel accommodations, and it is expected that there will be many more cars on the roads this year than ever before.

From present indications, the registration of automobiles within the state will be about 2,000 more than in other years," said the secretary of state.

Mr. Black says that no radical change in the publicity program over other years is planned for this season. An advertising campaign in the New York papers is contemplated, explaining to the people of that state the attractions of Vermont scenery, the accommodations which can be secured for vacationists or summer residents, the beauty spots of the Green mountains and the routes by which these places can be reached.

Another plan upon which the publicity department is working is the compiling of a booklet showing the cottages at Vermont lakes and in summer resort localities which can be rented or purchased this season. Figures and specifications of all cottages in every part of the state are being collected, and those having such cottages for rent or for sale are requested to make it known to the secretary of state or the publicity agent, in order that mention may be made of the same. These booklets will be widely circulated, and will serve both as an advertisement for the state and for the people who have the cottages.

Something new in the line of publicity is the Green Mountain booklet, which is now in the process of printing. This booklet contains detailed information concerning every mountain of any prominence in the state, its height, location, general characteristics, accessibility, range of view, etc. No booklets of this particular nature have previously been issued by the publicity department. They will be circulated throughout New England, New York and other states where there may be a call for them.

"We have just as good scenery and just as much to bring the tourist or summer visitor to Vermont as the White mountains or the Adirondacks," said Mr. Black. "One of our chief difficulties, however, is the lack of hotel accommodations at points where they would be of distinct advantage. We should have a first-class hotel right at the foot of Mount Mansfield, as the Mount Washington hotel is at the foot of that mountain. It probably will take many years to bring these things about but we hope that it will come some day."
