SUSPECT LEAGUE OF NATIONS

Germans Are Said to Consider It Veiled Scheme for Ascendancy of Allies.

London, May 2.—According to a summarized report of an interview given by Herr Scheueking, one of Germany's peace delegates, to the Berlin correspondent of the Herald, the league of nations which has been formulated at Paris has brought disillusionment to Germany. It is regarded there as a thinly veiled scheme for the victorious powers to gain the ascendancy and give the militarists an opportunity to taunt the pacifists for their simplicity, it is said.

"If the scheme is adopted in its present form," Herr Scheueking is quoted as saying, "the league will lose all its moral authority over all sections of the Germans, some of whom will revert to reaction. Others look forward to the establishment of international socialism."

Herr Scheueking emphasized that a feature of the German plan for the league creates a representative world parliament, thus safeguarding the democratic basis of the league and avoiding the return of militarism in a new form.

CALLS LABOR PROGRAM A BIG ACHIEVEMENT

Pres. Wilson Cables to White House in Washington That Interests of Labor Are to Be Systematically Safeguarded.

Washington, D. C., May 2.—President Wilson cabled Secretary Tumulty to-day that in his opinion the labor program adopted as part of the treaty of peace "constitutes one of the most important achievements of the new day in which the interests of labor are to be systematically and intelligently safeguarded and promoted."

The message, as made public at the White House, follows: "The labor program which the conference of peace has adopted as a part of the treaty of peace constitutes one of the most important achievements of the new day in which the interests of labor are to be systematically and intelligently safeguarded and promoted. Amidst the multiplicity of other interests this great step forward is apt to be overlooked, and yet no other single thing that has been done will help more to stabilize conditions of labor throughout the world and ultimately 'relieve the unhappy conditions which in too many places have prevailed. Personally, I regard this as one of the most gratifying achievements of the conference."

HELPING BRITISH FLYERS.

By Giving Them the American Daily Weather Reports.

New York, May 2.—In the interest of good sportsmanship, the American naval patrol now forming for the projected trans-Atlantic flight of the giant navy NC planes is giving to the British aviators awaiting a favorable opportunity to "jump off" at St. Johns, N. F., daily wireless reports of oceanic weather conditions.

Hawker and Raynham had complained of delays in receipt of the British weather information, Commander Towers of the American expedition said he had learned, and it was decided, though the British might set out on the first ocean air cruise before the American planes were ready to give them the benefit of meteorological information picked up by the destroyers already at sea on the way to their stations in the proposed line of communication with the naval aviators.

Malick, aide to Marshal Joffre, to protest to friends here. So far as the soldiers of France are concerned, Captain Malick writes in a letter to Lieut. Col. A. L. HEAVY GUARD OF POLICEMEN

For Over One Hundred Men and Women Arrested in Boston Riot

ATTEMPT AT RESCUE WAS APPREHENDED

Several Policemen and People Injured in the Disturbance

Boston, May 2.—Measures were taken by the police to-day to prevent a recurrence of the rioting of yesterday in the Roxbury district when more than 100 men and women were arrested in connection with red flag demonstrations. The routes over which the prisoners were transferred from the police station to the court house was carefully guarded in anticipation of possible attempts at rescue.

As soon as the prisoners reached the court house they were placed in the detention cells in the basement while preparations for their arraignment went on in the court room.

One of the prisoners said that he was William Sidis, who while a Harvard university student attracted attention as the youngest student to receive a degree. He is a son of Dr. Boris Sidis, a psychopathologist.

Up to noon five men had been arraigned charged with "taking part in an affray." Two of the number, Ernest Greenberg of Watertown and Arnold Janeton of Arlington, were found guilty and sentenced to serve two months each in the house of correction. The other three were discharged.

Three policemen and a civilian were shot, another officer was stabbed and a number of radicals were badly beaten when 300 policemen, aided by soldiers, sailors and civilians, fought with the crowd of several hundred radicals who attempted to parade after a May day meeting.

Following a meeting in the Dudley street opera house, the radicals filed in the street carrying red flags, wearing red buttons and flaunting radical literature. A number of women wore red dresses. Leaders could not produce a parade permit, and a policeman ordered them to disperse. He was greeted with hoots and pushed aside.

The police succeeded in breaking up the crowd and began taking out prisoners. These were loaded into patrol wagons and taken to station houses. The policemen held their guns on the radicals who threatened to rescue the prisoners. One officer held a gun on five men and said he would shoot the first one who attempted to escape.

The policemen ordered civilians with automobiles to help them carry off the prisoners. The radicals slashed the tires of one machine but its driver pulled out for the station house on flat tires.

Superintendent of Police Crowley became alarmed and notified the adjutant general's department that he might have to call on the state guard for help. An officer from the adjutant general's office went to Dudley street and found that the police had the rioters subdued.

Capt. Hugh J. Lee of Boston Police Force Was Engaged in Trying to Check Red Flag Riot Yesterday.

Boston, May 2.—Captain Hugh J. Lee of the street police station in whose district serious rioting occurred yesterday as a result of the display of red flags in a parade of radicals, was found dead in bed at his home to-day. Death was said to be due to natural causes, although fellow officers were inclined to believe that the strain under which he worked during the disturbances was in a measure responsible.

Causes Yellowing of the Crop in Middle West States.

Chicago, May 2.—The yellowing of wheat in certain parts of Illinois, Indiana and Ohio, together with a loss of vigor in the plant, is reported due to an affection hitherto unknown in this country. French Ambassador to Italy Told Him of Events in Paris.

MOBS HAVE KILLED 3,224 IN 30 YEARS

By Far the Largest Part of the Lynchings Have Taken Place in the South—Many Women Have Been Included.

New York, May 2.—In the last 30 years 3,224 persons have been put to death by mobs, according to a report made public to-day by the National Association for the Advancement of Colored People.

For the 30 years' period from 1889 through 1918, the north has had 219 victims, the south 2,834, the west 150 and Alaska and other territories 15. Fifty colored women and 11 white women were lynched in 14 states, the report says. "Thirteen of the 14 states in which women fell victims to mobs were southern states, Nebraska being the only state outside the south which lynched women. The north and west together have lynched 21 persons during the last five years' period, whereas during the same time 304 persons were lynched in the south."

Regarding President Wilson's appeal to state governors and other civil officers to prevent lynching, the report says: "Despite President Wilson's earnest appeal, made under such extraordinary circumstances, lynchings continued during the remaining period of the war with nearly sixty-three negroes—five of them women—and four white men fell victims to mob ruthlessness during 1918 and in no case was any member of the mob convicted in any court and in only two instances were trials held. In both of these instances the mob members were acquitted."

In conclusion the report says: "It is apparent that lynchings of negroes for other causes than the so-called 'one crime' have for the whole period been a large majority of all lynchings, and that for the last five years less than one in five of the colored victims have been accused for rape or 'attack upon women.'"

WARM IS AGAIN CONVICTED

Ex-Soldier Found Guilty of Manslaughter in Death of Jennie Hemmingway

A "JUST VERDICT" DECLARED BY JURY

He Was Retried Because a Juror in Former Trial Made Bet on Case

St. Albans, May 2.—"Guilty of manslaughter," was the verdict of the jury to-day in Franklin county court in the case of State vs. Robert Warm, a former soldier, who was charged with the murder of Jennie Hemmingway, 14 years old, in this city on the night of August 12, 1917.

The body was found in a cornfield on the Newton road the morning of the 13th. Verdict was given when court came in at 9 o'clock this morning, by B. H. Wood of Georgia, the foreman. The jury had had the case since 2:40 yesterday afternoon.

"Are you certain you have rendered a just verdict?" asked the county clerk, G. C. Stevens.

"We certainly are," said Mr. Wood.

W. R. McFeeters, for the state, moved for judgment on the verdict, and for sentence. C. G. Austin, senior counsel for Warm, said they did not want the motion acted upon at the present time, as they desired to file some motions in the case, especially for arrest of judgment on the evidence. Mr. McFeeters said there was no objection to this, but asked that they have some special notice of the time, as both he and his associate, R. E. Brown, expected to be busy at least a part of next week.

Warm received the verdict with the same degree of calmness that has marked his actions during the entire trial. He had once before been pronounced guilty of the crime and was sentenced to serve 10 years in the state prison, but the case was sent back for retrial on the ground that one of the former jurors had bet a cigar on the case.

The body of the girl was found in a cornfield after an all-night search. Warm had been her companion. His defense was that he was attacked by other soldiers while talking with the girl and ran away. When it was reported she had failed to return home, he joined the searching party.

"HOLE IN THE WALL" GAS METER YIELDED \$3.50

Robber Got Into Restaurant Through Window in the Rear—Two Ham Sandwiches Were Also Stolen Last Night.

Three dollars and a half and two ham sandwiches was the complete loot secured by a burglar when he gained entrance to E. Letourneau's lunch room, "The Hole in the Wall," sometime between 9 o'clock last evening and 6:30 this morning. The money was taken from the gas meter. Upon the ice chest were found a hammer and ice pick, evidently the articles used to break the lock. The meter is fastened to the wall under a counter at the rear of the room. Burnt matches were lying on the floor and were probably used to locate the tools used.

Mr. Letourneau noticed immediately after entering the place this morning that the rear window was slightly open at the top. As it is customary for him to fasten the window as closely as possible each night before closing time, his attention was attracted by that, as by the ice pick and hammer out of their proper places. The latch on the window is of the old-style, fastened to the side, and by bearing down hard upon the outer part the window can be lowered sufficiently to allow a person's fingers to be inserted for a good grip. All that was necessary then was to pass down upon it and climb over the lower part of the window. Boxes and dishes on the shelves had been moved about in search of money, but 25 pennies in a dish were overlooked by the robber. Had the break been made last week a much larger amount might have been obtained before the monthly collection was made by the gas company.

ONE-THIRD RAISED. VICTORY LOAN LAGS

Record at This Stage Is Behind Number Third and Fourth Loans—Both the of Subscribers in New England Disappointing.

Washington, D. C., May 2.—With indicated subscriptions of \$1,600,000,000, one-third of the Victory loan quota, the country still lags to-day behind the record made in both the fourth and the third loans.

Reports showed that the number of individual subscriptions was falling off in several districts, notably Boston, and treasury officials declared extraordinary efforts would have to be made to equal the record of 20,000,000 subscribers to the fourth loan.

Cincinnati, always one of the first large cities to obtain its quota, has reached its allotment with \$200,000 to spare. The Cleveland district was reported to have subscribed more than \$250,000,000, although official reports showed only \$121,000,000. Honor flags have been awarded to 233 communities in the district. Two hundred and twenty-nine cities in the Boston district have been awarded flags.

On the face of these returns Vermont once again assumed the lead in percentage of quota subscribed, the total of \$6,668,000 representing more than 72 per cent. Connecticut, with a total of \$34,125,000, had 68 per cent of its quota.

The number of individual subscribers to date was 101,119, of which 22,463 were reported yesterday.

VERMONT AGAIN BACK IN THE FIRST PLACE

Boston, May 2.—New England's Victory loan total stood to-day at \$138,259,000. This was an overnight gain of but \$13,968,000, less than half the daily average necessary to enable the district to obtain its quota of \$375,000,000 before the close of the campaign. Nearly half of the total for yesterday came from Massachusetts, which contributed \$6,211,000. Figures for the other states were: Rhode Island, \$2,838,000; Connecticut, \$2,079,000; Vermont, \$942,000; New Hampshire, \$650,000; Maine, \$48,000.

On the face of these returns Vermont once again assumed the lead in percentage of quota subscribed, the total of \$6,668,000 representing more than 72 per cent. Connecticut, with a total of \$34,125,000, had 68 per cent of its quota.

ALIVATION JIT BROUGHT

And Divorce Case of Mary Ethel Button vs. Worthen Button Is Halted

LATTER HAS SUED W.G. KNIGHT FOR \$10,000

Mrs. Button Had Brought a Divorce Action for Intolerable Severity

The trial of the divorce suit of Mary Ethel Button, now of West Topsham, against Worthen Button of Barre Town in Washington county court seems to have come to a sudden end although no entry was made in the matter to-day.

It is possible that the case has been continued. Intolerable severity was the ground set up for the divorce action. However, there is a new development with the case, the charge of alienation of affections having been brought against W. G. Knight, who is now in county jail. According to information given out this morning, Deputy Sheriff H. J. Slayton was at East Barre yesterday afternoon when the Knight automobile, which was carrying the plaintiff's attorney in the divorce suit, reached East Barre. Papers were then served on Knight in a \$10,000 suit, the proceedings being brought by Worthen Button, the defendant in the divorce case. The defendant in the alienation suit was not able to furnish bail last night and was lodged in the county jail for the night.

The divorce suit was heard yesterday afternoon. It was testified that Mr. and Mrs. Button had lived together many years, having children aged 16 and 15 years. An effort was made before the trial started to avoid the trial but Mrs. Button opposed this action on the ground that she had lived with Mr. Button only for the purpose of bringing up the children and that there now was no reason why she should live longer with him.

The case did not vary a great deal from the plaintiff's testimony, which, abuse being claimed by the plaintiff ever since a short time after marriage took place. The petitioner testified to this and was substantiated by her mother and a Mrs. Smith, the latter of whom said she heard Mrs. Button called names by her husband. They own a \$4,000 farm jointly, while Mrs. Button signed a mortgage on their farm that her husband might buy another small farm. Much of the testimony was relative to notes and loans of money.

It was stated in court this morning that the case of H. W. Kemp, as trustee of the fund created from the estate of the late C. C. Putnam for Harriet Putnam will, against the administrator of the estate of J. W. Brock will go to supreme court, that the facts will be filed in court shortly and that then the case will be carried to supreme court for a decision on points of law. It is claimed that Mr. Brock as bondsman for the trustee before Mr. Kemp took the appointment, was liable for the bond, the fund having disappeared.

The cases of John A. Parker and the estate of James Demerit, which have been on the court docket for some years, have been settled
