Roof Facts

The difference in efficiency between the steam engine and the stage coach is no greater than that between the very best Roof and the ordinary so-called "Rubber" Roof. It is so easy to accept looks, or toughness, or some other non-essential, that the all-important factor, slowness-to-dry-out, is often given not even a thought.

Of course, slowness-to-dry-out is not an apparent quality. You can't see it. Neither can you learn by any kind, manner or degree of test or analysis whether a Roofing will dry quickly or slowly. Only the test of actual use will tell.

Certain-tee Roofing

Many people test Roofing by bending or tearing it. Such tests are misleading. Toughness is no proof of good Roofing. In fact, it is usually a sign of insufficient saturation. On the other hand, don't conclude that such saturation is certain proof—it may be nothing but quick-drying oil.

The sure safe plan is to buy well known and responsibly guaranteed Roofing.

Certain-tee Roofing is used in every civilized country and is known by everyone. It is made by the largest manufacturers of Roofing in the world, and they guarantee it in writing—1-ply 5 years, 2-ply 10 years, 3-ply 15 years. The price is less than for other high-grade coverings. Let us quote you.

The baseball game at Morrisville last Saturday afternoon between Spaulding and People's academy was recorded as an unfinished game due to rainy weather. Though five innings were played and the Morrisville team had the lead of one score, which stood 3 to 2, the game was called by the umpire with neither nine being credited for the five innings.

The undefeated Comman baseball team defeated the Websterville team at Websterville Saturday by the score of 8 to 6 although they had to go 14 innings to do the trick. The Combination's battery was Comelli and Willey, while Nutbrown, Beaton and Rogers were in the points for the Websterville team. This game makes four victories for the Combination.

William Lyon Phelps, professor of English literature at Yale college, has consented to appear at the Spaulding graduation exercises the evening of June 20 to give an address. For the past few years attempts have been made to secure Professor Phelps to speak on this important event, but because of country-wide reputation as a speaker, Spaulding failed. This year, early in the winter, correspondence reached him in time to have June 20 set aside as the day to visit Barre.

The local drive conducted by the Hedding Methodist church in connection with the \$105,000,000 centenary fund of the whole church organization started off well yesterday, approximately one-half of the desired amount, \$3,281 annual payment, having been pledged during the first day of the effort. There are still a large number of the members and adherents of the church to be seen in connection with the campaign, and it is the expectation that the entire quota of Hedding church will be raised during the remainder of the week. Eight teams made up of two persons for each team are engaged in the canvass, and they will meet each night to make report of progress until the campaign is concluded.

The Goodrich Tire company has adopted a novel form of advertising its goods on the state roads near various important cities of the state. Large boards are erected in the form of an open history book beside which stands a quill and ink bottle. In each is written some important fact derived from the city some time in the past and in most cases is a well-known phrase of one of the most distinguished citizens. These boards are placed four miles from each municipality where advertising is believed to prove most fruitful, and are artistically arranged to hold the interest of tourist and traveler. Through these wooden structures were erected at different times during the winter months, only recently was the curiosity of the public satisfied as to the final use to which the curiously carved boards were to be put.

The annual alumni ball of Spaulding high school will be held in the school assembly hall Wednesday evening, June 18. This year elaborate plans are being made that it may be the greatest success ever known in the history of the school. That the students who ended their school days in fight for their country before having graduated, and other former students who left the school in good standing, but through some misfortune were unable to complete their course, may take part in the occasion, the committee having decided not to restrict the dancing privileges to students of the junior and senior years and members of the alumni, but to extend them to those already mentioned. Arrangements have been completed whereby a few novelties will be interwoven during the peace celebration of the old-time schoolmates. The services of Landi's six best musicians have been secured for the event and several novelties, unlike any produced in this vicinity before, are to add to the enjoyment. The following persons are members of the committee arranging for all particulars: Miss Eva Smith, Charles Little, Mildred McGue, Norman Gordon and Francis Burke.

The Greatest Medical Authorities in the World have made public statements in which they endorse the value of such ingredients as are contained in Father John's Medicine.

These great physicians say in substance, that these ingredients "are beneficial notably in wasting diseases and those maladies which are connected with or have their origin in debilitating and wasting diseases and in colds."

To detail here the statements of these various authorities would require too much space, but if you desire to see these statements in more complete form, write to Father John's Medicine, Lowell, Mass., and we will be glad to give the names of the authorities quoted, with brief excerpts from their public statements.

Father John's Medicine is a pure and wholesome body builder, contains no alcohol or dangerous drugs.

GOV. CLEMENT APPEALS FOR SALVATION ARMY

Fresh in our minds is the story of the achievements of the Salvation Army during the great war. Every home-coming soldier and sailor testifies eagerly to the heroism and devotion of the men and women of this splendid organization. From the time our boys enter the service until their arrival home, the Salvation Army furnishes them much of home cheer and comfort and care. This is our first opportunity to convey to the Salvation Army an expression of our gratitude. I bespeak from Vermont hearty co-operation in the effort to raise the Salvation Army home service fund during the coming week. Surely we shall rally to the support of the workers that so nobly stood by our army over there.

Perceval W. Clement, Governor.

WILLIAMSTOWN

George W. Savery, an Old Resident, Died Saturday.

George W. Savery, a resident of this town for 52 years, died at his home here Saturday forenoon, May 17, after several years of failing health, at the age of 79 years, 9 months and 12 days. He was born in Barre Aug. 5, 1839, the son of David and Mary Savery, in which town his early life was spent. In 1861 he enlisted in the Civil war and served three years in the 1st Vermont cavalry. It is interesting to note that four brothers enlisted and fought against each other, two on each side, and all survived and lived many years after.

In the spring of 1867 Mr. Savery married Flora I. Blanchard and came to live on the west hill farm known as the Deacon Abbott farm, where five children were born to them, one son, Willie, dying when four years old, and where the mother died in 1884. In 1887 he married Fannie (Martin) Daly, who survives him with his four children and two step-children, Leslie G. and Vernon B. Savery, who reside in this town, Mrs. Mary B. Daly in West Lebanon, N. H., Mrs. Mabel F. Powers in Northfield, Dan W. Daly in West Lebanon, N. H., and Nellie E. Daly, who lives at home. There are also nine grandchildren, two grandsons who enlisted in the late war in 1917, Elliott G. Powers, lately discharged, and George B. Savery, who is still in France.

In 1906 Mr. Savery sold the farm to his son, Vernon B., and purchased a home on Quarry street, this village, where he has since lived. He was a charter member of William Wells post, No. 113.
