

# ST. MICHAEL'S THREW UP GAME

### And Forfeited to Montpelier Seminary in Sixth Inning

### BALK WAS CLAIMED BY COLLEGE'S COACH

### Even When Montpelier Con- sented to Reversal, Visi- tors Refused to Play

St. Michael's college baseball team forfeited its game to Montpelier seminary Tuesday afternoon in Montpelier in the middle of the sixth inning when the score stood 8 to 4 and the visitors had three men on bases owing to a couple of hits and an error by Grana, who tried to get a ball that belonged to Irons in center field, missing the play.

Clark, St. Michael's coach, who, it is claimed, has been signed up with the Red Sox, was on third. Duba walked to the plate and instead of throwing to the batsman threw to third, catching Clark off the bag several feet. Clark, when he saw he was caught, walked to the plate and demanded his base on a balk. Umpire Spicer called him out and denied the right to the alleged balk.

Clark then argued the matter at some length with the players of the opposing team and finally served notice upon Coach Maiden that unless the decision was changed he would leave the field, which he proceeded to do. He then showed his lack of sportsmanship by refusing to return to the field after Coach Maiden had requested a reversal of the decision so that the game might go on. Clark led his team to the dressing room. Later Coach Maiden asked Clark to bring his men back but he refused, leaving the game very unsatisfactorily decided, for Montpelier had been showing the visitors up, even to Clark, having hammered him over the lot after he relieved Hamel, who was pounded for the first two innings.

Clark admitted that Duba was facing third base when he threw there but claimed he was in position to deliver the ball to the batsman and there the question lies, for Duba does not take the same position each time when he delivers the ball to the batsman even though there are no men on bases, nor does he when men are on bases, so that it is a question whether it is a balk or not and a close point to decide at last. However, Umpire Spicer decided it was not a balk.

The game opened with Duba striking out the first two visiting players. Then C. Clifford drew a double and Clark a triple, which finished the scoring in the first inning for them. Montpelier scored three times thus: Irons drew a double; Grana, through Gravin's error, went to first, both scoring on Ward's single. St. Mary's sacrifice sent Ward to second and he scored on Grandfield's single.

In the second inning Duba struck out the three visiting players, while Montpelier scored three more. The first two men went out on weak plays. Then Irons singled; Hatch went to first on Gravin's error, Grana singled, scoring Irons; Ward doubled, scoring Hatch and Grana; and St. Mary was thrown out at first.

In the third Hamel was walked. S. Clifford singled. An error by Horricorn of Gravin's error allowed these to score, Gravin later scoring on poor judgment by Montpelier. Clark relieved Hamel for the visitors in this inning. Montpelier was a little afraid of him and after Grandfield had singled, stole second and third, Duba, Horricorn and Clark struck out.

In the fourth inning St. Michael's went out on easy plays at first. Montpelier drew a score. Hatch, having singled, scored on Grana's triple. Grana was left on third.

In the fifth St. Michael's was easily

put out, while Montpelier scored another run on singles made by Grandfield, Duba and Horricorn.

In the sixth inning Duba was advised to walk Clark if necessary but he grooved one and Clark got a double. Fleming fouled but Grana went after Monet's fly, which belonged to Irons easily, with the result that Clark went to third and Grana got an error. O'Hearn's singled, filling the bases. Mortino was batting when Duba's alleged balk took place, ending the game.

## AIR ARRANGEMENTS HAVE BEEN REACHED

### Some Small Amendments May Be Pre- sented Before the Complete Draft Is Accepted by the Nations.

Paris, Tuesday, May 27.—The aeronautical commission of the peace conference has agreed to a complete draft of an air convention and its annexes, subject to some small amendments. The convention itself deals with the following matters:

The nationality and registration of aircraft.  
General principles governing the right of international flight.  
Certificates of air worthiness and competency.  
Principles governing flight over foreign territory.  
Rules to be observed on departure or landing and when under way.  
Prohibition of the carriage of certain objects.  
The international commission for air navigation.  
Final provisions.

Technical details are relegated to annexes in the following order:  
The marking of aircraft.  
Certificates of air worthiness.  
Log books.  
Rules as to lights and signals and rules of the air.  
Certificates of competency, including medical requirements.  
International maps and ground marks.  
Meteorological information.  
Customs.

The aeronautical commission of the peace conference grew out of the international convention on aerial navigation which was called together by the French government in March quite independent of the peace conference itself. The convention drawn up by it will be submitted to the supreme council as part of the peace conference work and, in the case of the United States, to its diplomatic representatives for presentation to the Senate for ratification. The convention goes through much the same procedure as those drawn at The Hague, must be ratified within one year's time and becomes effective between the separate nations as rapidly as they ratify it. The American representatives on the commission were Brigadier General Mason M. Patrick, chief of the air service, American expeditionary forces, and Rear Admiral D. S. Knapp, representing the navy.

## SETTLE FLASHBOARD CASE.

### Cost \$12,500 and Years Ago Could Have Been Settled for \$1,300.

Middlebury, May 28.—At the special village meeting Monday night the committee appointed to investigate, reported that it was best to settle the famous and prolonged "flashboard" case. The village's share of this \$20,000 verdict, is some \$12,500, but the heaviest party hit is the marble company with \$25,000 damages to settle. The village trustees were instructed to issue orders for \$500 and \$100 each, and to pay at the rate of \$1,000 per year. A few years ago the sum the village would have had to settle for would have been \$1,300. Now it is 10 times that.
