MUCH BOXING WILL PRECEDE BIG BOUT

There Will Be 54 Scheduled Rounds at Toledo July 4, Announced by Matchmaker Thatcher.

Toledo, O., June 19.—Fifty-four scheduled rounds of boxing will precede the 12-round heavyweight championship contest between Jess Willard and Jack Dempsey here July 4, it was announced to-day by Ad Q. Thatcher, matchmaker of the Toledo Athletic club.

Thatcher was commissioned by Tex Rickard, promoter of the Independence day contest to arrange for the preliminaries and he scheduled three bouts of eight rounds each and three ten round bouts. The first match will start at 10 o'clock in the morning, an hour after the gates of the arena open, and the boxing will be almost continuous until Willard and his challenger climb into the ring.

The complete card of preliminaries follows: 10 a. m.—Tommy O'Boyle of Toledo vs. Selley Epstein of Indianapolis, eight rounds at 116 pounds.

10:40 a. m.—"Wop" English of Toledo vs. "Whirlwind" Wendt of the United States army, eight rounds at 135 pounds.

11:30 a. m.—Johnnie Lewis of Toledo vs. Tommie Long of Detroit, 10 rounds at 235 pounds.

12:30 p. m.—Johnnie Rose of Toledo vs. Battling Balliere of the United States army, eight rounds at 135 pounds.

1 p. m.—Jock Malone of St. Paul vs. Navy Balston of Joliet, Ill., 10 rounds, at 145 pounds.

2 p. m.—Frankie Mason of Fort Wayne, Ind., vs. Carl Tremaine of Detroit, 10 rounds, at 116 pounds.

Sergeant Walter Monahan, chief sparring partner for Willard, said to-day that in his opinion, Willard is 250 per cent better than when he fought Jack Johnson for the heavyweight championship in Havana in 1915.

Monahan, while not predicting a knockout for Willard, believes he will win handily. He asserted that no one knows the tremendous hitting power of the champion.

"He knocked me out with a half pulled punch and wore sixteen ounce gloves," Monahan added. "Just imagine how he can hit when he lets go with full force and only a five ounce glove on his hands."

The full list of the French entries for the inter-allied games was issued to-day and is headed by Georges Carpentier, of the French aviation corps, heavyweight champion boxer of Europe. Carpentier, who has been in active training since the armistice, will have at the stadium his first battle since before the war, when he knocked out Bombardier Wells of England in the fifth round of their bout. France will be represented in every event on the program except cricket. Vermeulen, holder of the world's record for the ten-mile run, heads the track men. France will be particularly strong in the grenade throwing events, rifle and pistol shooting, fencing, swimming and wrestling.

THE CONCESSIONS MADE TO GERMANY

Deemed Advisable to Assure Her of Certain Amount of Financial and Economic Working Capital.

Paris, Tuesday, June 17.—The plan of the allied and associated powers to make concessions to Germany with regard to financial and economic measures is deemed advisable to assure Germany a certain amount of financial and economic "working capital" without which it would be impossible for her to resume her industries or to pay reparations.

Among the concessions, it was learned to-day, was to permit Germany the use for two years of 30 per cent of her merchant ships and facilities for obtaining certain ores and other raw materials as well as the retention of her gold reserve in order to maintain the German currency system and foreign credits.

It was originally contemplated to include in the reply given the Germans Monday, a definite and detailed statement on these concessions. For tactical reasons, however, the council determined to avoid precise advance assurances to the Germans and, thereupon, made in the portion of the response devoted to reparations a general declaration as follows:

"The rebirth of German industry implies the possibility for the German people to receive supplies of food and for German manufacturers to receive necessary raw materials as well as the means of transporting them from overseas to Germany."

Added to this was a formal statement of readiness to accord these facilities to Germany in the common interest.

There was considerable discussion between British and other experts as to the amount of general tonnage which should and could be placed at the disposal of Germany during the period immediately after the war to supply the urgent need of raw materials before new ships could be built. Estimates ranged between 25 and 30 per cent of the vessels above 1,000 tons. It is understood that it was ultimately agreed to permit the Germans to defer delivery of a higher percentage until two years after ratification of the treaty. All vessels in this category in existence at present are to be surrendered ultimately.

The French also agree to the concessions, giving the Germans the right to purchase on favorable terms minette ores obtained before the war from France and German Lorraine and which must be mixed with German low grade ores to obtain a good quality of iron and steel.

The contemplated assurances concerning raw materials from overseas, it is said, are of the same general nature.

All the concessions will be communicated to Germany at an early date after the signing of the treaty, probably at one of the first conferences with the permanent reparations commission.

AGE NO BAR TO RE-EDUCATION.
The Federal Board for Vocational Education Without Regard to Their Years.

Washington, D. C., June 19.—In the case of our war disabled Uncle Sam does not fix any upper age limit for entrance upon a course of vocational training. The federal board for vocational education is charged by Congress with the duty of re-training men disabled in the war, and while the majority of these men are young, some of them have reached mature years. In terms of hardship disability may mean more to a man of middle age, with family cares than to a young fellow of 17, even though our sympathies are sometimes greater for the boy; and we must admire the man who makes a new start when he has already "crossed the divide."

A case in point is that of a man of 48, with a very limited education, who received an injury necessitating amputation of his right leg above the knee. He came to the federal board with his troubles and is now a student at a business college studying bookkeeping, business English, business arithmetic, and commercial law.

Another man past middle age waked one morning after an injury to find himself totally blind. The federal board's vocational advisers have found a way for him. He is studying typewriting, learning the use of the dictaphone, having a tutor's assistance in improving his English, and will soon be ready to accept a position as telephone salesman which will pay him from \$20 a week to \$150, according to his ability.

The federal board is ready to help both young and old. Information regarding the board's activities may be obtained from the office at 200 New Jersey avenue, Washington.
