ample to his purpose the big packer has secured affiliation through stock ownership representation on directorates, and in other ways, with numerous banks and trust companies. Mr. Armour, Mr. Swift, Mr. Morris and Mr. Wilson are directors in banks affiliated closely with those who are strong at the sources of credit in the United States. Being thus allied with the powerful interests at the sources of credit, the packers' power is great, not only for financing their own national and international operations but for affecting, for good or for evil, the credit of cattle producers and of competitors or customers in any line.

The chautauqua group pulled staves this morning after completing their five-day series of concerts and entertainments, and proceeded to Newport, where they will stage another Community chautauqua. Before departing, however, an agreement was made, whereby they will return next year and to this end 97 local people signed their names to the guarantee list. The transferring of the tents and equipment from Goddard campus delayed the 11:25 train several minutes to-day.

Ralph Holbrook and Rupert Robinson, two Keene, N. H., young men, who are on a 500-mile tramp from their home to Canada and return, had a rather terrifying experience while they were walking through a Williamsburg golf at midnight Wednesday night, having seen what they think was either a panther or a wildcat. Robinson whipped out a revolver and fired at the animal, which ran into the woods and made hideous cries. The boys decided not to tarry, and they hastened to Williamstown, where they put up at the hotel, instead of bunking out of doors as their custom has been.

BODY FOUND IN BROOK

Riley W. Denmore of West Burke Had Started Out Fishing.

West Burke, July 11.—The body of Riley W. Denmore was found in a brook in this village about midnight Wednesday night, and it is believed that death was due to heart failure. He went fishing Wednesday and not returning at night, a searching party started out to find him.

He was about 46 years old and one of the substantial citizens of the village, being postmaster and merchant. He also was director of the Kingdom of the Serbs, Croats and Slovenes.

John Barton Payne of Chicago was nominated to be a member of the shipping board, and Robert P. Stewart of Deadwood, S. D., was nominated to be assistant attorney-general.

MONTPELIER

W. H. Farrar has sold the Hutchins farm in Shady Hill for E. M. Gallagher to A. E. Fisher and wife, who take possession at once.

W. H. Farrar has sold his 27 head of registered Holstein cattle to William Foley. The cattle are estimated to be worth about \$7,500.

Mrs. A. W. Prescott and children have returned from camp in Calais. Roland Prescott and Charles Reagan, jr., and Mrs. Chandler have gone to Northfield for a visit.

Two cases were entered in Washington county court this morning. They are Manuel Lastra et al vs. Santiago Lavin, \$500, trespass. This is a suit over a line fence. H. W. Orser, as administrator of the estate of Eugene Van Ornam, late of Northfield, has brought suit against Frank Plumley, guardian of Kenneth Van Ornam. The administrator seeks to recover \$1,200, which he claims the guardian of Kenneth Van Ornam has and which belongs to the Eugene Van Ornam estate.

Plummer Richardson of Worcester, who has been ill for some time and was operated upon this week at Heaton hospital, was very low last night. The physicians were unable to complete the operation because of the condition in which they found the growth in the abdomen.

The will of Prentiss Kent, late of Montpelier, has been proved in probate court. Mr. Kent left several bequests to relatives and friends and to cemetery commissioner. These bequests include one to the Barre hospital, subject to whatever is the decision of Mrs. Clara Kent, wife of the deceased, so it is not known what this bequest may amount to.

The annual automobile book published by the secretary of state has been completed and is now ready for distribution. There are 20,000 copies of the book and those who want them can have a copy by calling at the secretary's office or writing for the same. News was received here last evening of the death of Mrs. Mary Shambo, who has lived in recent years in Hartford, Conn. She was formerly a resident of Montpelier and was about 80 years of age. She lived with a daughter in Hartford. The body will be brought to Montpelier Friday night and the funeral will be held at St. Augustine's church at 9 o'clock Saturday morning. Rev. P. J. Long officiating. The interment will be in the Catholic cemetery.

The board of control to-day finished up three days' efforts on routine business connected with state affairs. Last evening, with Frank Austin of Burlington, they looked over the grounds in front of the Capitol, with the idea of beautifying these in some way.

Boutwell, Milne & Varnum have sent to those interested in Barre granite a new booklet. It is another edition of "The Rock of Ages." It contains some excellent photographs of the old and new methods of transportation of granite stock from the quarries to Barre City. It shows the heavy trucks and teams used in drawing the granite, as well as one of the older views of Barre City, when a 25-ton stone was being drawn along the street by 14 horses. The next view is of the two engines generally used now on the quarries. Then are shown some of the improved methods of cutting the stone, including sawing, as well as some of the improved quarrying methods, and also explanations of the changes in methods.

Mr. and Mrs. Charles Parker have gone to Boston for a short visit.

While in the city this week, Ralph Walker, Rev. J. Wesley Rafter and H. A. Gardner, superintendent, chaplain and chief engineer, respectively, of the state prison, made their first visit to the granite quarries in Barre town.

Boutwell, Milne & Varnum are investigating a complaint which came recently to their office, along with another one also recently made. It appears that a firm in Philadelphia recently placed an order with some man for two carloads of granite stock, and the Boutwell, Milne & Varnum company has written to the Philadelphia firm for more information, since it has no agent who could have sold stock in Philadelphia. A similar occurrence took place recently in Boston.

ALLEGED HIGHWAYMEN HELD.

One Is Alleged to Have Confessed to Bennington Police.

Bennington, July 11.—Joseph P. Cornell, jr., and Alexander Giroux of Williamstown, Mass., are in custody charged with the hold-up here early Sunday morning when Frank Somerville, proprietor of a local cigar store, was robbed of \$182 while on his way home. Cornell is in jail at Williamstown and Giroux at Manchester, where he was apprehended and held at the request of Williamstown officials on charges of breaking and entering.

Giroux was wearing a military uniform at the time of the hold-up and has only recently been released from the service.

Cornell has been under arrest at Williamstown on the charge of entering a Boston and Maine freight car. He was interviewed yesterday by Chief of Police Richard Hurley and State's Attorney Graves, who suspected that he might have been implicated in the hold-up. At first he denied the charge but later admitted that he was involved and turned over \$92 which he said was his share of the plunder. He is only 19 years old while Giroux is 22.

1,500,000 MEXICAN ORPHANS.

And Disease Is Taking Them by the Thousands.

Columbus, O., July 11.—"The moneyed men of the United States interested in Mexico are to work with the inter-church movement to conserve the child life of Mexico and Latin-American countries to make possible a greater civilization in those states," according to Dr. Norman Bridge, millionaire philanthropist, attending the Pan-American exercises of the Methodist centenary exposition here.

The organization back of this secular movement is temporarily called the Pan-American Association to Conserve Child Life, with Dr. Bridge as chairman.

"We are impressed with the enormous havoc among children since the Mexican revolution began," said Dr. Bridge. "There are 1,500,000 orphans. Disease takes them by thousands. These children can be saved."

"We are greatly impressed with the work of the missionaries in Latin-America and Mexico because they are trying to get hold of the youth, especially the boys, to get them started right. That means in ten years a new generation of forceful, powerful men."

"Therefore, some of us business men thought we could join forces with the missionaries of all churches to help save thousands of these children. This movement would help all educational, medical and religious work and would emanate from a non-sectarian group."

It was announced that Latin-American will be benefited to the extent of \$8,000,000 through the general centenary movement fund. According to Dr. William Trester, director of Methodist missionary work in Mexico, this sum would be expended upon the church and educational system under the direction of the Methodist church.
