

# AMERICANS TO LEAD PARADE

### Through London Saturday Night in Honor of Allies' Victory

### PARTS ARRANGED IN ALPHABETICAL ORDER

### Gen. Pershing Will Lead a Composite Regiment of 3,300 U. S. Troops

London, Tuesday, July 15 (via Montreal).—A composite regiment of United States soldiers, 3,300 strong, headed by General Pershing will lead the great victory march through London on Saturday, July 19, according to the completed program announced to-night. The decision to have the allied troops march in alphabetical order as to nations resulted in the place of honor going to the Americans. The parade will take an unusual route, starting from Hyde Park chiefly and proceeding along the south side of the Thames.

### MUST STAY IN WATERBURY.

But Mrs. Mary McCarthy Is to Be Allowed Out of Asylum.

Rutland, July 16.—Mrs. Mary McCarthy of West Rutland, who murdered her sister, Miss Kate Kerrigan, at their home Aug. 9, 1914, by shooting, and who has since been in the state hospital for criminal insane at Waterbury, has been released from the institution conditionally by Judge Fred M. Butler of this city and Assistant Judges Edwin Horton of Chittenden and Samuel R. Hitchcock of West Haven. Under the court order the woman is not permitted to leave the village of Waterbury or to see her husband, it being arranged that her four children will live with her. During her period of liberty, which is subject to revocation if the court sees fit, she will constantly be under the observation of the asylum superintendent and she must abstain from the use of intoxicants in any form.

The release of Mrs. McCarthy is the outcome of a petition to the court by Webber & Leamy, her attorneys, who represented that the woman is sane at the present time and will in all probability remain so unless the environments under which she lived at the time of the crime is permitted to return. It was claimed that excessive use of intoxicating liquor, to which both Mr. and Mrs. McCarthy were addicted, was in a large measure responsible for her condition at the time of the homicide. The attorneys showed that Mrs. McCarthy's daughters were badly in need of a mother's guidance, their father not being a fit person to care for them. Their contention was supported by evidence.

## GET A GOOD GRIP ON HEALTH

Look out for the unnatural weakness that indicates thinning of the blood and lack of power. It means that your bodily organs are starving for want of good nourishment; that the red corpuscles are fewer, unequal to demands of health. Hood's Sarsaparilla increases strength of the delicate and nervous, restores red corpuscles, makes the blood carry health to every part, creates an appetite. If you need a good cathartic medicine, Hood's Pills will satisfy.—Adv.

## "A PRICE PAID" FOR JAPAN'S SIGNATURE

### Senator Lodge Declares Shantung Settlement Secured Japan's Name to League of Nations.

Washington, July 16.—Senator Lodge, the Republican leader, charged in the Senate yesterday during debate on the peace treaty that the Shantung settlement was "a price paid" for Japan's signature to the league of nations with the robbing of China as the consideration.

Senator Phipps, Republican, of Colorado in a brief address, declared he could not support the league of nations covenant in its present form because it did not give proper protection to American sovereignty. "Shantung was a price paid and all the world knows it," Mr. Lodge said. "There is no statute of limitations that runs against a great wrong like that." Reciting how Germany secured the Shantung concessions and how Japan succeeded Germany by virtue of war, Senator Lodge continued: "England and France took Belgium away from Germany during the war. Does that give them a claim to Belgium? Shantung was not an enemy country like Flume. It was handed over to Japan against the protests of some of our delegates and the experts charged with this question. "It was handed over because Japan's signature was needed to the league. It was done as a necessity. It takes the territory of a friend, an ally who had been loyal—handed over to a great military power in the east."

## "FOREMOST MAN IN THE WORLD."

### Declares Former Speaker Clark of President in House.

Washington, July 16.—Republicans may find fault with President Wilson, but, "by verdict of the peoples of the world, he is the foremost man in all the world," Democratic Leader Clark declared in an address yesterday in the House during debate on the sundry civil bill. Answering a speech by Republican Leader Mondell, who asserted that if the president had been home when the sundry bill was passed it would not have been necessary for him to veto it, Mr. Clark said Republicans delighted to find fault with almost everything Mr. Wilson did. The House appropriation committee decided yesterday to recommend repassage of the bill and decided to recommend a provision making \$12,000,000 immediately available for the federal board of vocational education and allowing the board 288 instead of 52 employees at salaries of \$2,500 a year or more. The measure as vetoed by the president, carried only \$6,000,000 for the board for use in rehabilitation work and cancelled a similar appropriation in another bill.

### Women in Business.

Woman's power in America is well illustrated by the thousands of women who entered almost every line of business to replace men who were drafted during the war. Health proved their strongest asset. Many women, however, developed weak, nervous conditions and could not stand the strain of a business life. Such women should remember there is one tried and true remedy in Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been restoring health and strength to the women of America.—Adv.

# What \$50 Will Do Now

You know what \$50 is; but maybe you haven't a very clear idea what \$50 worth of clothes is. We've done something special in connection with \$50 suits and we want you to know it.

They're the greatest values you ever saw at the price; the fine fabrics and tailoring that only the best custom tailors offer. Hart Schaffner & Marx make the clothes; nobody can produce finer ones.

After all is said and done, the price is meaningless until you see the clothes; then you'll appreciate you're getting something unusual for your money.

All styles; all sizes: models for so-called hard-to-fit men.

The mother continued her way to the door with the remark, "O, 'e aint, aint 'e? But you're a disturbin' of 'im!"—Farm and Home (London).

## Sanitary Soda Water

No beverage in the world is more wholesome or deliciously refreshing than bottled soda water if that soda water is pure and the bottles clean. Pure soda water means a beverage consisting of pure water, pure carbonic gas, pure sugar and pure, wholesome flavoring extract. Pure water is our first consideration. Every drop of water that goes into our goods goes through a filtration process which makes it safe for the public to drink. Some dealers are careless as to the quality and purity of the goods they sell. They place their business with the bottler who will quote them the lowest price, so they can make the largest profit for themselves, as they charge the public the same price as other dealers charge the public on first-class, clean, pure, sanitary goods. The public's greatest safeguard is to ask for Granite City Sodas and refuse to buy goods of any shops that do not measure up to the highest standard.
