MONTPELIER

City Council Considering Cutting Down Expenditures to Permit Street Work.

A special meeting of Montpelier city council took place Thursday evening. It was called for the purpose of deciding whether the appropriations in some of the departments should be reduced in order that the work that has been started on State street shall be completed. The finance committee, which was asked at the last regular meeting to see what could be done along similar lines, had no report ready, so it was the sense of the council that the committee bring the accounts up to date and that they report at the next meeting as to what can be done. The street committee has started a good piece of work on lower State street and wants to complete it, and the street is so rough that it apparently needs the work.

The council put into effect an ordinance directing that all vehicles left standing with 15 feet of a hydrant shall be moved. This is done as a result of the fire department being unable recently to get to a hydrant that was blocked by automobiles. The matter of a part of the police force being allowed to go to the state fair, with pay, was left to the police committee, with power to act. The matter of allowing the American legion to have the use of the memorial room was left to the property committee.

Belle L. Richardson in probate court has been appointed administratrix of the estate of Plummer Richardson, late of Worcester. Delia Beard of Barre Town has been appointed guardian of Benjamin and Olin Bedard, minors, in Barre Town.

Dr. C. H. Burr has organized the health boards in Waitsfield and Warren. The chairman of committees who will look after the local arrangements of the teachers' convention in October, will hold another meeting Monday evening.

Amos Lanier and family of Worcester, Mass., are visiting relatives in the city. Amos Lanier, sr., who has been ill for some weeks is not gaining very fast. The condition of Leo Matthew, who
