The value of the work done in any community by a district nurse is coming to be better understood by the public at large and more and more cities and towns are establishing such helps.

The Barre Woman's club directs the work in our city and Miss Gwendolyn Pitkin, the nurse, will gladly respond to calls for assistance. The aim of those having it in charge is to do all the possible good they can and wherever needed.

Ernest Carlson, who figured in an automobile collision with the car of Fred Wheeler of Marshfield, between Plainfield and Marshfield, Sunday, states that he was following the Wheeler car and that both were going rapidly when the driver of the Wheeler car put on brakes and stopped without signaling that he intended to stop, with the result that the Carlson car bumped into the rear of the Wheeler automobile. He says that had he been given warning that the Wheeler car was going to stop he might have averted the collision.

On the opening of the evening business school at Goddard seminary next Tuesday, Barre boys and girls who, by reason of the epidemic of influenza last year, were compelled to give up their school work and whose families received assistance from the city's charity department may receive free tuition. This opportunity is made possible through the action of the trustees of the school last June. The Netop class of the Methodist Sunday school held its monthly business meeting and social with Mrs. D. C. Jarvis of Orange street last night, and a goodly number of members were present. Railroad officials foresaw the demand for extra coaches to convey the large number of people going to the Dog River Valley fair, and this morning, when the 8:10 train pulled out, two extra coaches were well filled with people from this district. A great many more left on the noon train, as well as others by automobile. This evening a dance will be held on the fair grounds, and many young people from Barre are planning to be there.

The Gaiety club held their monthly dance last evening at the K. of C. hall. There were about 40 present, and all enjoyed a pleasant novelty dance. Confetti and streamers used at the dance added to the novelties, as did the caps which were distributed during the grand march.

All wore the paper caps, which were numbered, and they chose their partners by them. Refreshments were served, consisting of ice cream, cake and wafers. The committee in charge of the affair was Miss Laura Morvalli, Miss Emma Corti, Miss Lena Buzzi, Ermanno Valise and Henry Fasola. Carroll's orchestra furnished music.

The city stone crusher at Young Brothers' stoned, off Blackwell street, was in running order once again yesterday afternoon for the first time in two weeks.

This piece of machinery has caused unlimited trouble to the street department since its installation early last spring when it replaced one of a similar make. Neither of these machines has given satisfaction as to wear; and it is the opinion of a few citizens that had the committee retained the old Acme machine better results would have been obtained.

The machine taken, which was replaced by the present outfit, was purchased by the city three years ago and has caused a vast amount of delay by constant breakdowns. This machine at Blackwell street, built by the same company, has suffered similarly. In order to set it right again separate parts from Boston had to be sent, thereby causing a delay in street work for several days.

The steam roller was also put in operation again yesterday, having been under repair for the past week.
