### GROTON

Automobiles of P. A. Smith and Frank Rosa Collided.

An automobile accident occurred Saturday evening near the Ryegate line. About 7 o'clock P. A. Smith, accompanied by Mrs. Smith and Mrs. C. J. Bailey, was returning from South Ryegate, when near the residence of Mrs. Christie Whitehill they met the car of Frank Rosa of the latter place, the two autos coming together with considerable impact. Fortunately none of the occupants of either car were injured but the Ford of Mr. Smith, being the smaller of the two, was badly damaged, both front wheels, axle and mudguard being demolished.

### WELLS RIVER

At a fire precinct meeting held in Woodville last Friday evening it was voted to put in the new waterworks that have been under discussion for some time. The option of the water property situated between Haverhill and East Haverhill was voted to be accepted and that a detailed report be made at the next March meeting, after which it is expected that the work will be begun. This will give Woodville a water system of good drinking water and will place it independent of the railroad which now controls the system under the name of the Woodville Aqueduct Co. The purchase price of water privilege was around \$6,000. There has been some talk of interesting the people in Wells River in this system, thus giving them water for free; but this looks like a doubtful undertaking, owing to the large number of springs which surround the village on all sides and which would, if properly developed, give all the water needed for Wells River and many a village of the same size.

The sale of Montleith place at McIndoes was reported last week. This farm, which controls the water rights of the Connecticut river in that place, is situated in the village proper and contains a large amount of meadow land. The sale was made by Johnson, the present owner, to a man in Waterford for \$40,000, an increase of about \$20,000 over what he paid for it several years ago. This brings to mind the report that Ford has had agents all through this section buying in such sites and there is no doubt but what his agents have carefully examined this property, but the logical opinion here is that it means the erection of a pulp and paper mill, possibly by the C. V. L. Co. If either project turns out correct it means the making of the place, putting it back on the Vermont map once again.

The annual church meeting was held in the Congregational church last Friday evening. A supper was served by the ladies, after which the roll call and business meeting was held. The same officers were elected for the ensuing year. Mrs. Kate D. Lee of Peterboro, N. H., has been spending several days with Mrs. John Peck, visiting friends in town.

A party of six, including Dr. Woodman, Samuel Hutchins, and Philo Van Dyke, motored to Hanover last Saturday, where they saw Dartmouth played off their feet in the first half, and won by a score of 13 to 0, only through their superior weight. The following item was copied from the Hackensack, N. Smith, only daughter of Mr. and Mrs. Edward L. Smith, to Percy DeCarteret of Placerville, Cal., was celebrated at the home of the bride's parents on Kinderkamack road, North Hackensack. The Rev. W. Descending the stairway, which was decorated and arched with ferns, the bride, preceded by the flower girl, entered the reception room, where she was met by her father, who gave her away in marriage. # "Nuxated Iron Put Added Power Behind My Punch"

## Says Jack Dempsey—Tiger Of The Ring Heavyweight Champion of the World Tells A Secret of the Training Which Helped Get Him Into Such Superb Condition That He Was Able to Whip the Mighty Jess Willard and Prove Himself

Jack Kearns, Manager for Dempsey, Jimmy DeForest, Chief Trainer and Others Give Opinions—How Nuxated Iron Helps Strengthen the Nerves, Restore Wasted Tissue and Build RED BLOOD, STRENGTH and ENDURANCE.

Since his overwhelming victory at Toledo when he wrested the World's Championship title from the Goatshead Jess Willard, Jack Dempsey, the modern David and Miracle Man of the Pacific World—Jack Kearns, his manager, and Jimmy DeForest, his chief trainer, have been besieged by inquiries as to the methods employed in conditioning him in such superb condition. That Dempsey used Nuxated Iron as a part of his training which produced such marvelous physical development as to make him a veritable human dynamo, should prove conclusively the paramount value he attached to this master strength and blood builder and he explains below why he now recommends it to others.

Just as when a man's life is at stake, physicians seek only the tried and proven treatment, so when the World's Championship hung in the balance, Dempsey's trainers did not stop to experiment with metallic iron preparations, but they insisted upon having only genuine Nuxated Iron, which they felt could be absolutely relied upon to help build red blood, power and stamina.

In connection with this feature of his training, which Dempsey himself makes a statement below, Jimmy DeForest, the Champion's Chief Trainer, is quoted as saying: "I have been a regular user of Nuxated Iron since the beginning of my career in the ring. It has helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said: "In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength-building iron could withstand the terrific onslaughts of a giant like Willard. It should occur to

Manager Jack Kearns who closely watched from day to day the progress of Dempsey's training in which Nuxated Iron played a part and who Dempsey's victory over Willard.

every thinking person that if a man is physically fit as Dempsey should consider it advisable to take Nuxated Iron, the average man or woman who has no lack of iron in the blood. There is no lack of iron in the blood. There is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron.

When, in the providence of God, a servant of Jesus Christ like the late Rev. N. M. Shaw, of 131 South Berlin street, Montpelier, passes from mortal life, it seems only fitting and just that some word of special tribute to his memory appear in public print. We come more and more to estimate men for what they are in the strength of their character, and for what their works and their general influence has meant to the world for real and abiding good.

Rev. Newton Munger Shaw was an only son of John K. and Eliza Jane (Derby) Shaw, late of North Hero, Vt., was born Oct. 7th, 1864, and died at Montpelier, Sept. 22nd, 1919, thus 54 years, 11 months and 15 days of age at the time of his death. He is survived by a half-sister, Mrs. Flora Gear of New York City, also by his second companion, Mrs. Mary Boroughs Shaw and Miss Alice May Shaw, of Montpelier.

The deceased experienced religion when a lad before entering his teens. His early life was characterized by straightforward integrity and thorough conscientiousness. When twenty or twenty-one years of age he began to hold religious services, and at twenty-eight received his first appointment under the auspices of conference. This appointment was Topsham, Vt., in 1892, where he won the hearts of the people in a bond of friendship which has continued in its strength through all the years since. The young pastor had previously taken to wife Miss S. Emma Hoag, daughter of James Hoag, of Grand Isle. It was in Topsham that Alice May was born, and although of feeble health through all the years, yet a boon from Heaven to the parents, and a great assistance to the work in every field where they have labored. During the thirty-four years, in all, of his ministerial life he has held eighteen or more different pastorates in four different states of the union, besides doing a considerable amount of mission work, independent and otherwise. Most of his fields of labor have been visited by seasons of special revival. He excelled as a house-to-house pastoral visitor. Like the apostle Paul he taught not only publicly, but from house-to-house, and, like the apostle, oftentimes with tears. He well understood what, it is to be feared, many pastors are too slow to
